Business Courses

11035 MGT 320-74 Operations Management 3 SH
R 5:25 – 7:55 p.m. K. Burnard F 121

Operations management is concerned with the management of the production function of organizations in which services and goods are produced. This management process is separated into the general areas of scheduling, quality, materials and methods. The course presents concepts and tools necessary for effective and efficient management of these areas, their strong interactions and their effects on employees. Prerequisite: FIN 230 and junior standing.

11055 MGT 405-71 Sm. Bus. Entrepreneurship. 3 SH
T 5:25 – 7:55 p.m. P. Assenza F 122

This course addresses entrepreneurship as it relates to initiating new business ventures. Special attention is given to developing workable ideas, funding, marketing and structuring new ventures as they support the development of a formal business plan. Entrepreneurial activities within large business organizations are also highlighted
