The Department of Physics, Astronomy and Meteorology at Western Connecticut State University is seeking several adjunct instructors for the upcoming fall 2015 semester to teach undergraduate courses in:

- Energy (PHY 136)
- Introductory Electronics (PHY 170)
- General Physics I (PHY 110), calculus-based
- General Physics I (PHY 120), algebra-based

Energy (PHY 136) lectures are every Tuesday and Thursday, 9:25 to 10:40 a.m. and the laboratory session is Thursday 12:15 – 2:05 p.m. This course is for undergraduate students who are non-science majors.

The electronics course (PHY 170) lectures are every Tuesday and Thursday, 12:15 to 1:05 p.m. with the laboratory sessions following immediately on both days from 1:10 – 3:00 p.m. This course is for undergraduate students who are non-science majors.

The calculus-based physics course (PHY 110) is for students majoring in science and engineering. Its lecture session is MWF from 8:25 – 9:15 a.m. One laboratory session is from 9:00 – 11:50 a.m. on Thursday and a second laboratory session is Wednesday afternoon from 4:00 – 6:50 p.m. Laboratory sessions each include a 50 minute problem solving period. A candidate instructor is expected to teach one or both of these laboratory sessions.

The algebra-based physics course (PHY 120) is for students majoring in life science, pre-medicine and related disciplines. The lecture session is MWF from 10:50 – 11:40 a.m. The laboratory session is from 2:50 – 5:40 p.m. on Monday, it includes a 50 minute problem solving period.

Course descriptions are available at: [http://www.wcsu.edu/catalogs/undergraduate/sas/courses/physics/](http://www.wcsu.edu/catalogs/undergraduate/sas/courses/physics/)

**Qualifications:** Master's degree or Ph.D. in physics or engineering.

**Salary:** For an instructor with a Master's degree, the salary starts at $1,526 per credit hour. For a Ph.D., the salary starts at $1,647 per credit hour.

Interested applicants should contact: J. P. Boyle, Ph.D., Department Chair; e-mail: boylej@wcsu.edu

The Department of Physics, Astronomy and Meteorology is housed in the state of the art science building on the Midtown Campus of Western Connecticut State University. For more information, visit [http://www.wcsu.edu/physics/](http://www.wcsu.edu/physics/)
