Introduction

The *Faculty Handbook* is issued to all full-time faculty in fulfillment of contractual requirements of the collective bargaining agreements between the Connecticut State University and the American Association of University Professors and SUOAF/AFSCME. In the event of discrepancies between provisions contained in the Faculty Handbook and the collective bargaining agreements, the collective bargaining agreements govern.

The *Faculty Handbook* also contains all Bylaws of the University Senate and its standing committees, plus policy documents adopted by the Senate.

The Purpose of the *Faculty Handbook*, in addition to meeting contractual obligations, is to provide faculty with an overview of the organization, policies, procedures, and services of Western Connecticut State University. It does not attempt to be definitive, nor does it duplicate material that is readily available in other documents. These documents are available in the Ruth A. Haas Library and other locations, as indicated.

Except for the section on University Governance, the *Faculty Handbook* is also a reference work for part-time teaching faculty and all other University employees. Full time and part-time AAUP faculty should refer to the Collective Bargaining Agreement between the Connecticut State University American Association of University Professors and the Board of Trustees for Connecticut State University, August 25, 2007-August 25, 2011, and to successor Agreements. Nomination and Elections Committee Bylaws

I. Objectives

A. To run elections every spring to fill those vacancies which occur on University committees. Spring Election procedures will be initiated at the very beginning of the spring term. Elections will be completed in time for all new members to attend the May meeting of their committee so that the chairperson for the following year can be selected at that meeting.

B. To run special elections as requested by the University Senate President.

II. Areas Of Responsibility

A. To survey the general faculty for willingness to serve on the various committees.

B. To determine eligibility of people willing to serve on specific committees.

C. To prepare, distribute, collect, and process ballots at the various stages of the nomination and election process.

D. To coordinate any University elections with the nominations and elections committees of the various University bodies (schools, librarians/counselors/coaches, non-teaching faculty, etc.).

III. Membership

Total membership: 3

University Senate Vice President and two (2) general faculty members elected by the general faculty for overlapping two-year terms.

IV. Conduct Of Business

A. Meetings

1. The first meeting of each academic year shall be convened by the previous year's chairperson if that individual still serves on the committee. In his/her absence, the President of the University Senate will designate a committee member to convene the committee.
2. A quorum consists of two members.

B. Officers

The chairperson is the elected general faculty member serving in his/her second year.

C. Reports

1. Committee records and reports from the current and previous academic years are maintained on file with the committee chair, specifically the tallies from each stage of the election are kept, ballots are destroyed.
2. In order to run elections, the committee must be provided by the University Senate with the membership rules for each committee. Any question about the interpretation of these rules will be settled by the University Senate President.
3. Reports of election results are sent to the University Senate President, the Provost/Vice President for Academic Affairs, and are published in the WestConn Report.
4. Election requests and instructions come from the University Senate President.

D. Amendments

These Bylaws may be amended by a two-thirds vote of members present at any regularly scheduled meeting at which there is a quorum, and the approval of the University Senate, and the President of the University.

E. Procedures for elections

There are at most four stages to the election procedure.

Stage 1 Willingness to Serve

The purpose of this stage is to find who is willing to serve on what committee. A copy of those results is sent to the Provost/Vice President for Academic Affairs who makes appointments to committees.

Special case a

If the number of people willing to serve on a committee is fewer than or equal to the number of elected vacancies on that committee, then those people expressing a willingness to serve will automatically become members of that committee. The remaining elected positions, if any, are to be filled by appointment by the President of the University Senate, with the advice of the Provost/Vice President for Academic Affairs.

Stage 2 First Ballot

The purpose of this stage is to reduce the number of people running for an elected position to no more than two, except in the case of a tie.

Special case b

If, before stage 2, the number of people willing to serve on a committee is already fewer than or equal to twice the number of vacancies, then this ballot determines the composition of the committee, and no further balloting need be held, except in the case of a tie.

Special case c

This ballot may also determine the composition of a committee in the following circumstance. Suppose v is the number of vacancies on a committee. If exactly v people get a majority then they become members of the committee and consequently no more balloting is needed. Here majority is defined as greater than 50% of the votes cast for a position.

Stage 3 Final Ballot

This ballot determines the composition of a committee unless, perhaps, there is a tie. This determination is made as follows. If there are positions voted for as a group, then the people with the highest votes are elected, unless there is a tie.

Special case d

If there is a tie, there are three options:

1. One person may accede to the other.
2. The winner can be determined by the flip of a coin.
3. If neither of the above options is agreeable to both parties, then there shall be a runoff election.

Stage 4 Runoff Ballot

A tie at this stage is broken by the flip of a coin.

Filling Vacancies

If a vacancy results from a resignation, the position is filled by the person with the next highest number of votes in the most recent election for that position.

UNIVERSITY GOVERNANCE

Strategic Planning Process

A. Definition And Recognition Of Base Units

A base unit, a term used for institutional strategic planning purposes only in the process monitored by the University Planning and Budgeting Committee, is defined as the smallest unit which receives any support from the University and is, therefore, included in the strategic planning process. The following are base units:

1. Academic Departments;
2. Subdivisions of Student Affairs; Academic Affairs; Finance & Administration; Institutional Advancement; and Office of Human Resources.
3. Organizations such as centers, institutes and clinics seeking permanent University status. Organizations such as centers, institutes, and clinics may receive University support for up to one year for the purpose of planning and development. The organizational unit that is sponsoring a new center, institute, or clinic shall report to the UPBC that the planning process has begun. After one year, the new center, institute, or clinic shall seek formal approval from the UPBC. After the one-year planning period, receipt of support such as personnel, space, and/or financial resources, will be contingent upon formal administrative recognition.

Base units are granted formal recognition by the President after he has received recommendations from:

- a. The department(s) or administrative unit(s) involved.
- b. The University Planning & Budgeting Committee.
- c. The University Senate.

Organizations such as centers, institutes, and clinics must have bylaws reviewed by the University Senate before the Senate makes a recommendation to the President.

Existing center shall also have their bylaws reviewed by the Senate, which shall make recommendations to the University.

The President may then request formal approval by the Board of Trustees.

*Adopted: Feb. 20, 1985
Admin. Approval: Mar. 28, 1985
Revised Senate: Oct. 20, 1993 (R-93-9-1)
Admin. Approval: Dec. 13, 1993*

B. Procedure For Recognizing Base Units

The department(s) or administrative unit(s) involved would submit reports to the University Planning and Budget Committee (UPBC) which would study the matter. The UPBC would then report to the University Senate which would examine all aspects of the matter and make a recommendation to the University President.

Admin. Approval: Mar. 28, 1985

C. Role Of Governance And Strategic Planning

1. Identical terminology will be used to describe budgetary units and strategic planning units, such as base units and organizational units.
2. Base unit budget requests will be appended to organizational unit budgets and both will reflect the Strategic Plan.
3. Both the budget and the Strategic Plan will be divided by categories (personnel, other expenses, equipment, etc.)
4. The base unit budgets and the organization unit budgets will be forwarded to the University and Budgeting Committee for information purposes only at the same time that they are forwarded to the University vice presidents and the University Senate.

Admin. Approval: July 3, 1986

D. Definition Of A Strategic Plan

Strategic Planning is the process by which an organization determines what it wants to become and the means by which it achieves those ends. George Keller, in his seminal book entitled *Academic Strategy: The Management Revolution in Higher Education* (1983) provides some thoughtful comments on the nature of strategic planning in higher education. His observations are useful as the University begins the process of constructing a strategic plan. Keller argues that:

“Academic strategic decision making means that a college, school, or university and its leaders are active rather than passive about their position in history. To think strategically is to look intensely at contemporary history and your institution’s position in it and work on the planning process that actively confronts the historical movement, overcomes it, gets on top of it, or seizes opportunities latent in it. A campus with an academic strategy has a battle plan to get stronger and better in the teeth of historical conditions...Strategic thinking leads one into being an active defender, analyzer, or prospector, rather than a passive reactor.”

Strategic planning and management, other observe, has been defined as:

1. Setting goals that match institutional activities, competencies, and resources with the external environment’s present and future opportunities, demands, and risks.

2. Formulating alternative courses of short-term and long-term action for achieving goals.
3. Selecting and implementing a best course of action.
4. Directing and coordinating resources and activities to help assure successful performances.
5. Evaluating results to ensure that goals are met; and
6. Monitoring the appropriateness of the course of action and the necessity for modifications.¹

Such a process provides an excellent framework for re-engineering the management environment. Strategic planning models call for periodic analyses of the external environment, institutional strengths and weaknesses, and institutional values. Matching opportunities/constraints, strengths/weaknesses, and values enhances a university's ability to develop more responsible mission and goals statements and more appropriately, to link planning and budgeting. This institutional strategy is reinforced with a functional approach delineated in tactical plans, e.g., academic plan, financial plan, computing plan, etc. Finally, operational strategy is presented in unit plans which define actions to be taken within a budget cycle which, over time, result in the accomplishment of institutional goals.²

E. Assumptions

The strategic plan at Western Connecticut State University is firmly anchored in the priorities, values, and aspirations defined in the current Statement of Mission.

F. Strategic Planning Process

The five-year strategic plan is biennially cyclic, and reflects the following process.

1. Campus-wide discussions about the nature of strategic planning and the specific assumptions which underscore the development of the plan.
2. Significant involvement of the University Planning and Budget Committee, the Academic Council, and the University Cabinet in the development of the plan.

G. The Role Of The University Planning And Budget Committee (UPBC)

The University Planning and Budget Committee plays a critical role in the development and ongoing refinement of the University's strategic plan. The committee's responsibilities include:

1. The provision of a forum for discussion and debate about the assumptions of the Plan and the process by which it is developed.
2. The monitoring and review of the plan's execution in consultation with the President, the Vice Presidents, the Deans, the departments, and appropriate governance committees.
3. The provision of data which result from the University's ongoing assessment program.
4. Constant review and updating of the University's priorities.
5. The provision of a mechanism for evaluating whether or not the University should pursue new ideas or programs in light of its mission and priorities.

UNIVERSITY POLICY AND PROCEDURES

Instructional Departments – Department Bylaws

Each department has its own bylaws, which are on file in the department offices.

I. Department Chairperson

Each academic department is located within an appropriate school and has a Chairperson who is the official spokesperson for the department members. The Chairperson shall, under most circumstances, assume office on the first day of the academic year.

Selection Procedures

A. Preamble

The department has the primary responsibility for selecting the individual who will serve as Chairperson because of the role the Chairperson has in the Department. The position interfaces with both the academic and administrative spheres of the University so that the Administration also has a right to be involved in the selection process.

The Department has the role of selecting the nominee and no individual may be appointed as Department Chairperson unless that person has been approved by the Department. The Departments must therefore exercise care and responsibility in their selection.

The Administration has the right to appointment and no individual may serve as Department Chairperson unless appointed by the Administration. However, because of the responsibility exercised by the Department in making its selection, it is expected that the individual nominated will be appointed except for compelling reasons.

Careful consideration by those who are involved should be given to the nomination and appointment of the Department Chairperson.

The individual who is Chairperson should have ability and interest in working effectively with and having concern for the faculty of the Department and students who utilize the Department; in curriculum development and review; in the Department functioning smoothly as an entity in itself and as a part of the University; in representing the Department to the profession at large.

The eligibility requirements, such as academic credentials, years of experience, etc., and the term of office will be contained in the Department bylaws.

1. The Department, using the procedures and rules of eligibility as in its bylaws, elects one nominee.
2. The Department submits to the School Dean, in writing, the name of the nominee and specifies the term of office.
3. If the Dean and Department agree on the nominee, the Dean, as the designee of the President, appoints.
4. If the Dean disagrees with the Department's recommendation, the name is returned to the Department with an explanation, in writing, of the reasons for the disagreement. A mutually agreeable date is set at which time the Dean and Department meet to discuss and resolve the differences.
 - a. If the Dean and the Department resolve in favor of the nominee, the Dean, as designee of the President, appoints.
 - b. If the Dean and Department resolve in favor of a new election, the process goes back to Step 1.
 - c. In case of impasse, the process continues to Step 5.
5. In the event that an impasse arises and further discussion appears counterproductive, the following steps shall be taken:
 - a. The name of the nominee shall be forwarded by the Department to the President of the University.
 - b. The President shall call a joint meeting of the School Dean and the Department or Department's representatives. At this meeting, the rationale of the Dean and of the Department will be given to the President.
 - c. The President's recommendation will be given to the Department.
 - (1) If the recommendation is in favor of the Department, the President appoints the nominee as Chairperson.
 - (2) If the recommendation is not in favor of the Department, the procedure reverts to Step 1.
6. Department that wishes to select a Chairperson from off-campus
 - a. If a Department wishes to select a Chairperson from off-campus and the School Dean concurs and if there is a faculty position available in that Department, then a Department Search Committee shall be established. The Dean shall be an ex officio member of that Committee.
 - b. All established employment procedures for instructional faculty will be followed.
7. Chairperson for a Department formed from existing Departments
 - a. Follow the procedure as in A. 1-5.
8. Chairperson for newly created Departments
 - a. The Dean appoints a Search Committee of three faculty members from the School. The Dean serves as an ex officio member of the Committee.
 - b. All established employment procedures for instructional faculty will be followed.
9. Interim appointments caused by a leave of absence, resignation, or recall by the Department must be specified in Department bylaws.
 - a. Follow procedure as in A. 1-5. except that the term will end on the same date as the term of the individual being replaced.

10. Associate Chairpersons

The election of an Associate Chairperson, term of office, and recall procedures will be contained in the bylaws of those Departments who want an Associate chairperson. Total reassigned time for Chairpersons shall not exceed that provided by the CSU-AAUP contract.

11. Calendar for Selection of Department Chairperson

	Time Interval	Section to be initiated
a.	By 1 March of the year that the term of office of the Department Chairperson expires or within 10 School days of a vacancy occurring.	A.1
b.	Within 2 school days after A.1	A.2.
	Within 10 school days after A.2	A.3., or, if needed, A.4
c.	If needed, within 10 school days after a.4.	A.5. (A.5.a.and A.5.b.)
d.	If needed, within 14 school days after A.5. (A.5.a. and A.5.b.)	A.5.C.

B. Responsibilities of Chairperson

IV. Faculty And Department Responsibility For Student Advisement

A. Definition of Academic Advising

Academic advising is a "decision-making process during which students realize their maximum educational potential through communication and information exchanges with an advisor." (Thomas J. Grites) "It is the primary means of helping students benefit from an array of programs. It is always a process composed of timely responses in areas relevant to student education." (IDEA Paper No.3) Advising provides the student with assistance for optimum progression through the University experience with opportunities for continued personal and professional growth and fulfillment." (Wichita Report)

B. Responsibility for Academic Advising

The responsibility for appropriate and effective academic advisement rests with the faculty and the students. The faculty member is responsible for communicating accurate and up-to-date academic information. The student is responsible for implementing decisions derived from the advising process in order to fulfill the requirements necessary for graduation. Both the faculty member and the student must make a commitment to the advising process to enable it to be efficient and effective. Without a shared responsibility, academic advising will fail to achieve the goal of optimum progression through the University experience.

Senate Approval: May 15, 1985

C. Responsibilities of Faculty Advisors

Faculty members will each have a group of students assigned by their department for whose academic advisement they are responsible. The responsibilities of an advisor are:

1. To know the program requirements and University regulations with which the student must comply.
2. To assist each student in planning his/her sequence of courses to meet graduation requirements.
3. To approve, semester by semester, the specific program of courses which the student takes.
4. To refer students to appropriate University staff in matters which are outside the area of the faculty member's competence (e.g., Health Services, Counseling, Academic Deans, Graduate Dean, etc.)
5. To recommend to the Department Chair and to the appropriate dean any waivers or exceptions to the program requirements which he/she judges to be essential for the student's best academic interests.
6. To advise the department on the status of each advisee as he/she reaches various stages in his/her program (e.g., admission to standing as upper class major, approval of application for independent Study or Student Developed Study, etc.).

*Revised R-07-03-03
Admin. Approval 10/26/07*

D. Academic Advisement Duties

1. Students should meet an advisor appropriate to his/her major at least once a semester prior to registration academic interests.
2. Each Department Chair (or his/her designee) should coordinate academic advising procedures for his/her Department.
3. The advisor should be responsible for reviewing prerequisites, core requirements, and program requirements with the student.

E. Procedures

1. Each Department Chair should receive a list of majors by week 2 of the current semester (from the Computer Center via the Dean).
2. Each Department Chair should receive a student activity report for each major by week 3 of the current semester (from the Computer Center via the Dean).
3. All Departments have computer access to student transcripts. At such time, the score received by each student on the English and math placement exam should be included in the student's record, along with the required math and English course noted based upon these scores, and the Departments have access to that computerized record.
4. Departments should determine how individual students will be assigned to advisors and Chairs should be sure that all advisors are aware of advisement policies.
5. Adviser's responsibilities are included in the Recommendations of the Committee on Academic Advisement accepted by the Senate, November 1985, and approved by the University President.
6. The Office of Admissions should send the appropriate Department a program sheet with credits transferred clearly noted for each transfer student admitted.
7. If a student transfers from one Department to another, the new Department should be responsible for obtaining the student's file from the former Department.
8. Up-to-date Department program sheets should be available as University/School/Department requirements are changed.
9. Information to faculty about curriculum changes will be disseminated through appropriate channels.
10. Faculty workshop(s) on advisement should be offered.
11. Departments should begin registration advisement as early as possible each semester, and no later than the first day following the publication of semester schedules.

*Senate Approval: Feb. 19, 1986
Revised Senate R-07-03-03

V. Academic Probation Policy

- A. Academic probation letters from the Dean are sent concurrently with end-of-semester grade reports to each first semester freshman with a grade point average below 1.7 and to all other students with averages below 2.0. Students on probation must meet with their advisors to review their program requirements, course selections, credit loads, and other pertinent information.
- B. The probationary period will commence the semester following the one for which the letter of probation was initially issued. The Dean will review the student's activities during the period of probation.
- C. Probation shall be limited to one semester only, i.e., probation may not be extended to a consecutive semester.
- D. Should the student not meet the required average, the student shall be suspended for academic deficiency. Students on probation should consider a semester course load of 12 credit hours and limit their participation in co-curricular activities. Appeals to these policies should be made to the appropriate Dean who, for extenuating circumstances only, may waive the policy.

*Admin. Approval: April 18, 1986**

**Clarification of President: Of course, individual schools or programs may have standards for probation and dismissal from that school or program that are higher than the University standards. A student can be on probation or be dismissed from a school or program and still be in good standing at the University.*

VI: Minimum Student Preparation Hours

- A. The Faculty and Administration of the University endorse the concept of a issued guidelines to students of a minimum expectation of two hours preparation per hour of class time. This guideline will be stated at Student Orientation and be printed in both the Student Handbook and the Catalog.

1. This procedure is to be used when a CIP (Classification of Instructional Program) category code number exists and/or additional equipment and/or staffing is not required. Departments must include an explanation and supporting data justifying how or why no new resources (i.e., staffing, course rotation, library resources, technology resources, and laboratory facilities) are needed.
2. The department prepares and approves the change, addition, establishment, etc. and obtains the proper cover routing sheet from the Faculty Handbook. The proposal should include the course designation and number, title, description, prerequisite(s), level, outline, date, and any other information required by the Committee on Undergraduate Curriculum & Academic Standards (CUCAS) or the Graduate Council. Departmental approval indicates that all other affected departments have been notified. The material is sent to the chairperson of the school curriculum committee.
3. Both undergraduate and graduate courses material or program revision proposals with the proper cover routing sheet are sent to the school curriculum committee. The school curriculum committee is responsible for the complete contents of the proposal being sent to either CUCAS or the Graduate Council. If the school curriculum committee disapproves the proposal, with reasons, comments, or recommendations, it is sent back to the department chairperson.

**Pending the electronic set-up in the 2006-07 academic year, the electronic format approved by the Senate R-06-02-03 and approved by the President 6/9/06 will be as follows:*

- a. Departmental approval of the proposed change(s).
 - b. Transmission of the proposal to the appropriate school review committee in electronic form.
 - c. Each school review committee chair will electronically post the proposals and notify all University department chairs that they should check the proposals. (the place where this should be posted and the manner should be determined by the deans and the appropriate technical staff.)
 - d. Department chairs will decide whether they think their departments are affected and if so, go to the complete proposal. When a department chair thinks the change has an effect on the department, she or he will provide input to the review committee before or during the approval process
 - e. After the approval by the school committee, the proposal proceeds to the next step of the process as before (CUCAS or Graduate Council) where departments who consider themselves affected may also provide input.
4. The Committee on Undergraduate Curriculum and Academic Standards or the Graduate Council reviews the proposal. If approved, the proposal is sent for administrative review to the Provost/V.P. for Academic Affairs. If disapproved, the proposal, with reasons, comments, or recommendations, is sent back to the chairperson of the school curriculum committee and the department chairperson. The Committee on Undergraduate Curriculum and Academic Standards or the Graduate Council may consult with the department and/or school curriculum committee for clarification throughout the process.
 5. The chairperson of CUCAS, or where applicable the chairperson of the Graduate Council, the department chairperson, the appropriate Dean, and the Director of Graduate Studies (if applicable) are notified simultaneously of the administrative approval or disapproval with reasons, comments, or recommendations.
 6. The Office of Academic Affairs is responsible for initiating and overseeing the off-campus approval process required for program modification after a proposal has been approved on campus. The off-campus process includes the CSU System office, the CSU Board of Trustees, the Advisory Committee on Accreditation of the DHE, and the Board of Governors for Higher Education. Inquiries about this process should be directed to the office of Academic Affairs.

For off-campus submission, proposals should be in the format for program modification required by the Department of Higher Education (see Board of Governors, "Program Modification," *Guide to Licensure of New Academic Programs*).

