

Media Services
Annual Report
FY 06-07

With more faculty incorporating technology driven projects into their courses as well as using presentational media for classes and conferences, it was a busy year for the staff of Media Services.

There were also a record number of events that the department supported as well as on going projects such as a new WCSU television commercial, a video for the university ball, and a video for the Board of Trustees' meeting.

The following list includes accomplishments and highlights of the past year.

“We are Four, We are One”

- Produced a pre-show presentation for the Chancellor's Inauguration.

Peretti's Oral History Project

- Provided equipment consultation, technical support and equipment circulation for Burt Peretti's Oral History Project. (President's Initiative Project)

Shaw's Hatting Documentary

- Conducted all production for Darla Shaw's documentary of the Danbury Hatting Industry. (President's Initiative Project)

Sias University Videoconferences

- Provided technical and pedagogical support for videoconferences between WCSU and Sias University located in China. (President's Initiative Project)

Cronin's MKT 395 Project

- Instructed marketing students on post production techniques and provided them with technical support during the editing process of their projects for Candlewood Marketing.

Faculty Conference Support

- Created and enhanced media for several faculty members (Casey Jordan, Dan Barrett, Karen Koza, etc.) for off-site conference presentations.

Instructional Design Center

- Researching and visiting other university instructional design centers in preparation for a report to the Provost.

The Weather People (Meteorology Department)

- Upgraded The Weather People webpage and created a new opening for the broadcast.

WS Observatory

- Consulted with Dennis Dawson and provided solutions to upgrade technology in the WS Observatory.

Alumni Hall Audio System

- Designed and facilitated a new configuration for the Alumni Hall audio system to meet the needs of the weekly Coffee House.

Media Services Editing System

- Designed and installed a new editing system which will allow for a temporary upgrade. A new system is required for a long term solution.

WS Campus Center

- Consulted with Paul Simon, recommended and reviewed plans for the WSCC media equipment.
- Assisted with the preparation of the bid document for equipment.

Editing Stations (Communications)

- Provide technical support for the new Media Arts editing lab located in Media Services. This enables students greater access to equipment during the sixty-five hours per week that Media Services is open.

University Assistant Support for Media Arts Editing Lab

- Funded and assigned a university assistant to staff the Media Arts Editing Lab in Berkshire Hall nineteen hours per week allowing students greater access to the lab.

Logan Tribute Video

- Produced a tribute video for Professor Khalda Logan's memorial service.

Schramm Retirement Video

- Produced a video for Harry Schramm's retirement event.
