

Western Connecticut State University
celebrates the 20th Anniversary of the Hubble Space Telescope

women in science and engineering

WCSU presents Women in Science and Engineering, an opportunity for girls and young women to learn about careers in science and technology. Our presenters are successful scientists, educators, future astronauts and businesswomen who broke through the barriers women often face in these fields.

Dr. Ruth Gyure, associate professor of Biological and Environmental Sciences, is a scholar in residence for the American Society for Microbiology and is a recipient of the Connecticut State University System Board of Trustees Teaching Award.

Suzanne Woll is the lead systems engineer on the Sabatier System at Hamilton Sundstrand and the Region F Senator for the Society of Women Engineers.

Valentina Lugo is a graduate of MIT and a mechanical design engineer with Hamilton Sundstrand.

Rachael Manzer is a science coach in the Suffield School District, president of the Connecticut Science Teachers Association and in training as a NASA teacher astronaut.