- _____ MAJOR
- _____ OPTION
- _____ MINOR
- _____ NEW
- _____ COURSE
- _____ OTHER

PHASE I – PLANNING

1. This procedure is to be used for: a) programs (options, etc.) or courses with additional equipment and/or staff required, b) programs (options, etc.) where no CIP number exists, and c) programs (options, etc.) with additional equipment and/or staff not required and program CIP number exists.
2. The department prepares and approves a proposal for planning approval of not more than two (2) pages and obtains the proper cover routing sheet from the Faculty Handbook. The proposal should include answers to the following:
 - A. What are the educational equipment needs?
 - B. What are the staffing needs? (over a 4-year period)
 - C. What is the rationale for the proposal?
 - D. Are there any special room or facility needs (e.g., computer time, etc.)?
 - E. When would degrees be granted?
 - F. How does the program (course, etc.) meet the University strategic planning assumptions?
 - G. How much library material is already available on the campus/how much more library material is needed?
 - H. What is the implementation schedule?
3. The proposal, with appropriate number of copies, is sent to the chairperson of the University Planning & Budgeting Committee to determine whether the proposal fits into the strategic planning of the institution and what the possibilities are for staff, equipment, facilities, etc.
4. The University Planning & Budgeting Committee recommendation, either approval for planning or disapproval with reasons, comments or recommendations is sent to the University President for administrative review. A copy of the committee's recommendation is also sent simultaneously to the department chairperson.
5. The University President will review the proposal and send his/her approval for planning or disapproval with reasons, comments or recommendations to the department chairperson and the chairperson of the University Planning & Budgeting Committee simultaneously. If approved, the chairperson of the Committee on Undergraduate Curriculum and Academic Standards or the Graduate Council should also be notified.
6. *If the proposal is approved, the department may proceed with PHASE II.*

PHASE II – CURRICULUM DEVELOPMENT

7. The department prepares and approves the full proposal for the new program, course, etc., including the original proposal with administrative planning approval, and obtains the proper cover routing sheet from the Faculty Handbook. The proposal should include the course designation and number, title, description, prerequisite(s), level, outline and any other information required by the Committee on Undergraduate Curriculum and Academic Standards or the Graduate Council. Departmental approval indicates that all other affected departments have been notified.

8. A. Undergraduate and graduate course material or undergraduate program proposals with the proper cover routing sheet are sent to the chairperson of the school curriculum committee, with the appropriate number of copies. If the school curriculum committee approves, the proposal is sent to the chairperson of the Committee on Undergraduate Curriculum and Academic Standards or the Graduate Council. The school curriculum committee is responsible for the complete contents of the proposal when it is sent for review. If the school curriculum committee disapproves, the proposal, with reasons, comments or recommendations, is sent back to the department chairperson.

*See below for new update to this section in 2006-07**

B. Graduate program proposals with the proper cover routing sheet are sent to the chairperson of the school curriculum committee, with the appropriate number of copies. If the school curriculum committee approves, the proposal is sent to the chairperson of the Graduate Council. The school curriculum committee is responsible for the complete contents of the proposal being sent to the Graduate Council. The Graduate Council reviews the proposal. If approved, the proposal is sent to the Provost/V.P. for Academic Affairs. If disapproved, the proposal with reasons, comments, or recommendations, is sent back to the department chairperson and the chairperson of the school curriculum committee simultaneously.

*See below for new update to this section in 2006-07**

9. The Committee on Undergraduate Curriculum and Academic Standards reviews undergraduate proposals. If approved, the proposal is sent for administrative review. If disapproved, the proposal, with reasons, comments or recommendations, is sent back to the chairperson of the school curriculum committee and the department chairperson. The Committee on Undergraduate Curriculum and Academic Standards may consult with the department and/or school curriculum committee for clarification throughout the process.

10. The chairperson of the Committee on Undergraduate Curriculum and Academic Standards, the department chairperson and the appropriate Dean are notified simultaneously of the administrative approval or disapproval with reasons, comments or recommendations.

11. The office of Academic Affairs is responsible for initiating and overseeing the off-campus approval process required for licensure of new programs after they have been approved on campus. The off-campus process includes the CSU System office, the CSU Board of Trustees, the Advisory Committee on Accreditation of the DHE, and the Board of Governors for Higher Education. The Advisory Committee may schedule a site visit and will prepare a staff report before recommending licensure to the Board of Governors. Licensure of a new program is usually for a term of two years, followed by a progress report and application for state accreditation. Inquiries about this process should be directed to the office of Academic Affairs.

For off-campus submission, proposals should be in the format for licensure applications required by the Department of Higher Education (see the Board of Governors' Guide to Licensure of New Academic Programs).

**Pending the electronic set-up in the 2006-07 academic year, the electronic format approved by the Senate R-06-02-03 and approved by the President 6/9/06 will be as follows:*

- a. Departmental approval of the proposed change(s).*
- b. Transmission of the proposal to the appropriate school review committee in electronic form.*
- c. Each school review committee chair will electronically post the proposals and notify all University department chairs that they should check the proposals. (the place where this should be posted and the manner should be determined by the deans and the appropriate technical staff.)*
- d. Department chairs will decide whether they think their departments are affected and if so, go to the complete proposal. When a department chair thinks the change has an effect on the department, she or he will provide input to the review committee before or during the approval process*
- e. After the approval by the school committee, the proposal proceeds to the next step of the process as before (CUCAS or Graduate Council) where departments who consider themselves affected may also provide input.*

Procedure for Modification of a Dual Label Course in the Undergraduate or Graduate Curriculum

1. This procedure is to be used when a CIP program number exists and/or additional equipment and/or staffing is not required. Departments must include an explanation and supporting data justifying how or why no new resources (i.e., staffing, course rotation, library resources, technology resources, and laboratory facilities) are needed.
2. The originating department prepares and approves the change, addition, establishment, etc., and obtains the proper cover routing sheet from the Faculty Handbook. The proposal should include the course designation and number, title, description, prerequisite(s), level, outline, and any other information required by the Committee on Undergraduate Curriculum and Academic Standards or the Graduate Council. The department that shares the label must also formally approve the change, etc. before the proposal may be sent to the school curriculum committee. Departmental approval by both departments indicates that all other affected departments have been notified. See below for new update to this section in 2006-07*
3. The dual label proposal with proper cover routing sheet is sent to the chairperson of the school curriculum committee, with the appropriate number of copies. If the school curriculum committee approves, the proposal is sent to the chairperson of the Committee on Undergraduate Curriculum and Academic Standards or the Graduate Council. If the school curriculum committee disapproves, the proposal, with reasons, comments or recommendations, is sent back to the department chairpersons.
4. The Committee on Undergraduate Curriculum and Academic Standards or the Graduate Council reviews the proposal. If approved, the proposal is sent for administrative review. If disapproved, the proposal, with reasons, comments or recommendations, is sent back to the chairperson of the school curriculum committee and the department chairpersons. The Committee on Undergraduate Curriculum and Academic Standards or the Graduate Council may consult with the departments and/or the school curriculum committee for clarification throughout the process.
5. The chairperson of the Committee on Undergraduate Curriculum and Academic Standards, or the Graduate Council, the Department Chairperson(s) and the appropriate Dean are notified simultaneously of the administrative approval or disapproval with reasons, comments or recommendations.

WESTERN CONNECTICUT STATE UNIVERSITY

Academic Program Review Process

Purpose And Rationale

1. All WCSU undergraduate and graduate degree programs approved by the Connecticut Board of Regents for Higher Education and all academic program options with program sheets will undergo review every seven years. Scheduled academic reviews are an integral part of the University's strategic planning process. They support ongoing efforts to demonstrate institutional effectiveness and maintain accreditation by the Commission on Institutions of Higher Education of the New England Association of Schools and Colleges (NEASC-CIHE).
2. In order to create and sustain quality programs, WestConn shall: (a) carefully examine the integrity of all academic programs; (b) gain and maintain a competitive advantage in the recruitment and retention of students, faculty, and staff; (c) use findings from the assessment of student learning outcomes to enhance curriculum and instruction; and (d) analyze and project resource needs and policy implications.
3. The Provost will announce the program review schedule by May 1 of each year for the following academic year.

Procedures

1. The academic program review process should facilitate improvement of the quality of the academic programs at WestConn.
2. Units undergoing the academic program review process will document and analyze the current status of their program(s) in terms of: (1) the alignment with the University's stated purposes (vision/mission/goals/objectives); (2) the operational requirements of the program, including the human, physical and fiscal resources necessary to operate units and their programs(s), within their size and scope, in order to meet stated purposes; (3) the outcomes of program activities and student learning relative to stated unit and program purposes; (4) the viability of (the) program(s) in relation to stated purposes, based on quantitative and qualitative analysis; (5) Public Disclosure and Integrity; and (6) Evaluation, Planning, and Projections.
3. The academic program review process shall identify program goals and needs over the next seven years, as well as delineate an action plan for achieving these goals.
4. Departments scheduled for review of one or more academic programs will undertake the following three-year process.
 - a. Program faculty meet with the provost for orientation to the program review process.
 - b. Faculty select a *Departmental Program Review Committee (DPRC)*. In many cases it makes sense for all faculty in a department to work on the review process.
 - c. the DPRC makes recommendations for external evaluation, which may or may not include on-site visitation, to the appropriate Dean.
 - d. Deans, in consultation with the Provost, typically may select up to two external evaluators.¹
 - e. The DPRC conducts a review and evaluation of the six (6) categories listed in number 2 above.
 - f. The program review committee writes a self-study report including an action plan addressing its recommendations. *The maximum length of the report is five (5) pages, excluding appendices.* The committee submits the document to the program's faculty, chair and dean for review and reaction.
 - g. If necessary, the self-study report will be revised and resubmitted to the dean.
 - h. The external evaluator(s), receive the self-study report, conduct a site visit (if necessary), and submit a written report to the Dean and the DPRC.
 - i. After reviewing the external evaluators' report, the program review committee will revise the action plan portion of the self study report as needed and submit it to the dean for review and recommendations.
 - j. The Dean adds a summary statement and submits the self-study with its action plan to the Provost for review and reaction.
 - k. The Provost reviews all documents associated with the program review--including past reviews, if any exist--and forwards all of the review documents to the appropriate committee (either CUCAS or Graduate Council) for review and recommendations.
 - l. CUCAS or Grad Council examines the self-study and makes recommendations to the provost
 - m. The Provost submits written reactions and, where appropriate, recommendations to the program review committee and to the University community.

¹ While NEASC standards for program review require "external perspective," some programs may not require on-site visitation by the external evaluators. In these cases, the external evaluator(s) will submit a report based on an off-site evaluation of the program, in consultation with the DPRC and the Dean.

Contents Of Program Self-Study

1. Purposes (Mission, Goals, Objectives, Vision)
 - a. Program review committee examines and when necessary suggests revision of the program's mission, goals, and/or objectives to ensure congruence with the University's mission.
 - b. The program review committee analyzes program statistics and other available local and national demographic information to determine present and future demand for the program.
2. Assessment of Student Learning Outcomes
 - a. The most recent NEASC Series E and S Form(s)--a required section of every academic department's annual report--should be compared to the program's stated goals and objectives for student learning.
 - b. Series E Form(s) should be examined for appropriate analysis of achievement of student learning outcomes (quantitative and/or qualitative).
 - c. Series E Form(s) should be examined for evidence that curriculum and/or instruction has been modified, where appropriate, in response to assessment results.
3. Resources

The program review committee examines the program organization and resources (human, physical and fiscal) in terms of their adequacy in

supporting the program in its effort to meet its mission, goals and objectives.

4. Viability

The DPRC reviews the program's viability in relation to its stated purposes, taking in to account baseline program data (Appendix A), the program's alignment with the current strategic plan, and intangible benefits to the university, community, and region.

5. Public Disclosure and Integrity

the DPRC reviews the program's compliance with Federal and NEASC standards with regards to public disclosure and integrity. This includes:

- a. The university catalog (print and electronic versions)
- b. Websites
- c. Facebook and Social Media presence
- d. Verification of claims of the accomplishments of current students, graduates, faculty, and staff

6. Evaluation, Planning and Projections

7. Required Appendices

Appendix A

Baseline Program Data

Attach NEASC Forms S Series

Appendix B

Assessment Reports and Data

Attach NEASC Forms E Series

The DPRC reviews the program's internal and external evaluation (if appropriate) processes to determine to what extent the decision making process is guided by stated purposes.

Action Plan

1. As part of the self-study process, the program review committee will prepare and submit a document explaining the program's action plan for the next seven years.
2. The focus of the action plan should be on the aspects of the program that will be maintained, deleted, and/or modified to ensure the achievement of the program's objectives in a cost effective manner.
3. External evaluators, dean, and program faculty will review the self-study report's action plan and make recommendations.
4. A final version of the action plan will be prepared by the program review committee and submitted to the dean and the Provost.

General Education Designation Approval Process

The approval process for courses seeking to be given a general education designation.

In order for a course to be considered for a General Education designation, the submitting department must provide a copy of the *Intent to Include a Course in the General Education Curriculum* and they must make clear the components of the course that make it a general education course and not just a course from a given content area. In particular, courses should specifically address the ways in which the course addresses the established general education goals/objectives for the designation requested. If no goals/objectives exist for the given designation or if the course does not satisfy the existing goals/objectives then clear justification for the designation will be expected. (Note that per our bylaws this would apply to all course proposals seeking Gen Ed designation including FDS, SIS, and Guided Readings.)

Objectives have been developed for the following areas:

- i. Communications
- ii. Computer Science, Math and Natural Sciences
- iii. History
- iv. Humanistic Studies (In Paper Form)
- v. Literature
- vi. World Languages and Literature

These objectives were generally arrived at so that they would be in line with the General Education Statement of Principles put out by the CT Department of Higher Education and the WCSU General Education Task Force definition of an Educated Person.

Program Discontinuance Procedures

A. A department, the Committee on Undergraduate Curriculum and Academic Standards, the Graduate Council, the University Senate, or the University President may initiate a recommendation for program discontinuance.

B. For functional purposes at this institution and for the term of the current CSU-AAUP contract, the term "program" shall refer to those programs for which program sheets exist* and any program sheets subsequently approved; discontinuance of minors in departments which do not have majors (e.g., Philosophy and Humanistic Studies) shall also follow the procedure outlined below.

C. Any recommendation for program discontinuance shall be first reviewed by the Committee on Undergraduate Curriculum and Academic Standards or the Graduate Council to determine specific courses which would be affected and the effect of those discontinued courses on the other University programs. For the purposes of evaluating discontinuance, elimination of individual courses shall not be viewed as discontinuance. Only the request to eliminate groups of related courses, which would de facto force the discontinuance of any group, shall be viewed as discontinuance.

D. The Committee on Undergraduate Curriculum and Academic Standards or the Graduate Council shall:

1. List all courses in the program which might be discontinued.
2. Note those courses which are part of the common core.
3. Note those courses which are required in other programs and list the departments and programs so affected.
4. State the current status of the accreditation or licensure of the program.
5. Develop a timetable (within the framework noted in 6. and 8. below) both for other committees and groups to report back to Committee on Undergraduate Curriculum and Academic Standards or the Graduate Council and for the relevant committee to complete its own report and recommendations to the University Senate.
6. Send copies of the initial statement of the impact of program discontinuance on all courses and departments affected along with the timetable for completing all reports and recommendations to the following:
 - a. University Planning & Budgeting Committee.
 - b. Schools concerned.
 - c. Department(s) concerned.
 - d. SGA.
7. Send a cover letter and copies of the initial statement of the impact of program discontinuance on all courses and departments affected, along with the timetable for completing all reports and recommendations to the University President and the University Senate President.

E. Within a period of time specified by the Committee on Undergraduate Curriculum and Academic Standards or the Graduate Council, the above mentioned groups shall examine the proposal for program discontinuance and determine if it is based on bona fide educational considerations. The reports submitted to CUCAS or the Graduate Council by the various groups shall include the following:

1. University Planning & Budgeting Committee
 - Institutional funding and support with reference to: faculty positions, student recruitment procedures, equipment budget, library budget, funding for program advertising.
 - Alternative arrangements for some program continuance and faculty support (i.e., liaison with one of the other units of the Connecticut State University, etc.).
 - Effect on accreditation, certification or licensure.
2. Schools
 - The effect on any students currently enrolled.
 - The effect on any other programs if courses are discontinued.
 - Recommendations for ways in which the program could continue.
3. Department(s)
 - The effect on faculty status.
 - The effect on any students currently enrolled.
 - Recommendations for ways in which the program could continue.
4. Graduate Council
 - The effect on any students currently enrolled.
 - The effect on accreditation, certification or licensure.
 - Recommendations for ways in which the program could continue.
5. SGA
 - Impact on students.

F. In the event that discontinuance involves a graduate program, information from E 1, 2, and 3 above should be sent to the Graduate Council which will then report and make its recommendation to the Senate.

G. The CUCAS or Graduate Council's report to the University Senate shall include:

1. Source of the recommendation for program discontinuance.
2. The material listed in 4. and 5. above.
3. Analysis of reports received.
4. Recommendation for or against program discontinuance, if necessary.
 - a. Recommendation for program discontinuance timing.

b. Basis and validity for discontinuance.

c. Possible alternative arrangements for program continuance.

H. The University Senate shall review the CUCAS or Graduate Council's recommendations to determine if these have been based on bona fide educational considerations. Within 60 calendar days of the initiation of a request for program discontinuance, the University Senate shall have completed its review and shall pass on its recommendations and the Committee report to the University President for appropriate action.

I. The President shall be requested to inform the Senate of his/her decision.

Program Sheet Revision Procedures

Approved program changes that occur throughout the year via the Curriculum Approval Process are to be reflected in both the University Catalogs and the program sheets. Approved program changes are recorded in the Curriculum Approval Process on-line system and are available for reference by all departments and deans. The Provost/Vice President for Academic Affairs will initiate all University-wide changes, i.e., changes in literal prefix, common core revision, etc.

Program sheets are updated annually before Summer New Student Orientation program, and are dated to coincide with corresponding catalog years. Should there be significant changes to a program, that are implemented in a Spring semester, there may be a revised program sheet released before the June time period. Updates to the program sheet are managed by the Registrar's Office.

Program sheets must be consistent with the University Catalogs. Current and four years of archived program sheets are posted on the university's website.

This inventory was revised by the Office of the Provost/Vice President for Academic Affairs – June, 2012.

Academic Policies and Procedures

I. Course Responsibilities**A. Department Responsibilities**

1. Approval of course outlines bearing their label and assurance that content identified is included in courses taught.
2. Adoption where department deems appropriate of basic texts for multi-section courses.
3. Determination of appropriate standards for grading of multi-section courses.
4. Determination of standards for approval of student enrollment in Student Developed Study and Independent Study programs.
5. Determination where department deems appropriate of departmental attendance policy (see federal Guidelines for Grading and Privacy of Grades).

B. Instructor's Responsibilities

The core of the academic program is the student-teacher relationship in the individual classroom. The teacher is free to develop his/her assigned courses as he/she deems best, recognizing that he/she must include the content identified in the official course outline. The individual faculty member:

1. Meets all assigned classes regularly and in the event of absence arranges coverage through the department chair.
2. Follows the content of the official department outline.
3. Selects the methodology and sequence most appropriate to the content.
4. Selects the textbook for those courses not bound by a department decision.
5. Has regular office hours (at least 5 hours weekly) to meet with students.
6. Secures permission through the department chairperson for field trips in conjunction with courses. (Forms for this purpose are available in department offices or from the Deans' offices).
7. Establishes individual attendance requirements for courses when department has not established a binding policy for all members. Regardless of attendance requirements, accurate attendance records must be kept.
8. Prepares and distributes to students at outset of course a written statement of standards and requirements (including due dates where appropriate).
9. Gathers evaluative data systematically throughout the course on which to base midterm and final grades. These data must be recorded and kept for a reasonable length of time in the event of any challenge of grade assigned. (see C 4a. below).
10. Files midterm and final grades according to the directions specified by the Registrar's Office.

II. Examination And Grading Procedures And Policies**A. FINAL EXAMINATIONS**

1. All final examinations may be given only during the final examination week. (Reaffirmed by the Senate, December 15, 1982, and April 26, 1989.)
 - a. The schedule for undergraduate day course examinations is set by the Registrar.
 - b. Final examinations should not be the total basis for a student's grade.
2. Responsibility of Faculty Member
 - a. Requests that final examinations be scheduled.
 - b. Prepares final examinations.
 - c. Proctors own examinations and, when assigned, other faculty members' examinations.
 - d. Briefs proctor assigned to assist him/her
 - e. Arranges for students with conflicts in exam times.
 - f. Completes and records grades with Registrar within 3 calendar days from the date of the last scheduled final examinations (see CSU-AAUP contract).
3. Graduate and Evening course examinations are given in the last scheduled meeting of the course. All other regulations noted above apply.

B. GRADING SYSTEM – UNDERGRADUATE**1. Regular Grades**

A	Excellent: Q.P. (Quality Point) value 4
A-	Q.P. value 3.67
B+	Q.P. value 3.33
B	Above Average: Q.P. value 3.00
B-	Q.P. value 2.67
C+	Q.P. value 2.33
C	Q.P. Acceptable for college standards: Q.P. value 2.00
C-	Q.P. value 1.67
D+	Q.P. value 1.33
D	Barely acceptable for degree credit: Q.P. value 1.00
D-	Q.P. value 0.67
F	Failure: Q.P. value 0.00
I	Incomplete – a purely quantitative measure with no

quality point involvement for student. Should be applied only when a passing grade is possible for student when missing data are completed.

X Audit

2. Selective Grades

Pass/Fail. A grade option carrying no quality points. Some courses are approved to use this grade for all students enrolled. In other courses, a student may secure permission to carry a course under this option. Faculty members are notified of any students exercising this option and grade them accordingly.

P Passing grade in a pass/fail option course
FP Failing grade in a pass/fail course
RM This grade is a qualitative grade available for use only in
or RP the following courses:

CHE 100	MAT 098	CTA 160/161/162
WRT 098	MAT 114	WORLD LANG. 161/162
WRT 101	PHY 110/111	SPA 161/162

This grade is used in courses "where the student must demonstrate a level of skill or competence in addition to the formal requirements of the course."

Assigning RM (Remediate) or RP (Repeat) grade

a. Rationale for a student who has been doing all the assigned course work but whose academic deficiencies would need more than the usual time to achieve competence, the RM or RP grade makes it possible for the student to continue improving competence without being penalized for prior weakness.

b. The instructor arranges with the student for:

- (1) The type and extent of additional work required to meet the acceptable level of competence.
- (2) The time limits within which the work is to be completed.

c. Remediate or Repeat

(1) RM: Remediate. Requirement may include self-directed practice, review, or supplementary assignments administered by the same instructor or another instructor.

(2) RP: Repeat. Requirement is repeating the course with the same or different instructor. This is no limit to the number of times a student may repeat the same course when assigned RP.

(3) When level of competence has been achieved:

(a) RM: Remediate. Instructor submits a "Change of Grade Request Form" to change the RM to a C or better.

(b) RP: Repeat. Original RP remains on record (same as W and grade is submitted by instructor of the repeated course for credit.)

