MARKETING PROFILE

According to the Bureau of Labor Statics, employment of marketing occupations is projected to grow 10 percent from 2016 to 2026, faster than the average for all occupations. Employment growth will vary by occupation. Advertising, promotional, and marketing campaigns are expected to continue to be essential as organizations seek to maintain and expand their market share. Advertising, promotions, and marketing professionals will be needed to plan, direct, and coordinate advertising and promotional campaigns, as well as to introduce new products into the marketplace.

ASSOCIATIONS

Professional associations are a great way for college students, recent graduates, and career changers to enhance personal and professional development while being provided endless networking opportunities. Being a member of an association also offers chances to attend conferences, learn about latest industry trends, scholarships, internship opportunities, along with attitudes and competencies expected in the industries of interest. Many associations encourage students to participate and even offer drastically reduced membership rates. Being a member of an association could be the best thing you do for your career.
