Theatre Arts at Western

Follow your dream with a B.A. in Musical Theatre or a B.A. in Theatre Arts from Western Connecticut State University. Students in the theatre arts program have four exciting options of study in the entertainment field: performance, design/tech, theatre arts management and drama studies.

With five full-time faculty and six adjuncts, the range of expertise includes: design/tech and directing experience in New York and regional theatre; performers from Broadway to Summer Stock; past managers of theatres from both coasts; and Emmy Award-winning designers from the television industry.

The theatre arts department maintains an active production schedule with two main stage shows each year; two Reimold Theatre shows each year; two children’s theatre productions that perform for elementary and middle school students each year; and a variety of student-directed performances coming from our directing, play production and senior portfolio classes.

Challenging, demanding and professional, the curriculum is enhanced by annual productions of contemporary pieces that are showcased in New York City, annual NYC agent/casting director showcases for performance graduates, bi-annual participation in the Edinburgh Fringe Festival, sponsorship of students to attend the USITT national convention, and attendance at the Humana Festival of New Plays in Louisville.

Since 2008, we have participated in the Kennedy Center American College Theater Festival, which has earned our students and productions numerous awards. The focus of our program is to prepare our students to enter the entertainment business with a strong liberal arts background. Former students have been employed at The Long Wharf Theatre, Manhattan Theatre Club, Symphony Space, Fisher Center, Goodspeed Opera, Long Beach Playhouse, the LA Opera and many other venues throughout the country. Many are actively working freelance in the film, television and theatre industry.

This production is entered in the Kennedy Center American College Theater Festival (KCACTF). The aims of this national theater education program are to identify and promote quality in college-level theater production. To this end, each production entered is eligible for a response by a regional KCACTF representative, and selected students and faculty are invited to participate in KCACTF programs involving scholarships, internships, grants and awards for actors, directors, dramaturgs, playwrights, designers, stage managers and critics at both the regional and national levels.

Productions entered on the Participating level are eligible for inclusion at the KCACTF regional festival and can also be considered for invitation to the KCACTF national festival at the John F. Kennedy Center for the Performing Arts in Washington, DC in the spring of 2013.

Last year more than 1,300 productions were entered in the KCACTF involving more than 200,000 students nationwide. By entering this production, our theater department is sharing in the KCACTF goals to recognize, reward and celebrate the exemplary work produced in college and university theaters across the nation.