3. Administrative Grades

W – Withdrawal without penalty. The student may withdraw without penalty through the deadline set by the Registrar. After that deadline, the instructor may give the student written permission to withdraw without penalty.

WF – withdrawal with penalty. This grade is normally given to the student who withdraws after the withdrawal deadline or fails to withdraw officially.

C. IMPLEMENTATION OF GRADING SYSTEM

1. Standard

The department and/or instructor is responsible for determining and explaining at the beginning of the semester the standard to be met to receive a given letter grade. He/she is also responsible for being sure that students understand these standards and course expectations.

2. Incomplete Grades

In order to receive a grade of incomplete, the student must complete and present to the instructor the three-part form provided for that purpose. This form is available from academic departments, the Registrar's Office, and can be downloaded from Western's website under Faculty and Staff, Administrative Departments. One part of the form is to be kept by the student, one by the department, and the third copy should be sent to the Registrar's Office. Incomplete grades must be made up within 6 weeks of the start of the next semester in which the student is in attendance, or within one year if the student does not return. An incomplete grade, if not replaced by a grade by the instructor, automatically becomes an F, or the lower grade indicated on the form, after the time allowed expires.

3. Reporting Grades

a. Finals – All students receive grades on the official grade form provided online. These are completed according to the directions provided by the Registrar. A student who has never attended should be given a "W" as a final grade. A student who has stopped attending should be given either a "W" or "WF" and the last date of attendance should be entered.

b. Midterms – All first-year students and all others receiving D's, I's, or F's in any course must receive midterm grades. Because of the large number of transfer students, faculty are encouraged to record midterm grades for all enrolled in their classes. Students may check their grades in Banner. They should regard any grade of D or F at midterm as an academic warning, affecting their GPA for possible probation.

4. Change of Grade

a. Faculty are advised to retain at least two (and preferably three or four) items of evidence (e.g., tests, term papers) of each student's course work, in the event the student requests a change of grade. It is also advisable to notify students in writing--and well in advance--if the grading system in any course will deviate from the general norm for grading.

b. If a faculty member wishes to request a change of grade after the grade has been recorded, such request is sent to the appropriate Academic Dean with an explanation as to why a change of grade is requested. (An official form is available from each Dean's office for this purpose.) Changes of grade from incomplete may be sent directly to the Registrar's Office for processing.

Senate approval: Oct. 16, 1991 (R91-10-4)

Admin. Approval: Revised Feb. 20, 1992

c. The Dean may:

(1) Approve the change and forward it to the Registrar for implementation.

(2) Disapprove the change and return it to the concerned faculty member.

(3) Refer the request to the appropriate School's standing committee for recommended action on the request.

d. If the Dean disapproved, the faculty member may refer the matter to the appropriate standing committee.

e. The School Dean will establish or designate an existing committee to serve in the case of need to act on grade change requests. Such committee will report its decision to the Dean and faculty member concerned.

f. In the event the faculty member involved is unavailable (when grade change is requested and found to be proper, the appropriate Academic Dean and Department Chairperson may jointly resolve a needed change of grade.) Both signatures are required before the Registrar may honor the change of grade request, including a change from incomplete to a letter grade.

D. ELIGIBILITY FOR DEAN'S LIST

An appropriate academic standard for eligibility for Dean's List should be a minimum of 12 graded (standard option) credits satisfactorily completed with an average of 3.5. The only exception is for those students whose minimum of 12 credits includes course work required in his/her program of student that must be taken on a pass/fail basis, excluding course credits that do not count toward graduation and whose semester average and cumulative are both at least 3.5.

Senate Approval: May 26, 1989

Admin. Approval: June 18, 1989

E. ELIGIBILITY FOR DEAN'S LIST FOR PART-TIME UNDERGRADUATE STUDENTS

The academic standard for the Dean's List for part-time undergraduate students is a minimum of 12 semester hour credits satisfactorily completed within one academic year (fall and spring semesters) with a grade point average of at least 3.5. The only exception is for students whose minimum of 12 credits includes course work (a) that is required in a program of study, taken on a pass/fail basis, and (b) that does not count toward graduation. For such students, both the academic year average and the cumulative GPA must both be at least 3.5.

Senate Approved R-07-09-03

Administrative Approval 10/26/07

F. POLICY ON COURSE OVERRIDES

Any student may fill out a course override request form which will be available from the Registrar's Office during the registration period. All requests will be brought to the appropriate department chairperson. The chair will review the requests and, within 8 days, will forward those that they recommend for approval back to the Registrar's Office. Only the approved requests will be processed and only these students will be notified.

Students should be made aware that if they do not receive notification of approval of these override requests within approximately two weeks after filing, that their requests could not be accommodated. (Approved by Academic Council: March 1989, effective as of the May 1989 registration period.)

G. POLICY ON RETENTION OF COURSE MATERIALS

Examination materials are any materials used by an instructor to evaluate a student's knowledge and mastery of course topics for the purpose of assigning grades. Examination materials may include term papers, homework, computer assignments, quizzes, tests, lab write-ups, and any other tangible items deemed appropriate by the instructor for use in assigning grades. Intangible grading items such as recitals, juries, and physical skills tests are beyond the scope of this policy. All examination materials are confidential and are protected by applicable State and Federal law.

All examination materials are the personal property of the instructor. As used throughout this policy statement, the term "personal property" is

meant in a physical sense only. It is like buying a magazine at a newsstand. The buyer owns the physical ink, paper, and other tangible materials out of which the magazine is made, but not the original expressions of others presented within (see 17 U.S.C. Par. 302, 303). Faculty are advised to retain at least two items of evidence (e.g., tests, term papers) of each student's course work, in the event the student requests a change of grade. The instructor should retain them until the end of the semester in which the grade appeals deadline expires (see Faculty Handbook section on Palpable Injustice). In keeping with the primary purpose of retaining these items, reasonable student access to them shall not be denied. In the unusual case of perishable materials, the instructor should properly dispose of the materials and need not retain them.

A grade book is the record kept by an instructor detailing the examination scores or other performance measures used to assign student grades. The grade book may be in any form the instructor wishes to use (e.g., steno pad, notebook, computer spreadsheet). Grade books are confidential and are protected by applicable State and Federal law.

Grade books are the personal property of the instructor. They will be retained by the instructor until the end of the semester in which the grade appeals deadline expires. This responsibility may not be avoided by giving the grade book to the student.

The Provost/Vice President for Academic Affairs shall retain copies of course outlines.

Senate Approval: Mar. 17, 1993 (R-92-11-1)

Admin. Approval: Mar. 24, 1993

H. FEDERAL GUIDELINES FOR GRADING AND PRIVACY OF GRADES

1. Faculty must comply with the Family Educational Rights and Privacy Act of 1974 to ensure that information on grades, class standing or the like of any student may in no way be shared by the faculty member with any other student. This means that the following practices will not be utilized.

- a. Posting course, exam, or term paper grades even if names are omitted and codes are used.
- b. Giving the paper or test of one student to another for delivery unless there is a signed request to do so.
- c. Putting papers, tests, etc., in a common place for student pick up.

2. Recent confidentiality laws prohibit anyone from divulging the grades of any student to the student's parents or any other individual.

3. Attendance requirements as related to grades awarded--Supreme Court rulings indicate that grades may be lowered for nonattendance only when a direct relationship between academic progress and attendance can be demonstrated. The arbitrary lowering of an earned grade for given numbers of class absences did not meet the Court's legal tests.

I. PALPABLE INJUSTICE IN GRADING (STUDENT APPEAL PROCEDURE)

Academic grading reflects careful and deliberate judgment of the course instructor. Academic evaluation of student performance requires expert consideration of cumulative information and is to some extent subjective.

The University recognizes that in rare instances there may be "palpable injustice(s)" in the determination of a final grade. Students may use the appeals process when they believe there is evidence to show that a) a final grade was determined by methods and criteria different from those used for determining final grades for others in the same class or 2) the evaluation was made as the result of bias or caprice. The student shall first confer with the instructor who awarded the grade no later than the end of the fourth week of the next regular semester. In the case of half semester courses, students shall have the right to begin the appeal process at the conclusion of the course.

If no amicable settlement is reached, the student shall present the instructor with a WRITTEN copy of his/her grievance along with any supporting documentation which shall be considered confidential. The instructor shall respond in writing to the student within five (5) working days. (It is suggested that students prepare a packet of information for the instructor, the chairperson and the Dean).

Students, if they wish, shall have the right to choose a mentor/advisor for the purpose of guiding them through the appeal process. Students shall have the right to present their case at each stage of the appeal process. At the student's request, the mentor/advisor may accompany the student to meetings related to the appeals process as an observer.

If the student is not satisfied, the student, within five (5) working days of receipt of the instructor's response, may present the case in writing to the appropriate department chairperson who may effect a mutually agreed upon settlement with the instructor. The department chairperson shall respond in writing to the student within five (5) working days with a copy sent to the instructor.

If the student is not satisfied, the student may, within five (5) working days of receipt of the department chairperson's response, present the case in writing to the appropriate Academic Dean who may effect a mutually agreed upon settlement with the instructor and department chairperson. The Academic Dean shall respond in writing to the student within ten (10) working days with copies of the decision sent to the instructor and the department chairperson.

If the student is not satisfied, the student may ask, within five (5) working days of receiving the Dean's decision, that the dean contact the President of the University Senate to convene the ad hoc Committee on Grade Appeals. The Dean shall forward the request to the Senate President within five (5) working days of receipt. The Dean shall also notify the Provost/Academic Vice President, in writing, that the Senate is being asked to convene an ad hoc Committee.

The ad hoc Committee on Grade Appeals shall be composed of three members of the instructional faculty in the ranks of tenured professors or tenured associate professors presently serving on the senate, selected in alphabetical order each time the committee is appointed.

The Senate President shall appoint the ad hoc Committee within five (5) working days and shall notify the student and the instructor of that fact. J. GRADING SYSTEM – GRADUATE

1. Grades available for use are:

A	Q.P. value 4.0
A-	Q.P. value 3.67
B+	Q.P. value 3.33
B	Q.P. value 3.00
B-	Q.P. value 2.67
C+	Q.P. value 2.33
C	Q.P. value 2.0
C-	Q.P. value 1.67
D+	No credit awarded – Q.P. value 1.33
D	No credit awarded – Q.P. value 1.00
F	No credit awarded – Q.P. value 0.00
I	Incomplete
W	Withdrawn
X	Audit

2. Generally, all procedures outlined above for undergraduate grading apply to graduate grades except that:

a. All referrals are to the Graduate Director.

b. Incomplete grades must be made up within a semester of the time the incomplete mark was recorded. If not completed within that time, the grade becomes an "F" unless the instructor concerned has recommended an extension of time for justifiable cause. An extension of time for justifiable cause may not exceed one additional semester (Fall, Spring, Summer semesters). The only exception to this policy will be for those students making satisfactory progress while involved in a thesis or research project. Such students are limited only by the time allowed to complete the degree.

c. No mid-semester grades are issued.

d. For the purpose of improvement of instruction, an evaluative instrument is used in each graduate course to obtain student reaction to instructors, course content, course procedures, and to general policies and procedures.

See also the Graduate Catalog.

Process for Selecting Faculty to Participate in Graduate Programs

PROPOSAL

All faculty members who participate in graduate programs must meet the following university and departmental criteria:

University Criteria

1. Qualifications

- Earned terminal degree appropriate to the faculty member's discipline and to the graduate courses to be taught, or
- Achieved, significant, and highly recognized accomplishment in the field relevant to the graduate courses to be taught.

2. Faculty Status

3. Demonstrated Competence

Scholarly, research, creative, or professional activities appropriately published and/or reviewed, on a regular basis in the relevant field of study.

Departmental Criteria

1. Each department offering graduate courses will create, maintain, and enforce its own specific criteria for selecting faculty who participate in graduate programs.

2. The Departmental Criteria must be consistent with the CSU/AAUP Collective Bargaining Agreement, the university's strategic plan, the general university guidelines above, the missions of the department and the university, and the guidelines of appropriate accrediting agencies (e.g., NEASC, DHE, AACSB, CACREP, NCATE, NASAD, NASM).

3. Departmental criteria shall be presented to the school dean, the graduate dean, and the provost, and shall be used in selecting faculty who participate in graduate programs.

PALPABLE INJUSTICE IN GRADING (STUDENT APPEAL PROCEDURE)

Academic grading reflects careful and deliberate judgment of the course instructor. Academic evaluation of student performance requires expert consideration of cumulative information and is to some extent subjective.

The University recognizes that in rare instances there may be "palpable injustice(s)" in the determination of a final grade. Students may use the appeals process when they believe there is evidence to show that a) a final grade was determined by methods and criteria different from those used for determining final grades for others in the same class or 2) the evaluation was made as the result of bias or caprice. The student shall first confer with the instructor who awarded the grade no later than the end of the fourth week of the next regular semester. In the case of half semester courses, students shall have the right to begin the appeal process at the conclusion of the course.

If no amicable settlement is reached, the student shall present the instructor with a WRITTEN copy of his/her grievance along with any supporting documentation which shall be considered confidential. The instructor shall respond in writing to the student within five (5) working days. (It is suggested that students prepare a packet of information for the instructor, the chairperson and the Dean).

Students, if they wish, shall have the right to choose a mentor/advisor for the purpose of guiding them through the appeal process. Students shall have the right to present their case at each stage of the appeal process. At the student's request, the mentor/advisor may accompany the student to meetings related to the appeals process as an observer.

If the student is not satisfied, the student, within five (5) working days of receipt of the instructor's response, may present the case in writing to the appropriate department chairperson who may effect a mutually agreed upon settlement with the instructor. The department chairperson shall respond in writing to the student within five (5) working days with a copy sent to the instructor.

If the student is not satisfied, the student may, within five (5) working days of receipt of the department chairperson's response, present the case in writing to the appropriate Academic Dean who may effect a mutually agreed upon settlement with the instructor and department chairperson. The Academic Dean shall respond in writing to the student within ten (10) working days with copies of the decision sent to the instructor and the department chairperson.

If the student is not satisfied, the student may ask, within five (5) working days of receiving the Dean's decision, that the dean contact the President of the University Senate to convene the ad hoc Committee on Grade Appeals. The Dean shall forward the request to the Senate President within five (5) working days of receipt. The Dean shall also notify the Provost/Academic Vice President, in writing, that the Senate is being asked to convene an ad hoc Committee.

The ad hoc Committee on Grade Appeals shall be composed of three members of the instructional faculty in the ranks of tenured professors or tenured associate professors presently serving on the senate, selected in alphabetical order each time the committee is appointed.

The Senate President shall appoint the ad hoc Committee within five (5) working days and shall notify the student and the instructor of that fact. The Senate President shall not discuss the details of the case with the ad hoc Committee. The ad hoc Committee will convene within five (5) working days. It is the responsibility of the student to present three copies of all material, including any additional material submitted later in the process and relevant to the case to the chair of the ad hoc Committee.

The instructor shall submit such materials as requested by the Committee and shall have the right to present their case at any stage of the appeal process. The Committee shall consider the case and reach a decision within fifteen (15) working days of its convening by the Senate President. Following its deliberations, the Committee may deny the appeal in which case the matter shall be closed. If the Committee finds that the grading constituted a palpable injustice, as defined above, the case shall be remanded to the instructor for reconsideration. If the instructor disagrees with the finding of the Committee, the instructor shall inform the Committee and the student within five (5) working days of that fact.

Academic Honesty Policy

1. Purpose

This is Western Connecticut State University's (WCSU) policy on Academic Honesty

2. Policy

2.1 Principles

2.1.1 Academic Honesty Code

As stated in the university catalogs, "A student has an obligation to demonstrate honesty in carrying out his/her academic assignments" (page 38, 2005-2006 Undergraduate Catalog; p. 31, 2006-07 Graduate Catalog)

2.1.2 Faculty Responsibility

Faculty members are responsible for knowing the principles and procedures of the Academic Honesty Policy, and for enforcing the policy when academic honesty violations occur. Faculty members must also remind students of the Academic Honesty Policy and help them comply with it.

2.1.3 Student Responsibility

Students are responsible for maintaining the academic integrity of the University by following the Academic Honesty Policy. Students are responsible for doing their own work and avoiding all forms of academic dishonesty.

2.2 Academic Honesty Violation

The most common academic honesty violations are cheating and plagiarism. *Cheating and plagiarism are complex issues, therefore we offer the following definitions.*

Cheating includes, but is not limited to:

- Submitting material that is not one's own
- Using information or devices that are not allowed by the faculty member.
- Obtaining and/or using unauthorized material.
- Fabricating information.
- Violating procedures prescribed to protect the integrity of a test, or other evaluation exercise.
- Collaborating with others on assignments without the faculty member's consent (*not be confused with tutoring in the university learning centers*).
- Cooperating with or helping another student to cheat.
- Having another person take an examination in the student's place.
- Altering exam answers and requesting that the exam be re-graded.
- Communicating with any person during an exam, other than the faculty member or exam proctor.

Plagiarism includes, but is not limited to:

- Directly quoting others without using quotation marks or indented format to identify them.
- Using sources of information (published or unpublished) without identifying them. This can be one's own past work.
- Paraphrasing materials or ideas of others without identifying the sources.

2.3 Resolution of Academic Honesty Violations

A student involved in an academic honesty proceeding may continue to attend all classes until the matter is resolved.

2.3.1 Action Initiated by the Faculty member

If a faculty member believes a student has committed an academic honesty violation, the faculty member should complete the Academic Honesty Report (Appendix A). The faculty members will request a meeting with the student within five university calendar days (excluding Saturdays, Sundays, and holidays) to attempt to resolve the incident. As a result of this meeting, if the faculty member determines a violation has occurred, he or she should give the student a copy of two things: (a) this policy statement, and (b) the completed Academic Honesty Report (Appendix A).

The faculty member retains a copy of the Academic Honesty Report of this incident, and forwards a copy of the Academic Honesty Report to the faculty member's department chair, school dean, graduate dean (if applicable), and dean of students. The faculty member may assign a penalty; see section 2.5 below. If the faculty member is unable to contact the student, or if the student fails to meet with the faculty member, the faculty member may assign the penalty. If a penalty is assigned, the faculty member will send the student a copy of this policy statement and a completed Academic Honesty Report (Appendix A). The faculty member will send these documents by registered mail to the student's current mailing address on file with the University, and provide a copy to the faculty member's department chair, school dean, graduate dean (if applicable), and dean of students. The final grade for the course will not be recorded in the Registrar's Office until all of the student's rights to appeal have been exhausted.

2.3.2 Appeal Procedures

If the student does not admit responsibility for the incident or does not accept the penalty proposed by the faculty member, the student may appeal first to the faculty member's department chair, then to the dean of the faculty member's school, and then to the Senate Ad Hoc Committee on Grade Appeals. If the student does not appeal, the decision of the faculty member stands and a copy of the Academic Honesty Report will be forwarded by the faculty member's department chair, school dean, graduate dean (if applicable), and dean of students, where it will be filed for future reference.

2.3.2.1 Department Hearing

Within five university calendar days (excluding Saturdays, Sundays and holidays) of the faculty member's notification to the student that a penalty has been assigned, the student may request a meeting with the faculty member and his/her department chair. This meeting should take place within five university calendar days of the student's request. As a result of this meeting, the department chair will complete an Academic Honesty Report (Appendix A) and with the consent of the faculty member, affirm, deny, or modify the original penalty assigned by the faculty member. Within five university calendar days of the meeting, the department chair will forward copies of the completed Academic Honesty Report to the student, the faculty member, and the school dean, the graduate dean (if applicable), and the dean of students. Copies of the report will be sent by registered mail (with return receipt) to his/her current mailing address on file with the University. Within ten university calendar days of the department chair's decision, the student or the faculty member may appeal the department chair's decision to the dean of the faculty member's school. If the decision is not appealed, the department chair will send a copy of the Academic Honesty Report to the faculty member's school dean, the graduate dean (if applicable), and to the Office of the Dean of Students, where it will be filed for future reference.

2.3.2.2 Dean's Review

Within five university calendar days an academic long semester (excluding Saturdays, Sundays and holidays) of the department chair's notification to the student that a penalty has been assigned, the student or the faculty member may submit a written appeal to the dean of the faculty member's school. This written appeal should ask the dean to review the department chair's decision and explain why the student or faculty member believes that the department chair's decision was wrong. Within ten university calendar days from the time the written appeal is received in the dean's office, the dean will determine if the department chair's action should be upheld or overturned and will communicate his/her decision in writing to the student by registered mail, and inform the faculty member, the department chair, the graduate dean (if applicable), and the dean of students. Within ten university calendar days of the dean's decision, the student or the faculty member may appeal the dean's decision to the Senate Ad Hoc Committee on Grade Appeals (see page 37 of the 2005-2006 Undergraduate Catalog). If the decision is not appealed, the dean will send a copy of the Academic Honesty Report along with the results of the dean's review of the report to the student, the faculty member, graduate dean (if applicable), and the office of the dean of students, where it will be filed for future reference. Students may still be subject to further disciplinary action by the university through the student code of conduct, administered by the dean of students (or his/her designee).

2.3.2.3 Senate Ad Hoc Committee on Grade Appeals

If the student or faculty member is not satisfied, he/she may ask, within five (5) university calendar days (excluding Saturdays, Sundays and holidays) of receiving the school dean's decision, that the school dean contact the president of the university senate to convene the Ad Hoc Committee on Grade Appeals. The school dean shall forward the request (along with all relevant materials) to the senate president within five (5) university calendar days (excluding Saturdays, Sundays and holidays) of receipt. The dean also shall notify the provost/V.P. for Academic Affairs, in writing, that the senate is being asked to convene an ad hoc committee.

The Ad Hoc Committee on Grade Appeals shall be composed of three *members* of the instructional faculty in the ranks of tenured professors or tenured associate professors presently serving on the senate, *selected in alphabetical order each time the committee is appointed*.

The senate president shall appoint the ad hoc committee within five (5) university calendar days and shall notify the student and the faculty member of that fact. The senate president shall not discuss the details of the case with the ad hoc committee. The ad hoc committee will convene within five (5) university calendar days (excluding Saturdays, Sundays and holidays).

