If there are any incomplete grades (INC) then the system will automatically display a screen where additional information may be entered related to the incomplete grade specifically **the final grade and the extension date.**

If no data is entered on this screen the system is set-up to place an "F" as the default grade for any course where work is not completed within the timeframe as stated by the policy (currently 6 weeks into the next semester).

However, faculty may enter an extension date on this screen, **if they authorize the student to have more time to complete the course work.**

Additionally, a student may be given a grade other than an “F” if there is some course work completed. For example, if a student has completed enough work to earn a “C-” with or without a missing assignment, the Incomplete Final Grade field may be set to a “C-” If the student does not turn in the assignment then the “C-” grade will be applied. However, if the student does turn in the assignment, then a new final grade may be entered for example a “B.”

Entering an Incomplete grade for a **Pass/Fail course**: follow same procedure to enter grades, on the Incomplete Final Grade page - the **default grade F needs to be changed to FP.**
