

HARBOR WATCH

Interested in pursuing a career in science? Join us this summer for a scientific internship like no other!

Gain on-the-job field and laboratory experience working alongside staff members and participate in ongoing research projects such as:

- Water quality monitoring of rivers and beaches in Fairfield County
- Pollution source detection in storm water systems
- Dissolved oxygen profile surveys

Applicants must be willing to work outdoors in a variety of conditions.

Time Frame – May through August, 2020
(*Monday through Thursday*)

Capacity – 4-6 Undergraduate Students

To Apply – Positions will be open late 2019. Visit harborwatch.org and select the Student Programs tab