The committee shall consider the case and reach a decision within fifteen (15) university calendar days (excluding Saturdays, Sundays and holidays) of its convening by the senate president. Following its deliberations, the committee may deny, affirm or modify the appeal. The committee shall then forward its recommendation to the Provost/V.P. for Academic Affairs, who will implement the recommendation of the committee within five (5) university calendar days (excluding Saturdays, Sundays and holidays). The action of the Provost/V.P. for Academic Affairs shall be final and binding upon all parties, and shall be communicated by the Provost/V.P. for Academic Affairs to the student and the faculty member (with copies to the department chair, school dean, graduate dean (if applicable), and dean of students).

2.4 Maintenance of Academic Honesty Reports

The Office of the Dean of Students will maintain a copy of each Academic Honesty Report filed on a student until that student's graduation or permanent suspension of studies. Students will be assumed to have permanently suspended their studies at WCSU if they go five years without enrolling for any coursework. Faculty members or administrators investigating allegations of academic honesty violations may request that the Office of the Dean of Students release them any previous reports that have been filed on the student against whom the current allegations are being made.

2.5 Penalties

The penalty for an academic honesty violation on a significant course requirement such as a final copy of a term paper/project or final examination shall be an "F" for the course. The penalty for academic honesty violations in other coursework will be left to the discretion of the faculty member and may be modified upon appeal. When an academic honesty violation includes flagrant behavior, such as having a substitute take an exam or stealing an exam, the faculty member also shall refer the matter to the Office of the Dean of Students for disciplinary action pursuant to the CSU Student Code of Conduct. The Office of the Dean of Students also may initiate disciplinary action against a student with repeated academic honesty violations.

Guidelines on Classes Missed Because of University Sponsored Events

Each semester students and professors must deal with the inevitable conflict between class and university-sponsored co-curricular activities. As the University grows and the student body becomes more diverse, it is clear that student activities outside the classroom will continue to increase. It is the purpose of these guidelines to spell out the relationship between the two activities, and to suggest a way of accommodating any potential conflict between the two.

At present, no written guidelines exist on the correct procedure for handling missed classes by a student as a result of participation in a university-sponsored event. A suggested protocol is needed to inform all members of the university community of this rights and expectations in this area, and to allow accommodation of the needs of all without destructive conflict. Students recognize that participation in co-curricular activities benefits the students themselves and the university as well. Opportunities for growth outside the classroom are important, but such participation does not take precedence over the academic mission of the school, and it cannot excuse students from required classroom work.

It is the responsibility of all students to recognize that meeting the requirements of all classes is their first priority. It is the students' responsibility to communicate with their professors before a conflict occurs, if possible to insure that all classroom work is properly made up. It is also the students' responsibility to make up all required work as well as to become familiar with the material presented in the class that was missed.

By definition university-sponsored events are legitimate, co-curricular events which are scheduled through a university department or entity, with adequate notice to all parties. For example, participation in a sports contest or a museum trip for the university would be such an event, but attending a practice session would not. It is requested that faculty members understand the depth of the students' commitment, allow reasonable accommodation of student activities, and permit work missed because of legitimate university events to be made up.

Policy Statement on Photocopying of Copyrighted Materials for Classroom and Research Use

Faculty members should be aware of the legal limitations on duplicating copyrighted materials for research and classroom use. The Western Connecticut State University policy follows, and compliance is expected.

Policy on The Use of Copyrighted Materials

I. The Copyright Act and Photocopying

From time to time, the faculty and staff of this University may use photocopied materials to supplement research and teaching. In many cases, photocopying can facilitate the University's mission; that is, the development and transmission of information. However, the photocopying of copyrighted materials is a right granted under the copyright law's doctrine of "fair use" which must not be abused. This report will explain the University's policy concerning the photocopying of copyrighted materials by faculty and library staff. Please note that this policy does not address other library photocopying which may be permitted under other sections of the copyright law, e.g., 17 U.S.C. par. 108.

Copyright is a constitutionally conceived property right which is designed to promote the progress of science and the useful arts by securing for an author the benefits of his or her original work of authorship for a limited time. (U.S. Constitution, Art. 1, Sec. 8.) The Copyright statute, 17 U.S.C. par 101, et seq., implements this policy by balancing the author's interest against the public interest in the dissemination of information affecting areas of universal concern such as art, science, history, and business. The grand design of this delicate balance is to foster the creation and dissemination of intellectual works for the general public.

The Copyright Act defines the rights of a copyright holder and how they may be enforced against an infringer. Included within the Copyright Act is the "fair use" doctrine which allows, under certain conditions, the copying of copyrighted material. While the Act lists general factors under the heading of "fair use", it provides little in the way of specific directions for what constitutes fair use. The law states:

17 U.S.C. par. 107. Limitations on exclusive rights: Fair use. Notwithstanding the provisions of section 106, the fair use of a copyrighted work, including such use by reproduction in copies or phono-records or by any other means specified by that section, for purposes such as criticism, comment, new reporting, teaching (including multiple copies for classroom use), scholarship, or research is not an infringement of copyright. In determining whether the use made of a work in any particular case is a fair use, the factors to be considered shall include:

1. Purpose and character of the use, including whether such use is of a commercial nature or is for nonprofit educational purposes.
2. Nature of the copyrighted work.
3. Amount and substantiality of the portion used in relation to the copyrighted work as a whole.
4. Effect of the use upon the potential market for or value of the copyrighted work.

The purpose of this report is to provide you, the faculty and staff of this University, with an explanation of when the photocopying of copyrighted material in our opinion is permitted under the fair use doctrine. Where possible, common examples of research, classroom, and library reserve photocopying have been included to illustrate what we believe to be the reach and limits of fair use.

Please note that the copyright law applies to all forms of photocopying, whether it is undertaken at a commercial copying center, at the University's central or departmental copying facilities, or at a self service machine. While you are free to use the services of a commercial establishment, you should be prepared to provide documentation of permission from the publisher (if such permission is necessary under this policy), since many commercial copiers will require such proof.

We hope this report will give you an appreciation of the factors which weigh in favor of fair use and those factors which weigh against fair use, but faculty members must determine for themselves which works will be photocopied. This University does not condone a policy of photocopying instead of purchasing copyrighted works where such photocopying would constitute an infringement under the copyright law, but it does encourage faculty members to exercise good judgment in serving the best interests of students in an efficient manner. This University and its faculty and staff will make a conscientious effort to comply with these guidelines.

Instructions for securing permission to photocopy copyrighted works when such copying is beyond the limits of fair use appear at the end of this report. It is the policy of this University that the user (faculty, staff, or librarian) secure such permission whenever it is legally necessary.

II. Unrestricted Photocopying

A. Un-copyrighted Published Works

Writings published before January 1, 1978, which have been copyrighted may be photocopied without restriction. Copies of works protected by copyright must bear a copyright notice, which consists of the letter "c" in a circle, or the word "Copyright" or the abbreviation "Copr." plus a year of first publication, plus the name of the copyright owner (17 U.S.C. par. 401). As to works published before January 1, 1978, in the case of a book, the notice must be placed on the title page of the reverse side of the title page. In the case of a periodical, the notice must be placed either on the title page, the first page of text, or in the masthead. A pre-1978 failure to comply with the notice requirements resulted in the work being injected into the public domain, i.e., unprotected. Copyright notice requirements have been relaxed since 1978 so that the absence of notice on copies of a work published after January 1, 1978, does not necessarily mean the work is in the public domain (17 U.S.C. par 405 [a] and [c]). However, you will not be liable for damages for copyright infringement of works published after that date, if after normal inspection, you photocopy a work on which you cannot find a copyright symbol and you have not received actual notice of the fact the work is copyrighted (17 U.S.C. par. 405 [b]). However, a copyright owner who found out about your photocopying would have the right to prevent further distribution of the copies if in fact the work were copyrighted and the copies infringing (17 U.S.C. par. 405 [b]).

B. Published Works with Expired Copyrights

Writings with expired copyrights may be photocopied without restriction. All prior to 1906 have expired. (17 U.S.C. par. 304 [b]). Copyrights granted after 1906 may have been renewed; however, the writing will probably not contain notice of the renewal. Therefore, it should be assumed all writings dated 1906 or later are covered by a valid copyright, unless information to the contrary is obtained from the owner or the U.S. Copyright Office (see Copyright Office Circular 15t).

Copyright Office Circular R22 explains how to investigate the copyright status of a work. One way is to use the Catalog of Copyright Entries published by the Copyright Office and available in six Connecticut libraries. Alternatively, you may request the Copyright Office to conduct a search of its registration and/or assignment records. The Office charges an hourly fee for this service. You will need to submit as much information as you have concerning the work in which you are interested, such as the title, author, approximate date of publication, the type of work or any available copyright data. The Copyright Office does caution that its searches are not conclusive; for instance, if a work obtained a copyright less than 28 years ago, it may be fully protected although there has been no registration or deposit.

C. Unpublished Works

Unpublished works, such as theses and dissertations, may be protected by a copyright. If such a work was created before January 1, 1978, and has not been copyrighted or published without copyright notice, the work is protected under the new Act for the life of the author plus fifty years, 17 U.S.C. par. 303, but in no case earlier than December 31, 2001. If such a work is published on or before that date, the copyright will not expire before December 31, 2027. Works created after January 1, 1978, and not published enjoy copyright protection for the life of the author plus fifty years (17 U.S.C. par. 302).

D. U.S. Government Publications

All U.S. Government publications with the possible exception of some National Technical Information Service Publications less than 5 years old may be photocopied without restrictions, except to the extent that they contain copyrighted materials from other sources. 17 U.S.C. par. 105. U.S. Government publications are documents prepared by an official or employee of the government in an official capacity. 17 U.S.C. par. 101. Government publications include the opinions of courts in legal cases, Congressional Reports on proposed bills, testimony offered at Congressional hearings and the works of government employees in their official capacities. Works prepared by outside authors on contract to the government may or may not be protected by copyright, depending on the specifics of the contract. In the absence of copyright notice on such works, it would be reasonable to assume they are government works in the public domain. It should be noted that state government works may be protected by copyright. (See, 17 U.S.C. par. 105.) However, the opinions of state courts are not protected.

III. Permissible Photocopying of Copyrighted Works

The Copyright Act allows anyone to photocopy copyrighted works without securing permission from the copyright owner when the photocopying amounts to a "fair use" of the material (17 U.S.C. par. 107). The guidelines in this report discuss the boundaries for fair use of photocopied material used in research or the classroom or in a library reserve operation. Fair use cannot always be expressed in numbers – either the number of pages copied or the number of copies distributed.

Therefore, you should weigh the various factors listed in the Act and judge whether the intended use of photocopied, copyrighted material is within the spirit of the fair use doctrine. Any serious questions concerning whether a particular photocopying constitutes fair use should be directed to the University Library Director.

A. Research Uses

At the very least, instructors may make a single copy of any of the following for scholarly research or use in teaching or preparing to teach a class.

1. Chapter from a book.
2. Article from a periodical or newspaper.
3. Short story, short essay, or short poem, whether or not from a collective work.
4. Chart, diagram, graph, drawing, cartoon or picture from a book, periodical, or newspaper.

These examples reflect the most conservative guidelines for fair use. They do not represent inviolate ceilings for the amount of copyrighted materials which can be photocopied within the boundaries of fair use. When exceeding these minimum levels, however, you again should consider the four factors listed in Section 107 of the Copyright Act to make sure that any additional photocopying is justified. The following demonstrate situations where increased levels of photocopying would continue to remain within the ambit of fair use.

1. Inability to obtain another copy of the work because it is not available from another library or source or cannot be obtained within your time constraints.
2. Intention to photocopy the material only once and not to distribute the material to others.
3. Ability to keep the amount of material photocopied within a reasonable proportion to the entire work (the larger the work, the greater amount of material which may be photocopied).

Most single-copy photocopying for your personal use in research--even when it involves a substantial portion of a work--may well constitute fair use.

B. Classroom Uses

Primary and secondary school educators have, with publishers, developed the following guidelines, which allow a teacher to distribute photocopied material to students in a class without the publisher's prior permission, under the following conditions.

1. Distribution of the same photocopied material does not occur every semester.
2. Only one copy is distributed for each student, which copy must become the student's property.
3. The material includes a copyright notice on the first page of the portion of material photocopied.
4. The students are not assessed any fee beyond the actual cost of the photocopying.

In addition, the educators agreed that the amount of material distributed should not exceed certain brevity standards. Under those guidelines, a prose work may be reproduced in its entirety if it is less than 2500 words in length. If the work exceeds such length, the excerpt reproduced may not exceed 1000 words, or 10% of the work, whichever is less. In the case of poetry, 250 words is the maximum permitted.

These minimum standards normally would not be realistic in the University setting. Faculty members needing to exceed these limits for college education should not feel hampered by these guidelines, although they should attempt a "selective and sparing" use of photocopied, copyrighted material.

The photocopying practices of an instructor should not have a significant detrimental impact on the market for the copyrighted work. 17 U.S.C. par. 107(4). To guard against this effect, you should restrict use of an item of photocopied material to one course and you should not repeatedly photocopy excerpts from one periodical or author without the permission of the copyright owner.

C. Library Reserve Uses

At the request of a faculty member, a library may photocopy and place on reserve excerpts from copyrighted works in its collection in accordance with guidelines similar to those governing formal classroom distribution for face-to-face teaching discussed above. This University believes that these guidelines apply to the library reserve shelf to the extent it functions as an extension of classroom readings or reflects an individual student's right to photocopy for his personal scholastic use under the doctrine of fair use. In general, librarians may photocopy materials for reserve room use for the convenience of students both in preparing class assignments and in pursuing informal educational activities which higher education require, such as advanced independent study and research.

If the request calls for only one copy to be placed on reserve, an entire article may be photocopied, or an entire chapter from a book, or an entire poem. Request for multiple copies on reserve should meet the following guidelines.

1. The amount of material should be reasonable in relation to the total amount of material assigned for one term of a course taking into account the nature of the course, its subject matter and level, 17 U.S.C. par. 107(1) and (3).
2. The number of copies should be reasonable in light of the number of students enrolled, the difficulty and timing of assignments, and the number of other courses which may assign the same material, 17 U.S.C. par. 107 (1) and (3).
3. The material should contain a notice of copyright, see, 17 U.S.C. par. 401.
4. The effect of photocopying the material should not be detrimental to the market for the work. (In general, the library should own at least one copy of the work (17 U.S.C. par. 107[4]).

For example, a professor may place on reserve as a supplement to the course textbook a reasonable number of copies of articles from academic journals or chapters from trade books. A reasonable number of copies will in most instances be less than six, but, factors such as the length or difficulty of the assignment, the number of enrolled students and the length of time allowed for completion of the assignment may permit more in unusual circumstances.

In addition, a faculty member may also request that multiple copies of photocopied, copyrighted material be placed on the reserve shelf if there is insufficient time to obtain permission from the copyright owner. For example, a professor may place on reserve several photocopies of an entire article from a recent issue of Time magazine or the New York Times in lieu of distributing a copy to each member of the class. If you are in doubt as to whether a particular instance of photocopying is fair use in the reserve reading room, you should seek the publisher's permission. Most publishers will be cooperative and waive the fee for such a use.

D. Uses of Photocopies Material Requiring Permission

1. *Repetitive copying:* The classroom or reserve use of photocopied materials in multiple courses or successive years will normally require advance permission from the owner of copyright (17 U.S.C. par. 107[3]).
2. *Copying for profit:* Faculty should not charge students more than the actual cost of photocopying the material (17 U.S.C. par. 107[1]).
3. *Consumable works:* The duplication of works that are consumed in the classroom, such as standardized tests, exercises, and workbooks, normally requires permission from the copyright owner (17 U.S.C. par. 107[4]).
4. *Creation of anthologies as basic text material for a course:* Creation of a collective work on anthology by photocopying a number of copyrighted articles and excerpts to be purchased and used together as the basic text for a course will in most instances require the permission of the copyright owners. Such photocopying is more likely to be considered as a substitute for purchase of a book and thus less likely to be deemed fair use (17 U.S.C. par. 107[4]).

E. How to Obtain Permission of Copyright Owner

When a use of photocopied material requires that you request permission, you should communicate complete and accurate information to the copyright owner. The America Association of Publishers suggests that the following information be included in a permission request letter in order to expedite the process:

1. Title, author and/or editor, and edition of materials to be duplicated.
2. Exact material to be used, giving amount, page numbers, chapters and, if possible, a photocopy of the material.
3. Number of copies to be made.
4. Use to be made of duplicated materials.
5. Form of distribution (classroom, newsletter, etc.).
6. Whether or not the material is to be sold.

7. Type of reprint (ditto, photography, offset, typeset).

The request should be sent, together with a self-addressed return envelope, to the permissions department of the publisher in question. If the address of the publisher does not appear at the front of the material, it may be readily obtained in a publication entitled *The Literary Marketplace*, published by the R.R. Bowker Company, and available in all libraries.

The process of granting permission requires time for the publisher to check the status of the copyright and to evaluate the nature of the request. It is advisable, therefore, to allow enough lead time to obtain permission before the materials are needed. In some instances, the publisher may assess a fee for the permission. It is not inappropriate to pass this fee on to the students who receive copies of the photocopied material.

The Copyright Clearance Center also has the right to grant permission and collect fees for photocopying rights for certain publications. Libraries may copy from any journal which is registered with the CCC and report the copying beyond fair use to CCC and pay the set fee. A list of publications for which the CCC handles fees and permissions is available from the CCC, 310 Madison Avenue, New York, NY 10017.

F. Infringement

Courts and legal scholars alike have commented that the fair use provisions in the Copyright Act are among the most vague and difficult that can be found anywhere in the law. In amending the Copyright Act in 1976, Congress anticipated the problem this would pose for users of copyrighted materials who wished to stay under the umbrella of protection offered by fair use. For this reason, the Copyright Act contains specific provisions which grant additional rights to libraries and insulate employees of a non-profit educational institution, library, or archives from statutory damages for infringement where the infringer believed or had reasonable grounds to believe the photocopying was a fair use of the material (17 U.S.C. par. 504 [c] [2]).

Normally, an infringer is liable to the copyright owner for the actual losses sustained because of the photocopying and any additional profits of the infringer (17 U.S.C par. 504[a][1] and [b]). Where the monetary losses are nominal, the copyright owner usually will claim statutory damages instead of the actual losses (17 U.S.C. par. 504 [a][2] and [c]). The statutory damages may reach as high as \$10,000 (or up to \$50,000 if the infringement is willful). In addition to suing for money damages, a copyright owner can usually prevent future infringement through a court injunction (17 U.S.C. par. 502).

The Copyright Act specifically exempts from statutory damages any employee of a non-profit educational institution, library, or archives, who "believed and had reasonable grounds for believing that his or her use of the copyrighted work was a fair use under Section 107" (17 U.S.C. par. 504[c] [2]). While the fair use provisions are admittedly ambiguous, any employee who attempts to stay within the guidelines contained in this report should have an adequate good faith defense in the case of an innocently committed infringement.

If the criteria contained in this report are followed, it is our view that no copyright infringement will occur and that there will be no adverse affect on the market for copyrighted works.

WCSU Online Policy

I. INSTITUTIONAL POLICY ISSUES**A. Purpose:**

The purpose of Western Connecticut State University (WCSU) Online Learning Policy is to assure high quality in online/distance learning with regard to instruction, procedures, and support. Unless otherwise stated all academic policies and procedures apply to both on-campus and online courses. Nevertheless, the particular nature and circumstances of online learning necessitate a clear explication of policies and procedures on key areas. All Online Learning policies are generated and executed in accordance with the mission of WCSU.

B. Principles Of Good Practice For Electronically Offered Academic Degree And Certificate Programs:

Distance learning activities at WCSU comply with the NEASC Guidelines for the Evaluation of Distance Education & On-line Learning and with the Guidelines of other accrediting bodies.

See: [Http://cihe.neasc.org/downloads/Pp90_Guidelines_for_the_Evaluation_of_Distance_Education_On-line_Learning_.pdf](http://cihe.neasc.org/downloads/Pp90_Guidelines_for_the_Evaluation_of_Distance_Education_On-line_Learning_.pdf)

WCSU's goal is to ensure that online courses meet the same quality standards as courses taught on campus. Additionally, some online learning may address the needs or topic in ways that on-campus classes cannot.

C. Definition

Online Course: Defined as one in which course content is delivered online via the University's web-based course management system, whether synchronously or asynchronously. Students submit course work and participate in discussions with faculty and other students via the Internet. Many online courses contain media-rich presentations that reinforce important concepts. Students in these courses communicate with faculty and fellow students using e-mail, discussion boards, and submit assignments to faculty through the University's web-based course management system.

Hybrid Course: Defined as one in which regularly scheduled classroom time is comprised of both face to face meetings and online learning. All face to face meetings for a hybrid course will be announced prior to registration. The online component is delivered via the University's web-based course management system. *The following schedule applies to hybrid courses:*

- 100/200 level classes, hybrid is 70% face-to-face and 30% online
- 300/400 level classes hybrid is 50% face-to-face and 50% online
- 500 level classes and above hybrid is 30% face-to-face and 70% online

D. Review Of Distance Learning Policy:

The responsibility for evaluating and revising the Online Learning Policy resides with the Senate Distance Learning Committee, as specified by NEASC.

II. CURRICULUM AND INSTRUCTION**A. Academic Integrity Of Online Learning Courses:**

Online learning courses are comparable to campus-based courses in terms of:

- Syllabi
- Office Hours
- Expected learning outcomes
- Readings and assignments
- Grading
- Methods of evaluation
- Student Opinion Survey

Online learning courses are subject to the same policies as stated in the Graduate and Undergraduate Catalogs for campus-based courses. Faculty members must also follow the regulations described in the Collective Bargaining Agreement and the guidelines in the Faculty Handbook.

B. Oversight Of Courses:

Like all academic activities, online learning at WCSU operates under the purview of the Provost and Vice President for Academic Affairs, CUCAS and Grad Council. WCSU adheres to the policy that all courses of the same prefix and number are equivalent, regardless of mode of delivery and/or period of delivery. It is the responsibility of the faculty to ensure that the rigor of programs and quality of instruction are maintained within their courses.

C. Online Learning Course Offering Process

For new online offerings, the faculty member must complete the Online Education at WCSU course offering form. Form approval must be

provided by the Department Chair, Academic Dean, and Provost. This process should be done as expediently as possible.

See: <http://www.wcsu.edu/academics/online.asp>

D. Instructional Review: Quality Of Instruction Issues

Instruction in all courses, whether campus-based or online is reviewed by the same criteria set forth in the AAUP-CBA, the Faculty Handbook and Departmental Bylaws.

Criteria will include, but will not be limited to evaluation of teaching effectiveness and student satisfaction. Evaluators may need special training and support to adequately review online instruction due to the distinct pedagogical implications that must be considered when looking at online teaching and learning strategies and processes.

See: DEC Written Evaluation and Recommendation Report for Teaching Faculty Members,
<http://www.westconn.edu/facultystaff/handbook/pages/DEC-eval.asp>

E. Faculty Interaction With Students:

As in all classes, best practices in online learning necessitate clear guidelines on faculty student interaction. Online and hybrid courses require strong instructor presence and frequent interactions with students. Faculty should clarify in their syllabi and course policies the nature of planned interaction, feedback timelines (like grading or email turnaround), as well as appropriate modes of communication (e-mail, phone, fax, chat, or discussion board.) Faculty should ensure clear responses to students, within a student-friendly timeframe. Complete and detailed feedback should be provided via the discussion board, individual email or other appropriate means. Office hours shall be held in compliance with the Faculty Handbook. Depending on the nature of the course, some may want to provide synchronous office hours when students know faculty can be reached by methods such as VoIP (Voice Over Internet Protocol), telephone or email. The instructor is expected to comply with all privacy laws in conducting online and hybrid courses.

F. Faculty Responsibility:

The instructor is responsible for presenting course content, instruction, and evaluating student progress in online learning courses, as well as for campus-based courses. Rapid changes in technology may require faculty to reevaluate online course resources frequently.

G. Accessibility (ADA):

All online learning is conducted in regard to and compliance with the Americans With Disabilities Act.

see: <http://www.wcsu.edu/accessability/ADAandRA.asp>

H. Intellectual Property And Third Party Providers:

Distance learning courses are frequently designed and disseminated by other colleges, universities, corporations or non-profit organizations. In the event that WCSU wishes to purchase or lease modules or entire courses from a Third Party, such courses or modules must be evaluated by the appropriate curricular committees to ensure that the materials meet all quality criteria set forth by the appropriate curricular committees before any legal agreements are signed between parties.

I. University Honesty Policy:

Online, hybrid and on-site course instruction follow the same campus-wide policy on Academic Honesty. WCSU affirms its commitment to enforcing the Academic Honesty Policy and to supporting faculty and students in the handling of academic integrity matters. WCSU is committed to making information on academic integrity easy to find on the campus Web sites and within online courses. Departments offering online courses and degrees should include ethics instruction within the relevant course and/or core curricula. WCSU encourages faculty to report every suspected violation of the Academic Honesty Policy and act upon it.

See: <http://www.wcsu.edu/facultystaff/handbook/pages/AH-pol.asp>

J. Copyright Compliance:

The University acts in accordance with Section 403 of the Digital Millennium Copyright Act.

See <http://www.copyright.gov/legislation/sec403.pdf>

K. Testing Policies: Verifying The Identity Of The Student Submitting Work Online

WCSU verifies the identity of students in online classes in accordance with current educational standards. WCSU provides secure student logins and password to access online courses and related resources, discussions, assignments and assessments. Students are provided instruction on maintaining the security of their logins and passwords. WCSU must have processes that establish that the student who registers in a distance or correspondence education course or program is the same student who participates in and completes the program and receives academic credit. Verification methods are determined by the institution and may include but are not limited to secure login and password protocols, proctored examinations, and new or other technologies and practices.

III. FACULTY

A. Faculty Qualifications:

Faculty members who teach online learning courses must meet the same qualifications as faculty who teach campus-based courses at Western Connecticut State University. They will be selected in accordance with the WCSU Faculty Collective Bargaining Agreement.

B. Faculty Training:

WCSU provides a variety of training workshops and individual training for faculty in the use of all relevant courseware and/or software. Training will be provided as needed to ensure that faculty remain current in the use of the technology. WCSU's Center for Excellence Learning and Teaching (CELT) should offer professional development opportunities for faculty to learn best practices for effective online communication with students.

In addition to training and professional development for faculty related to teaching in distance learning formats, the faculty meets periodically to share information and discuss ideas to enhance effectiveness of courses and quality of courses being taught.

C. Faculty Evaluation:

Procedures to be followed for the evaluation of faculty-administration of Student Opinion Surveys and Peer Observations--should follow the guidelines set forth in the CBA, the Faculty Handbook and Departmental Bylaws in as close to the same manner as is possible in online and on-campus courses. The individual DEC's and Department Chairs should be permitted access to online classes in a manner that is comparable to the observation of faculty teaching on-campus classes. Additionally, department curriculum and assessment committees should be permitted access on a limited basis to courses to ensure course quality. Departments should identify assessment procedures for online learning that are consistent with their mission. On site and online courses should be comparable experiences and each department will need to periodically review its courses to assure that approved course learning outcomes are addressed.

D. Faculty Teaching Load:

Faculty members teaching distance-learning courses receive the same workload credit as faculty who teach campus-based courses.

IV. STUDENT SUPPORT SERVICES

A. Student Services:

All policies covering on-campus classes shall also apply to distance learning classes. This includes matriculation, financial aid, and registration.

The WCSU website shall provide information about distance learning orientation sessions as well as all other services online (e.g., financial aid, career development, tutoring services, counseling and academic advising). Students should consult an academic advisor before registering for an online learning class, as well as campus-based courses. Special attention should be paid to a student's ability to work independently and to perform all or most course work by reading and writing. Students should plan their schedules wisely making sure they have sufficient time to complete an online class within the allotted time. Students must ensure that they will have adequate access to a computer and the internet to complete the class.

B. Student Training

It is recommended that all students must complete an orientation to online learning course before registering for their first course. This training will familiarize the student with the instructional software and well as acquaint them with the principles and practices of being a good online student. New student orientation sessions should include training on the university's current-web-based learning management system, as provided by Information Technology & Innovation.

C. Student Complaints/Grievance Procedure:

All student concerns about grading and other academic concerns should follow established University procedures as set forth in the Student Handbook, the Undergraduate or Graduate Catalog and the Faculty Handbook.

D. Library Resources:

WCSU Libraries ensure that the distance learning community has access to library materials equivalent to those provided in traditional settings. The Libraries provide convenient, direct access to library materials in appropriate formats that are of sufficient quality, depth, number, scope, and currency to:

- meet students' needs in fulfilling course assignments;
- enrich the academic programs;
- meet teaching and research needs;
- support curricular needs
- promote the acquisition of lifelong learning skills;
- accommodate students with varying levels of technological access (i.e., low bandwidth); and
- accommodate other informational needs of the distance learning community as appropriate.

Library services offered to the distance learning community are designed to meet a wide range of informational, instructional, and user needs. Services include virtual reference and research assistance (via chat, e-mail, phone, text); online library instruction and informational services (including information literacy instruction); reliable, rapid, secure access to online resources; access to electronic reserve materials, interlibrary loan and document delivery services; and adequate service hours. Library services to the distance learning community will be promoted through variety of channels, including the Library's mobile-enhanced website, and will include documented and updated policies and procedures.

E. University Bookstore:

The WCSU website provides a link to the WCSU Bookstore (which provides information for both distance learning students and traditional students.) All students may make bookstore purchases using the online service. The bookstore will mail the requested materials to the student.

V. DISTANCE LEARNING FACILITIES AND SUPPORT SERVICES

A. Distance Learning Equipment And Facilities:

Western Connecticut State University provides the necessary equipment and facilities to effectively deliver scheduled synchronous and asynchronous courses at a distance. Video conferencing rooms are available to fully deliver courses. Computers with Internet access are available on campus for students who may need to use campus facilities for distance learning purposes. All courses that require laboratories and clinical site visits, which cannot be completed via technology-based distance learning, are handled with special arrangements made by the faculty member in consultation with the Dean and IT.

B. Funding For Distance Learning:

Sufficient funds for the operation of online/distance learning programs have been allocated to maintain instructional offerings. The annual University budget provides for the maintenance of equipment and networks the WCSU CIO is responsible for this budget.

C. Institutional Technology Responsibility:

Information Technology & Innovation provides the technical expertise necessary for maintaining equipment and networks, so that the delivery of online/distance learning programs may occur. A System Administrator addresses student and faculty concerns with the delivery of distance learning and an online Helpdesk is available for equipment problems. In addition, UC provides training of faculty and staff. UC schedules several training modules for professional development during each year and or as needed. UC provides orientation and training modules available online for students.

VI. PLANNING AND EVALUATION

A. Institutional Planning:

The viability of distance learning programs is included in the planning process. Distance learning is planned to meet the University mission, strategic initiatives, goals and objectives, and is consistent with the University long-range planning document. Distance learning is designed and evaluated according to the same guidelines used for on-campus programs. The effectiveness of distance learning is assessed as discussed in this document. Finally, the results of the assessment are used to make appropriate changes to the long-range plan and to the program. Departments offering online courses or programs track the effectiveness of such program through their assessment process.

B. Educational Effectiveness

Distance learning is designed and evaluated according to the same guidelines used to assess on-campus courses, programs, and departments. The effectiveness of distance learning is assessed based on the accreditation policies described by NEASC and other national and regional accrediting bodies related to specific program areas across the University.

RECOMMENDATIONS

Date: July 2, 2012

With respect to the proposed Distance Education Policy, we make the following recommendations.

- For online and hybrid instruction to be effective here at WCSU it is recommended that CELT become the faculty-driven catalyst for addressing technology and learning. **Purpose:** in order to perform this function CELT's profile and resources need to be augmented and strengthened. Specifically, the Senate Distance Education Committee, in cooperation with Information Technology & Innovation, create a series of faculty workshops focusing on the development and maintenance of online courses. The committee should also create a best practices document to assist faculty in the creation and evaluation of their online offerings.
- That Information Technology & Innovation modify the university's installation of its current course management software (CMS) to require all new users--faculty and students--to complete an online tutorial before being able to use said system. **Purpose:** to ensure that new users demonstrate minimum standards for using the CMS.
- That Information Technology & Innovation create and make available to each academic department an anonymous online version of the student opinion survey instrument with content identical to that ordinarily in use by the department or one that has been designed or approved by the department specifically for online use in accordance with Article 4.11.8 of the CSU-AAUP Collective Bargaining Agreement. The procedure for administering the survey shall also be subject to approval by the department as provided for in Article 4.11.8.
- That Information Technology & Innovation modify its course registration system such that hybrid courses receive two room assignments, one physical and one "ONLINE." **Purpose:** to provide a simple mechanism for identifying hybrid courses in online course listings.
- That the procedure for scheduling an online course be no more difficult than for onsite classes, requiring the same sequence of approvals and paperwork. Department Chairs must remain cognizant of any substantive changes to a program as the percentage of online courses expands, as per NEASC guidelines. **Purpose:** to foster and facilitate the creation of online courses as a regular component of a term's offerings.

Faculty Scholarship, Development and Research Policies and Procedures

The Connecticut State University Research Foundation

The Connecticut State University Research foundation was established by the Connecticut General Assembly under Public Act 79-202 for the purpose of facilitating and promoting research activities among the four institutions that comprise the CSU system.

The Research Foundation operates on each CSU campus under the direction of the campus President in accordance with the regulations of the Foundation and all other relevant general University and State regulations.

Each campus has a Research Foundation Advisory Council, which, at Western, is the Research and Development Committee. The function of the Advisory Council is to advise the campus President on the operation of the Foundation, as well as the conduct of research and public service activities on each campus.

Scholarly Activity: Research, Scholarship, And Creative Endeavor**Definition of Faculty Scholarship**

Although a university may be committed to the idea of being a "teaching institution," that concept cannot be fulfilled apart from a similar commitment to scholarly activity. Scholarly activity has three components--research, scholarship, and creative endeavor--whose principal foci are oriented toward the academic program of the university and are carried out by individual faculty.

These activities are vital to the university and to its academic program and have an impact on the student as a learner. They are a very real part of the instructional process. In progress through undergraduate studies, the student is constantly moving toward more and more independent learning and learns that research and creative endeavor are necessary elements in the learning process. Students must have models of ongoing scholarly activity in which they can see the possibilities for their own creative talents. Faculty engaged in scholarly activity provide those models. In this sense, scholarly activity is an integral part of teaching. Research, creative endeavor, and scholarship are also intimately involved in the professional development of individual faculty members. Through the process of sharing the outcomes of professional efforts with colleagues both on and off the campus, validation of progress in developing as a scholar in a discipline is received. Reviewing and critiquing the work of others provides opportunities for faculty to test ideas and concepts developed in their own work. Often, sharing scholarly activity with colleagues on the campus functions as a stimulus to fellow faculty. Since professional development is a lifelong task, sustained effort in this area of involvement is needed. A detailed description of the three components of scholarly activity follows:

Research for the purposes of this discussion will be categorized as discipline, applied, and pedagogical. The first orients toward new knowledge, the second toward the utilization of that new knowledge, and the third toward methods of teaching and learning. Discipline research is that activity which is carried out with the deliberate intent of extending the frontiers of knowledge in a particular academic discipline. Little attention is given to the applicability or practical use of possible discoveries. Applied research is activity that is carried out with the deliberate intent of solving a specific problem in an immediate time frame. The focus of the activity is the applicability of the research to a well-defined, real-life need. Pedagogical research is activity which explores the merits of one educational approach to instruction over another approach, under what conditions students learn best, how educational material may be organized to enhance the learning process, investigations of the degree to which curricula meet the requirements they have designed to meet, etc. The sharing of the results of research, as outlined later in this paper, is an integral part of the research process. The responsibility to communicate the results of research to assist colleagues, as well as to validate findings, is the task of the faculty member. The responsibility to support and facilitate research efforts on the part of the faculty is the task of the academic administrator.

Scholarship is an activity that refers to updating and extending an area of study within the professional life of the faculty member. University professors must be constantly alert to new and innovative directions in their disciplines if their leadership in the classroom is to be truly effective. It is this kind of activity that frequently spells the difference between professors who are inspiring and creative in the role as teacher and those who only continue to use notes on aging yellow pages. Faculty engaged in scholarship are those who take advantage of the opportunities to remain viable and active in their particular areas of specialty. The development and sharing of ideas; the conception and implementation of new and creative instructional materials; participation in conferences, conventions, workshops, professional meetings; and the publication of articles and monographs in areas other than research are samples of such activities.

Creative endeavor refers to the result of the production of creative work by faculty. Creative endeavor is most easily identified when associated with the performing arts (theatre, music, dance) and the fine arts (two- and three-dimensional art, writing). It is also most appropriate to apply it in the area of applied arts (architecture, graphics and printing, design, decorating). Creative endeavor involves not only the creation of a tangible product, but the subjection of that creative piece to judgment by public and peers through the vehicle of performance, show publication, display, or exhibit. There is some overlap area of scholarship. For example, an article dealing with the impact of carbon steel by its inventor could be classified as creative endeavor.

Faculty Development Funds

Under the terms of the CSU-AAUP contract, Article 9.6 and 12.10.1, a specified amount of money must be allocated annually for faculty development, "which shall be construed broadly to mean activities by and for members that enhance their ability to be productive and innovative professionals." In view of other funding sources for research (CSU/AAUP research grants) faculty development fund applications should not directly relate to the carrying out of research, nor be for the purpose of purchasing materials. AAUP Travel Funds for faculty members are also available from the Deans of the Schools, and should be seen as a first source for conference attendance and professional presentations. Such requests will be considered for Faculty Development Funds, after Travel Funds are depleted, but will receive lower priority.

I. Notification

Notification of available funds shall be published by the Provost/Vice President for Academic Affairs on the Academic Planning Calendar. Application forms are in the Faculty Handbook and are also available in the office of the Director of Grant Programs.

II. Application

Funding is available for all members of the AAUP/CSU faculty bargaining unit as defined in the contract; this includes 10% of the funds being allocated for part-time faculty. Priority will be given to activities which support the spirit of learning and enhance teaching expertise.

A maximum of \$1,200 may be granted to any individual full-time faculty member and \$750 to any individual part-time faculty member. The Faculty Development and Recognition Committee believes that funds should be available to many individuals, so prior use of the Fund as well as merit of activity will be considered. In cases where the dollar total for approved applications exceeds available funds in a given funding period, preference will be given to applicants who have not been awarded full funding in the previous fiscal year." Applications for "in-house" workshops do not have a specified maximum funding level, but will be reviewed on the basis of merit and numbers of individuals across the University community who will benefit from the workshops. Proposals from AAUP members may be cosponsored with non-members.

Applications will be accepted and reviewed in the following time frame:

Application Deadline	Planned Activity
Sept. 5, 2014	October 1- Dec. 31
December 1, 2014	January 1-Feb. 29
February 6, 2015	March 1- May 31
April 17, 2015	June 1-Sept. 30

Applications submitted after these deadline dates will not be considered.

Applications for funds are to be made on the prescribed form, which is available online in the Faculty Handbook. Nine copies of the application are to be submitted to the Faculty Development and Recognition Committee, c/o the Provost/Vice President for Academic Affairs.

III. Committee Actions

The Faculty Development and Recognition Committee will review all proposals received and make recommendations concerning the allocation of funds to the Provost/V.P. for Academic Affairs based on consideration of the above factors, the expected benefit to the University community, and the amount of money available. The Committee will inform each applicant of the recommendation made in regard to each proposal.

Areas for consideration could include sciences, technical lab, physical education, psychology, fine arts, etc.

Procedure: Individual faculty members should request consideration (and submit justification) in writing from the chairperson by March 15; chairs will submit recommendations to the appropriate Dean by March 25. The basic guidelines used by the Committee on Undergraduate Curriculum and Academic Standards in reviewing summer curriculum-related activities shall include: (1) the proposals should be for curriculum development (development of courses and programs) and not for training, assessment, or promotion of programs; (2) funds can go only to full-time members of the AAUP Collective Bargaining Unit in accordance with that agreement (Article 9.11); (3) preference is given to new curriculum development over revising existing courses; (4) preference is given to those who had not received funds in recent years over those who had recently received funds; and (5) faculty who fail to file a report will not be considered for funding until such report is filed.

Human Subjects and Vertebrate Animals

All research and instructional activities that involve human subjects and/or vertebrate animals must have prior review by the appropriate review panel on campus. Western Connecticut State University has adopted the policies and guidelines of the Office for the Protection from Research Risks of the Department of Health and Human Services, U.S. Public Health Service.

Human Subjects

The Institutional Review Board (formerly the Human Subjects Review Committee) is the designated Institutional Review Board for instructional activities and research projects—unfunded as well as sponsored—that involve the participation of humans as research subjects. The requirement to adhere to procedures to protect human subjects extends to students as well as faculty and non-instructional personnel.

Certain categories of research may be declared exempt from the regulations, or may be eligible for expedited review by the Committee. Both exempt and expedited categories of research require the completion of a research protocol and a completed WCSU HUM-1 form. Approval to conduct research and/or instructional activities in the exempt or expedited categories will be decided by the Chairperson of the IRB or his/her designee(s) and the Director of the Office of Sponsored Research Administrative Services.

Claims for exemption may be requested for such types of activities as normal educational practices (comparison of instructional techniques), educational tests (aptitude, achievement), survey or interview procedures (questionnaires with no identifying information requested), observation of public behavior, and collection of existing data (records, pathological specimens).

Student Projects

Projects that are carried out by students as class assignments *in the exempt category only* may be reviewed by the instructor and department chair on a one-page abbreviated form. Students who assist a faculty member with his/her research projects should not use this form. This form should be forwarded to the Director of the Office of Sponsored Research Administrative Services for information purposes.

Vertebrate Animals

University policy requires prior approval by the Institutional Animal Care and Use Committee (IACUC) of all research, training, and biological testing—whether funded or unfunded—using vertebrate animals, whether conducted at the University or at another institution as the result of subcontracting.

Information and forms to request permission to use human subjects and/or vertebrate animals may be obtained from the Director of Grant Programs, the Chairperson of the Institutional Review Board, or the Chairperson of the IACUC. They are also contained in the Faculty Handbook.

SUBJECT: Use of Human Subjects in Research

We attach hereto an abstract of the University's Multiple Project Assurance, in accordance with the guidelines published by the Office of Protection Against Research Risks of the National Institutes of Health of the Department of Health and Human Services. Please keep this copy for reference. Copies of the Code of Federal Regulations (45CFR36-Revised 3/8/83) are available in the Office of Grant Programs.

The Institutional Review Board (formerly the Human Subjects Review Committee) has responsibility for monitoring all research involving human subjects, whether funded or not. The IRB has adopted the following plan to assure maintenance of records of experiments involving humans. The purpose of these records is to provide written assurance that the rights of the subjects are respected and that the risk of physical, social and psychological injury is minimal. Reiteration of the following procedures at this time does not signify dissatisfaction with present treatment of human subjects, but rather the perception of the need for a written record which will substantiate the facts and, at the same time, avoid unnecessary paperwork.

I. Purpose of IRB Review

The role of the WCSU Institutional Review Board (IRB) is to review and to approve, when in compliance, all proposed research at WCSU or by WCSU faculty, staff or students to ensure that the research meets Federal standards for the safety and protection of any human subjects involved in the research.

The WCSU IRB operates in compliance with the U.S. Code of Federal Regulations, Department of Health and Human Services (DHHS) Title 45 Part 46, entitled, "Protection of Human Subjects." A link to the DHHS regulations may be found on the WCSU IRB website. WestConn's IRB is registered with the Office of Human Research Protections (OHRP) and has an approved assurance from OHRP (Federalwide Assurance or FWA).

The IRB is responsible for determining that:

- The rights and welfare of the subjects are adequately protected
- The risks to subjects are outweighed by the potential benefits of the research
- The selection of subjects is equitable
- Informed consent will be obtained and, when appropriate, documented

To help the IRB fulfill its role, WCSU requires all researchers to submit their research protocol for review and approval. All applications must include the completed HUM-1. The human subjects research application you submit must describe the research activity, including a protocol, and especially the plan for ensuring the protection of human subjects (please refer to the **Research Application Guide** for complete instructions).

The WCSU IRB is unlikely to reject an application without first discussing its concerns about the research with the investigator. However, applications may be deferred for review at another meeting if substantial issues need to be resolved. Researchers are encouraged to attend the regularly scheduled IRB meetings at which their application will be considered in order to address any concerns directly. You will be informed of the IRB's decision regarding your application as expeditiously as possible. Failure to submit applications for review by the published deadlines may result in a delay in the review process. It is required that researchers ensure that their application is submitted by the first of the month in which the next IRB meeting is scheduled.

II. Application for IRB Review Checklist

Before submitting your research application for review by the IRB, please make sure the following steps have been completed.

1. Ensure that everyone involved in the research has completed WCSU IRB human subjects research training requirements (including researcher, student's instructor, research assistants and department chair). If you have any questions concerning whom should complete human subjects research training, please contact the Office of Grants and Research for guidance.

Attach human subjects research training certificates for all such research personnel to your application.

WCSU is part of the Collaborative Institutional Training Initiative (CITI) program. You can sign up for and complete CITI human subjects training via the link on the WCSU IRB website <http://www.wcsu.edu/irb/>. Information about this training is provided in the Frequently Asked Questions link on the IRB website.

2. Indicate the category under which you believe your study should be reviewed. There are three choices. See the **WCSU IRB Guidelines for Researchers** (pages 6-11) to determine the requirements for each category.

Is this a new research project? YES NO

If so, are you applying for?

- ☐ Exempt Review
☐ Expedited Review
☐ Full Review

Is this research a Continuation of previously reviewed research? YES NO

Is this research a Modification of previously reviewed research? YES NO

3. Submit a Research Application (see the WCSU IRB Research Application Guide).

4. Attach to your application any survey or questionnaire instruments that will be given to subjects, or any protocols describing assessments to which they will be subjected. When an instrument must be purchased or is not yet available, you may describe the instrument in lieu of attaching a copy.

****Note:** You must cite the source for any instruments you are using if they have been developed by others.

5. Attach your Informed Consent Form, or an explanation of why the signed Informed Consent requirement can be waived (see the **WCSU IRB Informed Consent Guidelines**).

WESTERN CONNECTICUT STATE UNIVERSITY

Institutional Animal Care and Use Committee Review of Research Involving Vertebrate Animals

University policy requires prior approval of all research protocols involving animals. The policy applies to the use of live vertebrate animals in research, research training, or biological testing-whether funded or unfunded-conducted at this University or at another institution as a result of subcontracting or other type of collaboration.

The following plan has been adopted to assure maintenance of records which provide written assurance that all animal facilities, as well as research and training procedures, are beyond reproach and are in compliance with all applicable laws, regulations, and guidelines.

Procedures

I. FUNDED RESEARCH: Submit FORM IACUC-1 to the Director of Sponsored Research Administrative Services well before the anticipated deadline.

II. Non-funded Research: Includes both faculty projects and student research and instructional activities. Major advisor and departments chairs must sign for student research. Review will be prompt, and a report will be provided for the principal investigator. In certain instances, modification may be requested by the full Committee, and any changes requested must be incorporated into the final proposal.

III. Cooperative Research: When a project requires collaboration with another institution, e.g., hospital, the Committee must have the approval of both institutions' Animal Care and Use Committees.

IV. Teaching: Protocols must be filed as above.

Please use the form IACUC-1

Individual faculty are responsible for the adherence to these regulations by staff and students under their supervision.

J. PAIN OR DISTRESS CATEGORY AND CONSIDERATION OF ALTERNATIVES

1. Pain or Distress Categories

Species (common name)	Category* A, B, C or D	Number of animals used each year			3-year total number of animals
		Year 1	Year 2	Year 3	
Total number of animals (should equal total from Section B):					

Categories and Examples

Category A: Animals being bred, conditioned, or held for use in teaching, testing, experiments, research, or surgery, but not yet used for such purposes.

Examples:

- Breeding colonies of any animal species. Breeding colony includes parents and offspring.
- Newly acquired animals that are held in proper caging and handled in accordance with applicable regulations.
- Animals held under proper captive conditions or wild animals that are being observed.

Category B: Animals upon which teaching, research, experiments, or tests will be conducted involving no pain, distress, or use of pain-relieving drugs.

Examples:

- Procedures performed correctly by trained personnel such as the administration of electrolytes/fluids, administration of oral medication, blood collection from a common peripheral vein per standard veterinary practice or catheterization of same, standard radiography, parenteral injections of non-irritating substances, restrictions of food/water intake for less than equivalent to periods of abstinence in nature.
- Euthanasia performed in accordance with the recommendations of the most recent AVMA Panel on Euthanasia, utilizing procedures that produce rapid unconsciousness and subsequent humane death.
- Manual restraint that is no longer than would be required for a simple exam; less than 12 hours of physical restraint for an adapted animal.

Category C: Animals upon which experiments, teaching, research, surgery, or tests will be conducted involving accompanying pain or distress to the animals and for which appropriate anesthetic, analgesic, or tranquilizing drugs will be used.

Examples:

- Surgical procedures conducted by trained personnel in accordance with standard veterinary practice such as biopsies, gonadectomy, exposure of blood vessels, chronic catheter implantation, laparotomy or laparoscopy.
- Blood collection by more invasive routes such as intracardiac or periorbital collection from species without a true orbital sinus such as rats and guinea pigs.
- Administration of drugs, chemicals, toxins, or organisms that would be expected to produce pain or distress but which will be alleviated by analgesics.

Category D: Animals upon which teaching, experiments, research, surgery, or tests will be conducted involving accompanying pain or distress to the animals and for which the use of appropriate anesthetic, analgesic, or tranquilizing drugs will adversely affect the procedures, results, or interpretation of the teaching, research, experiments, surgery, or tests.

Examples:

- Procedures producing pain or distress unrelieved by analgesics such as toxicity studies, microbial virulence testing, radiation sickness, and research on stress, shock, or pain.
- Surgical and postsurgical sequella from invasion of body cavities, orthopedic procedures, dentistry or other hard or soft tissue damage that produces unrelieved pain or distress.
- Negative conditioning via electric shocks that would cause pain in humans.
- Physical restraint of animals not conditioned to the procedure for the time period used or in excess of 12 hours.

Note Regarding Category D: An explanation of the procedures producing pain or distress in these animals and the justification for not using anesthetic, analgesic or tranquilizing drugs must be provided. (Attach response.) For USDA (Animal Welfare Act) AWA-covered animals, this information is required to be reported to the USDA, will be available from USDA under the Freedom of Information Act.

2. Consideration of Alternatives

The project director must provide a written assurance that the activities do not unnecessarily duplicate research projects/courses and that there are no alternatives (such as less sentient animal species, computer models, tissue culture, *etc.*) to the use of live animals. This narrative should include adequate information for the IACUC to assess that a reasonable and good faith effort was made to determine the availability of alternatives or alternative methods. If the database search or other source identifies a bonafide alternative method (one that could be used to accomplish the goals of the animal use proposal), the written narrative should justify why this alternative was not used. (Attach response.)

If any procedures fall into Categories C or D, causing more than momentary or slight pain or distress to the animals, 1) describe your consideration of alternatives and your determination that alternatives are not available and 2) involve the Attending Veterinarian in planning. ____ Yes ____ No

Alternatives include methods that (1) refine existing tests by minimizing animal distress, (2) reduce the number of animals necessary for an experiment, or (3) replace whole-animal use with in vitro or other tests. Note that you must certify in Section R.5. that no valid alternative was identified to any described procedures which may cause more than momentary pain or distress, whether relieved or not. Delineate the methods and sources used

in the search. Database references must include databases (2 or more) searched, the date of the search, period covered, and the keywords used.

DECLARATION ON THE USE OF ANIMALS IN RESEARCH*

Biomedical science faces increasingly hostile and outspoken campaigning aimed at the abolition of animal experimentation. Statements of support for the responsible use of animals in research have been made to the AAAS, the AMA, the BAAS, and the 41st World Medical Assembly and many other medical and scientific organizations. Whereas this attack on biomedical science not only threatens the progress of medicine but also challenges the principles of scientific inquiry, we make the following declaration.

Experiments on animals have made an important contribution to advances in medicine and surgery which have brought major improvements in the health of human beings and animals.

While alternatives to the use of animals are actively sought and eagerly adopted as soon as they are provide to be reliable, continued research involving animals is essential for the conquest of many unsolved medical problems such as cancer, AIDS, other infectious diseases, and genetic, developmental, neurological and psychiatric conditions.

The use of animals continues to be essential in basic research that furthers the understanding of biological processes and which provides the essential foundation for improvements in medical and veterinary knowledge, education and practice.

It is unethical to expose human beings to products and processes which have not been adequately tested for safety. Such testing in some cases requires the use of animals.

The scientific and medical community has a duty to explain the aims and methods of its research and to disseminate information about the benefits derived from animal experimentation.

All legislation and regulations governing the use of animals in scientific procedures must be strictly adhered to. Those involved must respect animal life, using animals only when essential and as humanely as possible.

Freedom of opinion and discussion on this subject must be safeguarded, but violent attacks on property, hostile campaigns against individual scientists and associated personnel and the use of distorted, inaccurate or misleading evidence should be publicly condemned.

Procedures for Adding or Refilling Any Unclassified Faculty Position

Overview Of Process

1. **Approval to Add or Refill a Position and to Advertise for a Position** - The department (or Unit) should contact the Academic Dean to request a new or refill a faculty position. The Dean will initiate the appropriate steps noted in the below Position Action Form Procedures.
2. **Development of Procedure for Recruitment** - Upon approval of the Position Action Form, the Department (or Unit) must meet with the Executive Assistant to the President/Chief Diversity Officer to develop a recruitment plan.
3. **Screening of Candidates and Selection of Interviewees** - The Department (or Unit) and/or Search Committee shall review candidate application materials to determine those candidates to be interviewed.
4. **Affirmative Action Approval** - Upon selection of principal candidates, the Department (or Unit) or Search Committee Chair shall meet with the Executive Assistant to the President/Chief Diversity Officer to verify the proper selection of principle candidates prior to invitation for interview.
5. **Selection of Final Candidate** - Upon successful completion of the recruitment process, the Department (or Unit) or Search Committee Chair, in consultation with the Dean, shall make their recommendations and obtain the approval of the Executive Assistant to the President/Chief Diversity Officer. The Academic Dean will consult with the Associate Vice President for Human Resources for verification of starting salary and verbal offer of employment.
6. **Background Check of Final Candidate** - After the Provost/Vice President for Academic Affairs has approved the final candidate, the Associate Vice President for Human Resources will work with the Academic Dean or designee for the final offer of appointment and to arrange for the background check to be completed.
7. **Appointment Letter** - Upon acceptance, the President in consultation with the Associate Vice President for Human Resources shall prepare an Appointment Letter.
8. **Finalization of Search Process** - The Department (or Unit) or Search Committee Chair shall finalize search materials and verify all candidate reimbursement forms, Affirmative Action forms, and other required documents are completed.

Detailed Recruitment Process

A. Approval to Add or Refill Position and Advertise for Position

Approval for adding or refilling an unclassified faculty position is initiated by the Chairperson of a Department or Head of a Unit before the end of the Spring Semester. A Justification and Position Description should be sent to the Dean who will then initiate the above Position Action Form procedures.

1. **Justification** - *For instructional departments* - the request should detail the departmental need with both curricular and workload justification. *For administrative, library, athletic or counselor areas* - analysis of workload justification is sufficient.
2. **Position Description** - All requests should contain a proposed position description for advertising and/or posting. The Chairperson's request should be forwarded to the appropriate Academic Dean. The Academic Deans shall make their recommendation to the Provost/Vice President for Academic Affairs sometime during the summer months (June, July, and August). The Provost/Vice President for Academic Affairs shall make the final decision regarding position allocation. Approval/disapproval of position allocation will be communicated by the Provost/Vice President for Academic Affairs, in consultation with the Associate Vice President for Human Resources, to the Academic Dean, and Chairperson or Unit Head, with appropriate instructions no later than September 1st. Positions approved to be filled will be allocated for the following academic year, unless noted differently.

Note: Requests for refilling unexpected vacancies may be made as soon as they are known to the department or unit.

B. Development of Procedure for Recruitment

An Affirmative Action Recruitment and Hiring Plan must be developed jointly between the Chairperson or Unit Head and the Executive Assistant to the President/Chief Diversity Officer. Forms and format for the Affirmative Action Report, that must be submitted prior to formal interviews, will be reviewed in the Plan's development (see D. below). Upon approval to advertise, Human Resources, in consultation with the Chairperson or Unit Head will finalize with the Executive Assistant to the President/Chief Diversity Officer a job description/position announcement and composition of the Search Committee. The President reserves the right to have representatives on all University Search Committees and/or to approve the membership of all such committees. Only minimum acceptable qualifications should be used in the job description. Recruitment sources will include present adjunct faculty, women, and minorities (the Executive Assistant to the President/Chief Diversity Officer shall provide information on sources for candidates), and advertising in appropriate publications.

C. Screening of Candidates and Selection of Those to be Interviewed

The screening of candidates should be carried out by a search committee according to a predetermined procedure of the department or unit. The Executive Assistant to the President/Chief Diversity Officer is available to help develop such procedures. Screening should be accomplished by the same search committee members to provide realistic comparison and to address each of the following consistently:

1. **Uniform Method** - A uniform method to evaluate all candidates should be used, based only on appropriate job related qualifications. Differential criteria of competence are not to be applied to male and female candidates or to majority and minority candidates.
2. **In-person Questioning** - Only those questions which elicit information of an individual's qualifications for employment are to be asked.

Note: Strong consideration should be given by the search committee to having the Executive Assistant to the President/Chief Diversity Officer brief the committee at the onset of the search as to affirmative action and equal opportunity concerns.

D. D. Affirmative Action Approval: Interviews of Principal Candidates

1. Following the department or unit search and evaluation, one or several candidates may be chosen to be interviewed by the Academic Dean and Provost/Vice President for Academic Affairs. Once these principal candidates have been identified, each should be informed by the search committee chair to send an official transcript from the institution of their highest degree to the department or unit.
2. Prior to the submission of the name(s) of the principal candidates(s) to the Academic Dean and the Provost/Vice President for Academic Affairs, the head of the search committee must submit the Affirmative Action Report to the Executive Assistant to the President/Chief Diversity Officer. This report includes:
 - a. Applicant Data Chart - summary of the results of the search procedure
 - b. Affirmation Action Data Sheet - distribution of candidates by minority status and gender
 - c. All applications and resumes
 - d. The basis and reason for final decisions on principal candidates, including the results of the examination of documents, academic credentials, and interviews.
3. The Executive Assistant to the President/Chief Diversity Officer will review all information and notify the Provost/Vice President for Academic Affairs, Human Resources, and the head of the search committee that the report has been reviewed and accepted and that final interviews may be arranged. With this approval, the head of the search committee should assemble the following materials for each principal candidate and present them to the Dean or Director prior to the interview:
 - a. Resume
 - b. Official transcript (or unofficial transcript while official transcript is being requested).
4. Following the Academic Dean's interview, the materials (resume and transcripts) will be provided to the Provost/Vice President for Academic Affairs for his/her review. At the completion of the interviews of the principal candidates and after affirmative action approval has been received in writing, the Academic Dean will make a formal recommendation to Carolyn Lanier who, in turn, submits the approval in writing to Associate Vice President for Human Resources. The Associate Vice President will then prepare a salary proposal, which will be reviewed with the Department Chair, Academic Dean and the Provost prior to an offer being presented to the candidate.

E. Letter Offering Position

The Associate Vice President for Human Resources will make the offer of employment to the candidate stating terms and requesting the candidate's willingness to accept the appointment. Upon confirmation of all documents and credentials, via a formal background check, the appointment will be formally approved by the President.

Position Action Form Procedures

The Position Action Form (PAF) is used to either establish a new position or to initiate a recruitment process in order to fill a current vacancy. The recruitment process cannot begin until the Human Resources Department receives a completed PAF.

- Once the Human Resources Department becomes aware of an upcoming position vacancy due to a resignation, retirement, etc., the Assistant Director of Human Resources – Recruitment will contact the Department Supervisor/Chair in order to assess their intentions with regards to refilling the position vacancy.
- The Human Resources Department will then work with the department supervisor on identifying the appropriate job level for this position. Unclassified positions (Management & Confidential, SUOAF, and AAUP) will be handled by the Associate Vice President for Human Resources and Classified positions (Clerical, Maintenance, & the Connecticut Police & Fire Union) will be handled by the Assistant Director of Human Resources – Recruitment.
- Based on the information gathered from the Department Supervisor/Chair & the Assistant Director of Human Resources – Recruitment, the appropriate Vice President will consult with the Vice President for Finance & Administration to determine if funding for the position exists.

- After receiving this confirmation, the appropriate Vice President will inform the Associate Vice President for Human Resources.
- The Assistant Director of Human Resources – Recruitment will complete a PAF and electronically distribute it to the Department Supervisor/Chair, Dean (if applicable), and the appropriate Vice President for their approval. Electronic approvals will be sufficient.
- Once the approvals have been received the Assistant Director of Human Resources – Recruitment will review, approve, and forward it to the Director of Financial Planning & Budgets and the Vice President for Finance & Administration for final approval.
- Once the final approval has been received the Assistant Director of Human Resources – Recruitment will email a copy of the completed PAF to all signatory/approval individuals, as well as the Executive Assistant to the President/Chief Diversity Officer, informing them that they are authorized to begin the recruitment process. If the position is within the SUOAF or Management & Confidential ranks it may require approval of a newly created job description from the Council on Employee Relations (CER) and/or SUOAF union leadership prior to beginning the recruitment process.
- If, for some reason, the Vice President for Finance & Administration, in consultation with the appropriate Vice President, does not approve the PAF, within two (2) business days of the receipt of the PAF they will inform the Assistant Director of Human Resources – Recruitment of such who in turn will notify the Department Supervisor/Chair and Dean (if applicable).

President's Affirmative Action Policy Statement

Western Connecticut State University is grounded on a sound Affirmative Action foundation. To that end, as President of Western Connecticut State University, I am fully committed to the University's grounded philosophy of the intellectual and moral leadership responsibility to carry out this well established philosophy, as well as the responsibility of Western Connecticut State University leadership to advance social justice and equity by exercising Affirmative Action to remove all discriminatory barriers to equal employment opportunity and upward mobility. Accordingly, the University, through its Plan of Affirmative Action will, with conviction and effort, continue to undertake positive action to overcome the present effects of past practices, policies or barriers to equal employment opportunity, and to achieve the full and fair participation of Blacks, Hispanics, Whites, Asians/Pacific Islanders, and American Indians/Alaskan Aleuts found to be underutilized in the workforce. The university through its Plan of Affirmative Action, with conviction and effort, will also continue to undertake positive action for the full and fair participation of the above groups and any other protected group found to be adversely impacted by University policies or practices.

Equal opportunity, a distinctly different matter, is employment of individuals without consideration of race, color, religious creed, age, sex, marital status, sexual orientation, genetic information (Section 46a-60(a)(11) of the Connecticut General Statutes, national origin, ancestry, mental retardation, past or present history of mental disability, physical disability, including but not limited to blindness, learning disability, veteran status, or criminal record, unless the provisions of section 46a-60(b), 46a-80(b) or 86a-81(b) of excluding persons in one or more of the above protected groups. Equal employment opportunity is the purpose and goal of affirmative action.

Western Connecticut State University's Affirmative Action Plan incorporates and lists federal and state constitutional provisions, law regulations, guidelines and executive orders prohibiting or outlawing discrimination, identifying classes of persons protected based on race, color, religious creed, age, sex, (including pregnancy) marital status, sexual orientation, national origin, ancestry, mental disability, genetic information, intellectual disability, physical disability, learning disability, gender identity or expression, veteran status, and criminal record, except for bona fide occupational qualifications.

The University outlines its employment process as one of recruitment, selection, assignment, compensation, promotion and upgrading, training, educational assistance, transfers, terminations, layoffs and recall, and all other terms, conditions and privileges of employment. Affirmative Action is an integral consideration throughout the entire employment process. The Associate Vice President of Human Resources and the Executive Assistant to the President/Chief Diversity Officer are responsible for ensuring that affirmative action remains in the forefront of each step of the employment process. An affirmative action discussion occurs throughout the employment process continuum. All facets of the employment process are linked to affirmative action.

Clearly, affirmative action and equal employment opportunity are immediate and necessary agency objectives for Western Connecticut State University. We shall affirmatively provide services and programs in a fair and impartial manner. We also recognize the hiring difficulties experienced by individuals who are physically disabled and many older persons, and will undertake measures to overcome the present effects of past discrimination, if any, to achieve the full and fair utilization of such persons in the work force. The procedures for adding or refilling any unclassified faculty position are outlined in the current Faculty Handbook.

Typically, the Chair of the Department must obtain approval from the School's Dean, who obtains final approval from the Provost/Vice President for Academic Affairs to advertise for the position. Then the Chair of the Department, or Department members acting together, prepare(s) the position announcement, which is first reviewed and approved by the appropriate School Dean. The Associate Vice President for Human Resources and the Executive Assistant to the President/Chief Diversity Officer reviews the position announcement. After the Search Committee is established, the Executive Assistant to the President/Chief Diversity Officer will routinely meet with and instruct its membership regarding the University's recruitment policy and related institutional goals to diversify the pool of candidates with respect to ethnicity, race, and gender. Through ongoing monitoring, the Executive Assistant to the President/Chief Diversity Officer advises the Search Committee as to the sufficiency or insufficiency of the composition of the pool for the purpose of achieving the goals of diversity.

Before the Search Committee prepares and recommends a list of the finalists, the Executive Assistant to the President/Chief Diversity Officer and the Chair of the Committee will consult regarding good faith efforts made to obtain diversity, obtain a goal candidate, whether the finalist is a goal candidate, and the completion of relevant documentation. Prior to the offering of a position to a candidate, the Provost/Vice President for Academic Affairs will request the Executive Assistant to the President/Chief Diversity Officer approve the candidate who is recommended for hire.

The Program Goals as set forth in the Affirmative Action Plan further detail the University's Affirmative Action requirements for the hiring process of all positions. As President of Western Connecticut State University, I am committed to the University adhering to and meeting the goals and timetables as set forth in the plan. The University is well positioned to continue Affirmative Action progress, and I will continue to exercise leadership and commitment to achieve the goals and timetables as set forth in the Affirmative Action Plan of Western Connecticut State University.

This policy is not limited to employment practices but extends to services and programs provided by the University. All executive, administrative, and supervisory personnel are expected to discharge their affirmative action responsibilities, in word and deed, consistent with the University's objective to establish and implement affirmative action and equal employment opportunity for all qualified persons.

As President of Western Connecticut State University, I pledge to make every good faith effort to realize the goals and timetables as set forth in the Affirmative Action Plan, and as required by pertinent state and federal legislation as set forth in the Affirmative Action Plan. Copies of the Affirmative Action Plan are housed in the Haas Library, the President's office, the Provost and Vice President for Academic Affairs' office, Human Resources, the office of Multicultural Affairs and Affirmative Action and online at <http://www.wcsu.edu/multicultural>.

Ms. Carolyn Lanier, Executive Assistant to the President/Chief Diversity Officer, is responsible for overseeing affirmative action and equal employment opportunity at the University. Ms. Carolyn Lanier is the University's full time Affirmative Action Officer. To this end, the Executive Assistant to the President/Chief Diversity Officer shall be concerned with equitable treatment of all of the University community. Ms. Lanier is located at: Western Connecticut State University, Midtown Campus, Old Main 101, 181 White Street, Danbury, Connecticut, 06810. Telephone and voice mail (203) 837-8277. The Executive Assistant to the President/Chief Diversity Officer shall personally investigate and/or oversee all discrimination complaints filed with the University.

The Executive Assistant to the President/Chief Diversity Officer is required by law to investigate all discrimination complaints filed against the University. As part of the investigation process mediation may take place at the supervisory or department head level under the guidance of and with occurrence from the Executive Assistant to the President/Chief Diversity Officer, who will oversee the investigation process and who may also elect to mediate a complaint. The Executive Assistant to the President/Chief Diversity Officer Programs shall have full access to University records, resources, and staff in mediation, investigation, and resolution of complaints.

If, after investigation of a complaint, the Executive Assistant to the President/Chief Diversity Officer Programs has reasonable cause to believe that an act of discrimination may have taken place, or has the potential to take place, such findings shall be brought to the attention of the President and Associate Vice President of Human Resources for review and corrective action, as appropriate. The Executive Assistant to the President/Chief Diversity Officer is charged, in this regard, to conciliate and/or bring closure to the matter in a manner that eliminates the discriminatory act in question.

If, after investigation of a complaint, the Executive Assistant to the President/Chief Diversity Officer does not have reasonable cause to believe an act of discrimination may have taken place or has the potential to take place, the complainant shall be advised of this finding, in writing, and provided advisement again of his/her right to legal options to file complaints.

After investigation, the procedure provides for a hearing by a panel which is comprised of an individual who is not a constituent of either party and a constituent of each party, who will make recommendations to the President. If the President accepts a recommendation, the recommendation shall be implemented as soon as practical. The Executive Assistant to the President/Chief Diversity Officer is responsible for following up to ensure that the recommendation is implemented. Training shall be provided for those who serve on the panel. Time frames shall not exceed 90 days for filing, processing and resolution of such matters, time frames that are consistent with the Regulations for Affirmative Action by State Government.

Connecticut University System Sexual Harassment Policy

SECTION 1. Purpose

The Connecticut State University System reaffirms and emphasizes its commitment to maintain a workplace and educational environment free from sexual and other forms of illegal harassment. Sexual and other harassment is reprehensible and subverts the mission of the university and will not be tolerated at the Connecticut State University System. It threatens the careers of employees, faculty and staff, and the educational experience of our students. The purpose of this policy is to prevent sexual harassment and to offer students and employees who believe they have been sexually harassed a means to redress any such claim with the goal of ending the harassment and providing an environment conducive to learning and working. Retaliation against an individual who complains about sexual harassment or who cooperates with an investigation of a complaint is unlawful and, if found to have occurred, will not be tolerated.

SECTION 2. STATUTORY AUTHORITY

Sexual harassment is prohibited by Title IX of the Education Amendments of 1972, Title VII of the Civil Rights Act of 1964, Section 46a-60 of the General Statutes of Connecticut and University policy. Harassment based on other protected classes covered by state or federal law is also prohibited. It is the intention of the CSU to take whatever appropriate action may be needed to prevent, correct, and if necessary, discipline behavior that violates this policy.

SECTION 3. POLICY STATEMENT

All members of the CSU community shall conduct themselves in an appropriate manner with concern, dignity and respect for others. The CSU community includes students, employees, and non-employees when they conduct business on CSU property. Sexual and other illegal harassment may occur between staff and staff, staff and student, student and student. Complaints of sexual and other illegal harassment within the Connecticut State University System will be taken seriously and investigated. Any member of the CSU community who violates this policy is subject to the full range of disciplinary action. While there is a difference between illegal conduct and unprofessional or inappropriate conduct in the CSU community sexual or other harassment in some instances need not be intentional to violate this policy. In the event of a charge of sexual harassment, a defense based upon consent will be given little weight when the facts establish an employee/student or supervisor/employee relationship existed. Since any significant power differential between members of the CSU community makes voluntary consent questionable, members of the faculty and staff are expected to be aware of their professional responsibilities and avoid apparent or actual conflict of interest.

An individual with a complaint concerning sexual harassment has a right to be heard. By means of these procedures, the CSU ensures an opportunity for an individual (Complainant), without fear of retaliation, to express a complaint and to seek a prompt and equitable resolution while protecting the rights of the person against whom the complaint has been filed (Respondent). These procedures shall be available to any person who, at the time of the act complained of, was an employee, student, or applicant for employment or admission to the Connecticut State University System.

SECTION 4. DEFINITION OF SEXUAL HARASSMENT

"Any unwelcome sexual advance or requests for sexual favors or any conduct of a sexual nature when (1) submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment, (2) submission to or rejection of such conduct by an individual is used as the basis for employment decisions affecting such individual, or (3) such conduct has the purpose or effect of substantially interfering with an individual's work or academic performance or creating an intimidating, hostile, or offensive working or environment". In an academic setting sexual harassment would also include any unwelcome sexual advances or requests for sexual favors or any conduct of a sexual nature when submission to or rejection of such conduct by an individual might affect academic or personal decisions that are subject to the influence of the person making the proposal.

The law currently recognizes two various forms of sexual or other harassment:

1. Quid Pro Quo.

Unwelcome sexual advances, requests for sexual favors and other verbal or physical conduct of a sexual nature when:

- a. Submission to such conduct is made either explicitly or implicitly a term or condition of an individual's academic work or employment; or
- b. Submission to or rejection of such conduct by an individual is used as the basis of employment or academic decisions affecting such individuals; and

2. Hostile Environment

- a. Such contact affects or interferes with an individual's work or academic performance or creates an intimidating, hostile or offensive academic or working environment. Hostile environment sexual harassment involves speech or conduct that is directed at someone because of their gender and/or is conduct of a sexual nature. Such speech or conduct includes, but is not limited to, unwelcome sexual advances, requests for sexual favors and other verbal or physical conduct of a sexual nature.
- b. Such speech or conduct is reasonably regarded as offensive and substantially impairs the academic or work opportunity of students, colleagues or co-workers. This policy shall not be interpreted so as to constitute interference with academic freedom.

3. Gender Harassment.

Gender harassment is a form of sexual harassment, which consists of discriminatory behavior towards an individual based on gender. It includes the use of sexist language, illustrations, examples and gestures that demonstrate discriminatory behavior. Sexually related conduct forms the basis of a sexual harassment claim if a reasonable person of the same gender would consider the actions sufficient to interfere unreasonably with the academic and/or employment performance of the Complainant.

4. Other Harassment.

Harassment against any other protected class member covered by state or federal law.

SECTION 5. EXAMPLES OF SEXUAL HARASSMENT

While it is not possible to list all conduct which may constitute sexual harassment, the following are some examples of conduct which may constitute sexual harassment depending upon the totality of the circumstances, including the severity of the conduct and its pervasiveness. Examples of sexual harassment may include but are not limited to:

1. Direct unwanted proposition of a sexual nature.
2. Direct or implied threats that submission to sexual advances is a condition of employment, promotion, or advancement in grades, letters of recommendation, scholarships, or any related matter.
3. A pattern of conduct intentionally intended and/or which has the effect of humiliating another that includes examples of the following: comments of a sexual nature; sexually explicit statements, questions, anecdotes, jokes, pictures, or other written materials;
4. A pattern of conduct that would humiliate another (using the reasonable person standard) which would include the following: unnecessary touching, patting, hugging, or brushing against another's body, remarks of a sexual nature about a person's clothing or body, or remarks about sexual activity or speculations about sexual experiences.

SECTION 6. CONFIDENTIALITY

The Connecticut State University System is committed to take corrective action when it becomes aware of a problem involving sexual or other harassment. Individuals who feel that they have been subjected to any instance of sexual or other harassment or instances of a pattern of sexual or other harassment are strongly encouraged to come forward with complaints regarding sexual harassment and to seek assistance from CSU officials. The CSU cannot insure confidentiality upon receipt of a complaint of sexual harassment; however, dissemination of information relating to the case should be limited, in order that the privacy of all individuals involved is safeguarded as fully as possible to the extent permitted by law. The CSU will enforce compliance with the non-retaliation provision of this policy. The CSU may proceed to investigate a complaint without the consent of the individual who originally filed the complaint.

SECTION 7. COMPLAINT PROCEDURES

The Connecticut State University System is committed to take reasonable care to prevent and correct any sexually or other harassing behavior or other forms of unlawful discrimination at the System Office and on its four university campuses. Complaints alleging a violation of this policy shall be addressed through established discrimination and sexual harassment procedures at each university. Procedures for the handling of complaints involving claims of discrimination or sexual harassment are available through the Affirmative Action Officer at the university. These procedures will allow for an informal resolution of the complaint. If the informal process is unsuccessful or if the Complainant wishes to bypass the informal process, he/she may file a formal complaint. Complaints should be lodged as soon as possible after the alleged incident, but no later than 180 days after said incident.

Students alleging a violation of this policy may file a sexual or other harassment complaint following established procedures noted in their University's Student Handbook.

SECTION 8. ALTERNATIVE LEGAL REMEDIES

Nothing contained in the Policy is intended to deny any member of the Connecticut State University community the right to pursue other avenues of recourse in the event he/she believes that he/she has experienced sexual harassment. Such recourse may include filing charges with a state or federal enforcement agency, or initiating civil or criminal action under state and federal law. Complaints must be filed within 180 days with the Connecticut Commission on Human Rights and Opportunities, 21 Grand Street, Hartford, CT 06106, Telephone 860-477-5737.

SECTION 9. DISSEMINATION OF POLICY

This Policy shall be conspicuously posted in the System Office. The System Office and each university shall conform to statutory requirements for posting. In addition, each university shall ensure its dissemination in accordance with established practice. This policy shall appear in the student handbook and faculty handbook and shall be reviewed periodically for compliance with state and federal law.

FOR FURTHER INFORMATION ABOUT THIS POLICY OR INFORMATION REGARDING THE PROCESS FOR FILING A COMPLAINT, CONTACT THE AFFIRMATIVE ACTION DIRECTOR. STUDENTS SHOULD CONSULT THEIR UNIVERSITY STUDENT HANDBOOK FOR FURTHER INFORMATION REGARDING THE PROCESS FOR FILING A COMPLAINT.

Recruitment Expense Reimbursement Procedures

1. Allocation of Funds--The University has allocated a maximum of \$1,800 to the department to cover expenses associated with a recruitment process. These funds can be used to reimburse both in-state and out-of-state candidates for travel and lodging expenses or expenses incurred by the Search Committee that are directly related to the recruitment function.

2. Distribution of Funds in an Equitable Manner--The Departmental Search Committee shall have the ability to allocate any travel reimbursement funds in an equitable manner among candidates. If the department establishes a limit on the amount of reimbursement that a candidate may receive, this limit must be communicated in writing to the candidate.

3. Reimbursable Expenses--In accordance with the updated Board Resolution #08-34, In-State candidates are eligible for reimbursement for travel expenses, accommodations, and meals. Up to three (3) candidates shall be limited to the following four categories:

A. Mileage and Tolls--The University shall reimburse candidates for use of their personal automobile to transport themselves. Reimbursement shall be at the prevailing IRS mileage rate (see current travel information for the current mileage rate.) The University shall also reimburse a candidate for tolls incurred in this travel. A receipt is required for tolls. MapQuest should be used to verify and submit for reimbursement of mileage.

B. Travel Expenses--The University will reimburse candidates for other travel expenses incurred in the visit to the University. Air travel shall be restricted to coach or business class seats and should be the most economical travel possible. Any expenses in this category must be documented with an original paid bill or receipt.

C. Meals--The University shall reimburse candidates for meal expenses during the time of travel or the time of the visit. Reimbursement for meals will be based on the Federal GSA Per Diem rates for the Danbury area. Currently, the candidates' own meals may be reimbursed up to \$71 per day (\$12 for breakfast, \$18 for lunch, \$36 for dinner and \$5.00 for incidentals). Tips for meals are included in this daily allowance. Any expenses in this category must be documented with an itemized original paid bill or receipt. Expenditures should be limited to the cost of food only. WCSU is not permitted to reimburse for alcoholic beverages.

D. Lodging--The University will reimburse candidates for the cost of lodging. Any expenses in this category must be documented with an itemized original paid bill or receipt. Please refer to the University's preferred hotel list. Please note that hotel expenses should be paid by the candidate and will be reimbursed upon proper submission of original paid bill or receipt.

4. Candidate Reimbursement Procedure--Eligible expenses for candidates are submitted to the Human Resources department on the "WCSU Employment Candidate Expense Reimbursement Form" ¹. Both the Department Chairperson and the Academic Dean must approve the reimbursement before the Human Resources department will process the reimbursement for a candidate.

5. Reimbursement for Meals and Refreshments Incurred by Members of a Search Committee--If a member of the Search Committee incurs an expense associated with the recruitment process for a candidate, those expenses are reimbursable. Examples of these expenses are meal expenses while entertaining a candidate or purchasing refreshments served at an interview. Reimbursement per person for meals will be based on the Federal GSA Per Diem rates for the Danbury area. Tips for meals are included in this daily allowance. WCSU is not permitted to reimburse for alcoholic beverages. The person requesting reimbursement for meals and/or refreshments should submit a "WCSU

Disbursement Form for Searches," ¹ noting the candidate's name on the form. Any expenses in this category must be documented with an itemized original paid bill or receipt noting the names of all attendees. Should you require services from the Sodexo Dining Service, please complete the WCSU Food Service Policy Request Form ¹ following the directions on the form. Please note the candidate's name and position they are applying for on the form as well all the attendees. The Federal GSA Per Diem rates apply to meals served by Sodexo as well. Once the form is completed, it should then be sent to the Human Resources office for assignment of the budget code and processing.

6. Mileage Reimbursement for Members of the Search Committee: Mileage reimbursement shall be at the prevailing IRS mileage rate (see current travel information for current mileage rate.) If an employee transports a candidate in their personal car resulting in the need to submit a claim for mileage reimbursement, they must complete and submit the following as appropriate:

A. In-State Travel--a WCSU Mileage Reimbursement Form should be used for In-State Travel. You should complete and submit the Mileage Reimbursement Form ¹ along with the MapQuest directions noting the mileage to the Department Chair and the Dean for signature. Send completed form to Peggy Boyle in Human Resources for assignment of the charge number and for final approval and processing.

B. Out-of-State Travel--a WCSU Request for Professional Travel Worksheet & Policy Exception Request Form should be submitted for Out-of-State Travel (i.e. picking up a candidate from a NY airport, etc.)

i. You should complete the Request for Professional Travel Worksheet ¹, attaching any toll/parking receipts along with the MapQuest directions noting the mileage.

II. You will also need to complete a Policy Exception Request Form ¹ (due to the current restrictions on out-of-state travel.)

- (d) Once these signatures have been obtained, the forms should then be sent to Peggy Boyle in Human Resources for assignment of the budget code and for final approval and processing.

*If any information is missing, the form(s) will be returned to the Department Secretary so that it can be fixed and resubmitted.

Please make sure that **ORIGINAL ITEMIZED RECEIPTS** are submitted for all meals, travel, etc. from both the Employee incurring the expense(s) and from the Candidate.

Both the Department Chairperson and the Academic Dean should approve all expenses prior to submitting them to Human Resources for final approval and payment.

The DEC shall issue their written evaluation and recommendation on the form titled "Department Evaluation Committee Written Evaluation and Recommendation Report." Separate evaluation forms have been developed for teaching faculty members, librarians, athletic coaches, and non-instructional athletic trainers.
- F. Department chairpersons who are not members of the DEC shall submit at least one calendar week prior to the due date for the DEC evaluation and recommendation, a separate signed and dated evaluation to the DEC for its consideration. The evaluatee must make this request to the academic dean or director no later than five working days after receipt of the DEC written evaluation and recommendation report. If the dean or director finds that a DEC member has abrogated his/her responsibilities, then the academic dean or director shall direct the DEC to reevaluate the member and issue a new evaluation and written recommendation based upon the reevaluation.

H. By the appropriate date, the DEC shall transmit its written evaluation and recommendation with supporting reasons to the appropriate academic dean or director, together with all material submitted to and considered by the DEC. A copy of the DEC's recommendation including supporting reasons and any material considered by the DEC which was not submitted by the member shall be sent to the affected member upon issuance. The original copy of the DEC's written evaluation and recommendation with supporting reasons shall be placed in the member's personnel file.

I. The Dean or Director shall review and consider all of the materials submitted by the DEC and make a recommendation based primarily on these materials. A copy of the Dean or Director's recommendation shall be sent to the affected member upon issuance and a copy placed in the member's personnel file.

J. The following procedures are applicable only to the annual renewal evaluation of non-tenured members and the evaluation members employed on term contracts:

1. An evaluation shall be done after completing a full semester of service and annually thereafter, in accordance with department bylaws and the CSU-AAUP contractual criteria for tenure.
2. The criterion for evaluating and recommending full-time non-tenured members shall be the criterion stated in the current CSU-AAUP Collective Bargaining Agreement for teaching faculty members or the criterion for librarians. Any special conditions in the member's letter of appointment or subsequent extensions or modifications of such appointment as provided in Article 4.7 of the current CSU-AAUP Collective Bargaining Agreement shall be considered in the evaluation process for renewal, promotion, or tenure.

The criterion for evaluating and recommending full-time members employed on term contracts shall be the criterion stated in the current CSU-AAUP Collective Bargaining Agreement for athletic coaches or the criterion for non-instructional athletic trainers. Any special conditions in the member's letter of appointment or subsequent extensions or modifications of such appointment as provided in Article 4.7 of the current CSU-AAUP Collective Bargaining Agreement shall be considered in the evaluation process for renewal, promotion, or tenure.

3. The Dean or Director shall send his/her recommendation along with all of the previously submitted material to the appropriate Vice President. A copy of the Dean or Director's recommendation and any new material considered by the Dean or Director shall be sent to the affected member upon issuance and a copy of the Dean or Director's recommendation shall be placed in the member's personnel file.
 4. After his/her review of the material, the Vice President shall return to the member any material the member has submitted for consideration during the evaluation process.
- K. The following procedures are applicable only to the evaluation of members for promotion and/or tenure
1. The department chairperson shall inform its members who are eligible for consideration for promotion.
 2. Unless requested otherwise, members shall be considered for promotion as they become eligible.
 3. A member not wishing to be considered for promotion must so indicate in writing to the department chairperson with a copy sent to the University President.
 4. A promotion recommendation may be initiated by the department pursuant to Article 5.3.5 of the current CSU-AAUP contract.
 5. Candidates with a terminal degree or comparable credentials are eligible to apply for promotion during their fifth year in rank.
 6. Candidates without a terminal degree or comparable credentials are eligible to apply for promotion during their tenth year in rank.
 7. A member who wishes to apply for tenure before the sixth year may do so by applying to his/her DEC. A copy of the application should be sent to the appropriate Dean or Director. Normally, four years of full time experience at the college level in the appropriate department (academic, library, counseling) with two of these years at Western are suggested before applying for tenure or the number of years mutually agreed to by the member and the University President (or designee) not later than the end of the first semester's service.
 8. **Promotion.** The criterion for evaluating and recommending full-time members shall be the criterion stated in the current CSU-AAUP Collective Bargaining Agreement for either teaching faculty members, librarians, athletic coaches, and non-instructional athletic trainers. Any special conditions in the member's letter of appointment or subsequent extensions or modifications of such appointment as provided in Article 4.7 of the current CSU-AAUP Collective Bargaining Agreement shall be considered in the evaluation process for renewal, promotion, or tenure.
 9. **Tenure:** The criterion for evaluating and recommending full-time members shall be the criterion stated in the current CSU-AAUP Collective Bargaining Agreement for teaching faculty members or the criterion for librarians. Any special conditions in the member's letter of appointment or subsequent extensions or modifications of such appointment as provided in Article 4.7 of the current CSU-AAUP Collective Bargaining Agreement shall be considered in the evaluation process for renewal, promotion, or tenure. Leaves without pay shall be classified as: (a) pursuit of the member's scholarly discipline; or (b) other purposes. Leaves in pursuit of the member's scholarly discipline shall be considered a period of service for purposes of seniority, eligibility for tenure, promotion, or sabbatic leave.
 10. The Dean's (or Director's) recommendation, along with all of the previously submitted material, shall be transmitted to the University Promotion and Tenure Committee. At the time it is sent, a copy of the Dean's (or Director's) recommendation (with all comments) shall be sent to the affected member and a copy shall be placed in the member's personnel file.
 11. The deans for each school and the appropriate directors shall forward all material to a designated central location where it can be accessed by the P & T Committee, Provost/Vice President for Academic Affairs, and the President.
 12. After conclusion of the promotion and tenure process, all material submitted by the candidate will be offered back to the member within 60 days. If a dispute regarding the promotion and or tenure process arises after the material has been returned to the faculty member, the faculty member must provide the University with a copy of all the material submitted thirty (30) days from when the dispute is initiated.

Policies For Promotion, Tenure, And Evaluation

The following recommendations apply to the evaluations of all WCSU AAUP members. In the case of librarians, counselors, athletic coaches, and athletic trainers, the word "director" shall be substituted for "dean" wherever appropriate.

1. Department Evaluation Committees should be elected by the departments, except in "hardship" cases. (Note: "hardship" is defined in the CSU-AAUP Collective Bargaining Agreement)
2. A department may allow its DEC the use of an outside peer evaluator. Such peer evaluator should have demonstrated expertise in the area of the candidate's responsibilities. If an outside peer evaluator is used, his/her evaluation should be available to the DEC, the Dean, and the Promotion and Tenure Committee. A candidate may introduce evaluation from an outside peer evaluator for the consideration of the DEC, the Dean, the Promotion and Tenure Committee, and the President.
3. All persons in a department who are eligible to serve on its DEC have the responsibility to serve.
4. It is the responsibility of the chairperson of the department to see to it that the DEC's are constituted appropriately and in a timely manner. If a member of a department believes that the composition of the DEC is inappropriate or not timely, appeal may be made to the Vice President for Human Resources. DEC members, peer evaluators, department chairs, and all others who write evaluations or recommendations should be clearly identified in the evaluations/ recommendations.
5. It is recommended that a faculty member be notified at least one (1) year in advance by the department chairperson of his/her evaluation and its requirements. However, this does not change the contractual requirements as enumerated in 4.11.3 of the Collective Bargaining Agreement.
6. The DEC report should contain the material on which the DEC's evaluation was based (except the material that already exists in the personnel file). Summaries of student evaluations may be placed in the personnel file instead of the student evaluations. However, if student comments are included in the DEC report, then all the raw student evaluations should be placed in a supplemental file. Such a supplemental file should remain in the Human Resources Office until the conclusion of the current evaluation process (President's action).
7. The CSU-AAUP Collective Bargaining Agreement establishes five categories for evaluating faculty members. The Collective Bargaining Agreement also allows special conditions under article 4.7 in letters of appointment. Quality is the criterion in each category or condition. Departments, through their bylaws, shall articulate the expectations by which quality of performance in each of the five categories (except #5, rank) is to be judged. This information should be made available to the Dean, the Promotion and Tenure Committee, and the President.
8. A department chairperson's evaluation of a candidate should be submitted to the DEC for its deliberations prior to the writing of the DEC report (unless the chairperson is a DEC member). The candidate shall be provided a copy of the chairperson's evaluation at the same time as it is given to the DEC.
9. It is the responsibility of the candidate to provide evidence for claims of accomplishments. In the absence of such evidence the claims should be ignored. Candidates should remove duplicate material from their personnel files with the consent of the Human Resources Office or put such material in a sub file clearly marked "duplicates."
10. DEC's and Deans should cite appropriate documentation in the candidate's personnel file to support their evaluations where such documentation exists. This does not preclude the use of other evaluative material or assessments and records of disciplinary action which may be used by the DEC or the Dean (refer to 4.14.1 of the Collective Bargaining Agreement).
11. A Dean should meet with a candidate if the candidate so requests at the time of the evaluation. Similarly, a candidate should meet with the Dean if the Dean so requests. Either the Dean or the candidate (or both) has the right to have a representative present.
12. Student evaluations should be done for most of the courses taught by the faculty member for at least one year prior to his/her evaluation. However, all the courses taught by the faculty member during the year should be listed in the DEC report. A department may, through its bylaws, require student evaluations for a longer period than one year. All student evaluations should be conducted with department-approved instruments. The course number and the total number of students enrolled in the course at the time the evaluation is conducted should be identified. All required student evaluations, as well as those submitted by the candidate, should be considered by the DEC, the Dean, and the P & T Committee.
13. Since the Deans and the P & T Committee are to take the student evaluations into account when faculty members are evaluated, some commonality in the student evaluation instruments is necessary. In addition, the P & T Committee should not have to judge the comparative merits of the instruments. In order for the student evaluations to be useful to the P & T Committee, they should, at a minimum, contain information on the following:
 - a. Quality of teaching
 - b. Course content
 - c. Clear criteria for grading
 - d. Grading fairness
 - e. Accessibility of the instructor outside the classroom
 - f. Clarity in the presentation of the subject matter
 - g. Frequency of class cancellations
14. When the annual list of eligible candidates is sent to department chairpersons and Deans (usually done by the Provost/Vice President for Academic Affairs) a copy of the above recommendations, as accepted by the Senate and approved by the President, shall also be sent with the list.

Assessment and Evaluation of Administrative Faculty

Procedures on Evaluation of Administrative Faculty and the maintenance of the Personnel File are detailed in the current "Collective Bargaining Agreement between State University Organization of Administrative Faculty AFSCME-Council 4- Local 2836 and the Board of Trustees for Connecticut State University System."

State of Connecticut Drug-Free Workplace Policy for Western Connecticut State University

The State of Connecticut and Western Connecticut State University (hereafter referred to as the "University") are committed to winning the battle against substance abuse. Substance abuse jeopardizes a stable family structure, increases crime, impacts worker productivity, and presents a continuing and growing drain of government funds. For our youth, substance abuse is an especially serious threat. Drugs destroy their hopes and dreams and, all too often, their very lives.

The workplace is not immune to the influence of substance abuse. Worker safety, health and efficiency are adversely affected. Therefore, in harmony with Connecticut's three-pronged strategy of education, treatment and enforcement to combat substance abuse and in accordance with federal legislation, this Drug-Free Workplace Policy has been adopted.

Effective March 18, 1989, the federal government enacted the "Drug-Free Workplace Act", (41 U.S. Code §§701 et seq.). This act requires that any employer receiving federal funding must certify that it will maintain a drug-free workplace. Among other things, the act requires that a policy be published notifying employees that the unlawful manufacture, distribution, possession, or use of controlled substances is prohibited in the workplace. It also requires that certain actions be taken if this policy is broken.

General Policies

It is the policy of the State of Connecticut that each employee has a right to come to work and perform his or her job in an environment that is free from the illegal use of drugs. It is also in the interest of the State and the public that employees be able to perform their duties safely and efficiently. The State is firmly committed to promoting high standards of health, safety, and efficient service. Thus, our goal is to maintain a work environment free from the effects of drug abuse.

It is the policy of the State of Connecticut that employees shall not unlawfully manufacture, distribute, dispense, possess or use a controlled substance while on the job or in the workplace, or be under the influence of a controlled substance, not prescribed for him/her by a physician, while on the job or in the workplace. Any employee violating this policy will be subject to discipline, up to and including termination.

It is the policy of the State of Connecticut that employees with substance abuse problems are encouraged to participate in a counseling or rehabilitation program prior to being in a disciplinary situation. Employees should be advised of the Employees Assistance Program provided by the agency and any available drug counseling or rehabilitation programs (1).

Employee Requirements

Employees shall not unlawfully use, possess, distribute, dispense or manufacture controlled substances or be under the influence of a controlled substance while on the job or in the workplace. Any employee violating this policy will be subject to discipline, up to and including termination.

"Controlled substances" are specifically defined in federal law and consist of two classes of drugs: (1) those commonly thought of as "illegal" drugs; and (2) certain medications if not being taken under a physician's prescription or according to a physician's orders, which the federal government has determined have a potential for abuse, or are potentially physically or psychologically addictive.

Employees must give notification in writing to Mr. Fred Cratty, Associate V.P. for Human Resources, within five (5) calendar days of any conviction for violation of a criminal drug statute if the violation occurred in the workplace. A conviction means a finding of guilt (including a plea of nolo contendere) and/or the imposition of a sentence by a judge or jury in any federal or state court. This reporting requirement is in addition to any agency work rules that require notice of arrests and/or convictions. An employee who is so convicted or who fails to report such a conviction is subject to discipline, up to and including termination.

"Workplace" includes any locations owned, operated or controlled by the State, whether the employee is on or off duty, and any other locations while on duty where State business is conducted, including traveling on State time to or from such work locations.

The agency must notify the appropriate federal agency in writing, as well as the Office of Labor Relations, within ten (10) calendar days of receiving notice that one of its employees funded under a federal grant or contract has been convicted for a violation of a state or federal drug statute occurring in the workplace.

Employees who have substance abuse problems are encouraged to participate in a rehabilitation program and should be notified of the Employee Assistance Program and available drug counseling or rehabilitation programs. The federal act requires that an employer take action within 30 calendar days of receiving notice of a workplace drug conviction to impose discipline upon and/or to require satisfactory participation in a substance abuse rehabilitation program by the convicted employee.

Since it is a federal certification requirement that employees be notified of this policy, each employee will receive a copy of it. The policy will also be available at Human Resource Department bulletin board in University Hall at 181 White Street, Danbury Connecticut 06810.

1- Information regarding Western Connecticut State University's Employee Assistance Program can be obtained at the University's Human Resources Department or from the Human Resource website -- www.wcsu.edu/hr

University Policy on Smoking

Western Connecticut State University is a public university authorized under State of Connecticut statutes. In accordance with current statutes applicable to buildings owned and/or operated by the State of Connecticut and residence halls in public institutions of higher education, smoking is prohibited inside all buildings. In addition, the University has established the policy that smoking is prohibited within a fifteen (15) foot distance of all building entrances, exits and open windows in order to reduce the infiltration of second-hand smoke into occupied space.

Family Educational Rights and Privacy Act (FERPA)

Western Connecticut State University accords all the rights under the law to students. No one outside the university shall have access to, nor will the university disclose information from, a student's educational records without his/her written consent except to personnel within the university, to officials of other institutions in which students seek to enroll, to persons or organizations providing students financial aid, to accreditation groups, to persons in compliance with a judicial order, and to persons in an emergency in order to protect the health or safety of students or other persons or to parents of a student who is officially documented as their dependent for income tax purposes. All these exceptions are permitted under the Family Educational Rights and Privacy Act. The university will maintain a record of all requests for and/or disclosure of information from a student's educational records. The record will indicate the name of the party making the request, any additional party to whom it may be redisclosed, and the legitimate interest the party had in requesting or obtaining the information. The record may be reviewed by the eligible student.

Within the Western Connecticut State University community, only those university officials, acting in the student's educational interest are allowed access to student education records. A university official is any person employed by the university in an administrative, supervisory, academic, research, or support-staff position; any person appointed to the Board of Trustees for the Connecticut State University, and any person employed by or under contract to the university or the State of Connecticut to perform a special task, such as an attorney or auditor. A university official has a legitimate educational interest if the official is: performing a task that is specified in his or her position description or by contract agreement; performing a task related to a student's education; performing a task relating to the discipline of a student; or providing a service or benefit relating to the student or student's family, such as health care, counseling, job placement or financial aid.

At its discretion the university may provide directory information in accordance with the provisions of the act to include: student name, address, telephone number, photo ID, date of birth, major field of study, dates of attendance, degrees and awards received, participation in officially recognized activities and sports, and weight and height of members of athletic teams. Students may withhold directory information by notifying the Office of the Dean of Students in writing. Such a request would be honored until such time students requested in writing that their directory information again be made public.

The law provides students the right to inspect and review information contained in their education records, to challenge the contents of their education records and to have a hearing on the matter. The Vice President for Student Affairs or his designee at Western Connecticut State University has been designated to coordinate the inspection and review procedures for student educational records, which include admissions, personal, academic, financial, disciplinary, cooperative education, and placement records. Students wishing to review their educational records must make requests to the Registrar listing the item of interest. Only records covered by the Act will be made available within 45 days of the request. Students may have copies made of their records with certain exceptions (e.g., a copy of their academic record for which a financial "hold" exists, or a transcript of an original or source document which exists elsewhere). Educational records do not include: records of instructional, administrative and educational personnel, which are the sole possession of the maker and are not accessible or revealed to any individual except a temporary substitute; records of a law enforcement unit; student health records; employment records or alumni records. Health records, however, may be reviewed by the physician of the student's choosing.

Students may not inspect and/or review the following as outlined by the Act: financial information submitted by their parents; confidential letters and recommendations associated with admissions, employment or job placement, or honors to which they have waived their rights of inspection and review; or education records containing information about more than one student. In this last case, the university will permit access only to that part of the record which pertains to the inquiring student. The university is not required to permit students to inspect and/or review confidential letters and recommendations placed in their files prior to January 1, 1975, provided these letters were collected under established policies of confidentiality and were used only for the purpose for which they were collected.

Students who believe that their education records contain information that is inaccurate or misleading, or is otherwise in violation of their privacy or other rights may discuss their problems informally with the Office of Student Affairs.

In the event the student's request, either to have access to a record or to amend information in a file has been denied, the student may ask for a formal hearing. The student must submit a written request for the hearing to the Vice President for Academic Affairs. The hearing panel will consist of the Vice President for Academic Affairs and the Academic Dean of his/her school. Decisions of the hearing panel are final. Any alteration to the student's record will be in accordance with the decision of the hearing panel and will become a permanent part of that record. The student has a right to add a statement to a challenged record if the panel's decision is not to amend the record in accordance with the student's request.

Students who believe that the adjudications of their challenges were unfair or not in keeping with the provisions of the Act may request, in writing, assistance from the Vice President for Student Affairs to aid them in filing complaints with the Family Education Rights and Privacy Act (FERPA), U.S. Department of Education, Washington, D.C. 20202.

Western Connecticut State University
 WESTCONNect Office Access Authorization Policy
 (Keys, Card Access, Building/Room Access)

Overview

The WESTCONNect Office is responsible for coordination of the physical security of the university's facilities. This includes all locksmith services functions (locksets, door closers and keys) as well as electronic security systems (card access systems and CCTV systems).

The WESTCONNect Team strives to make facility security as convenient as possible to the end-user without compromising security. Keys, alarm codes and access to restricted areas are all provided by the WESTCONNect Office upon the approval of Deans, department chairs, directors or club advisors. Keys and codes may be picked up at the WESTCONNect Office in Old Main. Please bring proper photo identification, a WESTCONNECT card or driver's license when picking up keys or codes. Items will not be issued without proper authorization and identification.

Facility Security on Campus:

The university utilizes a variety of physical security methods to ensure a safe academic environment. Locksets and physical keys, alarm systems, stand-alone electronic locksets, on-line access control systems and closed-circuit television (CCTV) systems are utilized to provide the most effective security based on the type of facility. Facilities include:

- Residence halls
- Academic Buildings
- Administrative Buildings
- Garages
- Other Support Facilities

Request Access

It is required that Department or Division heads approve all requests for access to secured areas. Each department is responsible for maintaining records of their access requests. In situations where the specific area requested is outside of the department's area of responsibility, then authorization from the appropriate managing department will be requested.

All keys are inventoried through a computerized key inventory system maintained by the university locksmiths. Each key issued is assigned to an individual who is responsible for its use/misuse. Please do not loan your keys to others, or provide unauthorized access to restricted areas by unlocking doors for others. Please do not "swap" keys with others as you are still responsible for the keys issued to you through the key inventory system. Keys must not be exchanged from one person to another. If there is a need to reassign keys please contact the WESTCONNect Card Office staff.

All individuals granted card or key access agree to the WESTCONNect Access Receipt and Responsibility Statement.

Types of Access:

Individual Access:

All individual requests for access should be submitted on the Semester Access Request Form. Only forms with authorization from the appropriate Department or Division Heads or Deans in the form of a signature or inclusion on an e-mailed form will be accepted.

Departmental Access Requests:

Departments may submit a Semester Access Request Form at the start of any given semester for all their faculty, staff, assistants and students.

Key Box Access:

In lieu of issuing master keys to individuals, the university has deployed electronic key boxes for use in various buildings. The key boxes are operational via the WESTCONNect card, and release only the assigned key tag. Keys are to be used and promptly returned to the same key box, as tags are shared by multiple users. Key tags are not to leave the building to which they have been assigned.

Access Policies:

Access Expiration:

Unless otherwise indicated, all student and part time/adjunct access is terminated at the end of the semester. New requests for access must be submitted each semester.

Full time faculty and staff retain given access unless otherwise indicated.

Card Access Control Policy:

The university utilizes card access in a variety of areas on campus. All areas on the card access system are monitored by the University Police Department.

Security is a cooperative effort by all parties; systems administrators, system monitors and end-users. All individuals must take responsibility for assisting with both personal security as well as protection of assets. To that end, all policies and procedures must be read, understood, adhered to and enforced.

Cards are issued to a specific individual and must not be passed between individuals. It is important to understand that the card access system provides audit capability by date, time, location and individual cardholder information.

Some areas require the use of a 4-digit PIN. The PIN is chosen by the cardholder and may be any 4-digit combination. Do not provide anyone with your PIN, do not write your PIN on your card or keep your PIN written in any location near your CARD.

Except in cases of open building/normal business hours or conducting classroom or lab hours, all access control areas must remain locked. When card access areas are found unlocked and unattended, an investigation will be conducted and may result in the removal of access privileges or further disciplinary action.

When areas are secured, authorized card holders should not provide access to other unauthorized individuals. For example, when working in a lab, doors should not be opened to allow others access, anyone with approved access will have their own card for access. Providing access to an unauthorized individual may result in removal of access privileges. Please refer anyone requesting access to the WESTCONNECT Office, or for after-hours access, contact the University Police Department.

Professors who are leaving a card access classroom must lock the door before turning the room over to the next professor. This allows for an electronic "Turning over" of responsibility for the room and its assets, and provides accurate audit trail capability.

Lost cards must be reported immediately to the WESTCONNECT Office so that access may be removed or temporarily suspended until such time as a new card is issued or the original card is located. After-hours lost cards may be reported to the University Police Department. Unless lost cards are reported and deactivated, someone who finds the card and attempts to use it, may be able to gain access to secured areas.

Return of Keys:

Department heads are responsible to ensure that when an employee, including student worker, turnover occurs within their respective units, that they retrieve all means of access from those individuals who are no longer required to have access to the facility.

All keys must be returned to the WESTCONNECT Card Office. All returned keys will be removed from the individual's key inventory records. A receipt for proof of return of keys will be provided at the time of return.

Duplicating Keys:

The university utilizes a patented, high-security keying system that prevents its keys from being duplicated by outside sources. All keys for the university must be cut by the university locksmiths. All keys are inventoried and maintained by the university locksmiths.

Miscellaneous keys that are not inventoried include, but are not limited to: file cabinets, desk locks, tool boxes, panel keys, lockers, freezers, and storage cabinets.

WESTCONNECT Access Receipt and Responsibility Statement

The key/code is the property of Western Connecticut State University and is on loan to me. Use of this key/code is intended solely for my person use and safeguarding and will not be given to anyone or duplicated. In the event this key or code is lost, stolen, misplaced or compromised in any way, I will notify the WESTCONNECT Office.

I understand that should I lose this key, I will have to pay the appropriate replacement charges as determined by the WESTCONNECT Office according to the fair market value of replacement.

It is my full responsibility to return this property to the WESTCONNECT Card Office in the event that I leave WCSU employment and should I fail to do so, the university may take the appropriate legal action to recover its cost.

Report a Problem

Work Order Request

This includes problems with any regular locks, card access locations, or key boxes.

Please put in your request using the Internet through the University's computerized, Internet-based SCHOOLDUE work order system.

1. Enter the address www.school dude.com and select client login.
2. Sign on. If you do not have an ID in the SCHOOLDUE system, please contact your department secretary, resident director of William McDewitt in the Maintenance trades area.
3. Select the product we use from the drop down list below the sign on (Maintenance Direct)
4. Use the web interface to log your request.

We strongly recommend you "save to favorites", the account log-in screen on your internet browser so you don't forget the address and you will always know where/how to get in and make requests.

Please note that you can mark a request as an emergency, however we also ask you to contact the WestConnect Office at 837-9311 during regular hours or Campus Security at 837-9300 for emergency services.

Report a Lost Key/Card

Lost keys and/or cards should be reported immediately to the WESTCONNECT Card Office during normal business hours. After-hours, lost keys and cards may be reported to the University Police Department.

Lost keys may result in an area being re-keyed. Costs for re-keying an area may be charged back to the department.

Residence Hall Access

The university's residence halls are secured at all times. All residents' cards are programmed for access to their assigned buildings. A WESTCONNECT Card must be presented in order to enter the building; at no time should anyone hold open a door to allow another person to enter the building without using a card. If you are visiting someone in the residence hall, please use the courtesy phone by the main entrance to call the person whom you are visiting.

Access to individual residence rooms is managed by the Residence Life staff.

Lost cards should be reported immediately to the Resident Director so that the card access may be deactivated. Temporary cards are available from the Resident Directors until a replacement card may be obtained at the WESTCONNECT Card Office during the next business day.

Contractor Access

All authorizations for contractors must be coordinated through the university's Planning and Engineering office (203-837-8679). Contractors will not be issued keys or access cards directly, but rather may obtain the required access medium upon check-in at the University Police Department. It is required that contractors check-in and check-out with the University Police Department each day they are working on the campus.

It is mandatory that the company provide a contact name and telephone number for the primary person responsible for the use of the keys, i.e. that all keys/cards are used properly and returned to the University Police Department. All cards and keys must be returned to the University Police Department daily. All subcontractor information must be submitted as well. Subcontractors are subject to the same access procedures as the general contractor.

The university's *receipt and responsibility* statement is applicable to contractor personnel. An issued key must remain in the possession of the person authorized to sign for them at all times, until returned to the University Police Department. Contractors should be instructed to bring a valid form of photo identification and proof of employment to the University Police Department when signing out keys.

PIN Code

All university community members must choose a 4-digit PIN to be utilized with their card for door security purposes. In order to establish a PIN, please visit the WESTCONNECT Card Office.

CCTV

Closed Circuit Television is in use in various public areas on both campuses. Areas include the parking garages, lobbies of residence halls, 24-hour computer labs, and exteriors of buildings. All cameras are recording and may be monitored. Retrieval of video may be conducted by the University Police Department as it related to criminal investigation.

Access Request Form

Form can be found at: www.wcsu.edu/westconnect

Card Access Instructions

The WESTCONNECT card provides access to certain areas, simply by presenting your card to a reader, there is no need to “swipe” the card. The read range for the card is approximately 4 inches, cards can typically be read through wallets, backpacks, etc.

With the amount of money invested in technology classrooms, it is critical that each instructor secure the door before the next class begins. Each instructor must have their own WESTCONNECT card.

Exterior Doors To Buildings:

The exterior doors to all academic buildings will be on a time schedule, and will remain unlocked during normal business/class hours. Any after-hour access will now be available through the use of the identification card. When the doors are locked, simply present your card to the reader and enter your 4-digit PIN, you will hear a beep. Open the door and enter the building, the door will automatically lock behind you. If you hold the door open longer than 30 seconds, an alarm will sound.

Interior Technology Classrooms:

Interior technology classrooms currently have flat, black card readers with an indicator light in the upper, left-hand corner. The readers are mounted to either the right or left of the outside of the door. The card reader must be used when you enter or secure the classroom.

To enter a classroom, present your card to the reader. The door should remain closed, however it will remain unlocked to allow people to enter/exit freely.

When leaving the room, you must close all doors and present your card to the reader again. The reader will beep and you will see the light change from green to red. The light will stay red, this means the door is secure and ready for use by the next instructor.

Multi-Station Technology Classrooms:

To enter the classroom, present your card to the reader and *immediately* enter your 4-digit PIN. (Helpful hint: Hold your card in one hand and enter your PIN with the other.) You must *open the door immediately* after entering your PIN. The alarm will be deactivated and the door will remain unlocked.

To secure the classroom, make sure all doors are closed. Present your card to the reader and *immediately* enter your 4-digit PIN. The door will re-lock and the alarm will be re-set.

What To Do If Your Card Is Rejected:

First, confirm that you have access to the room, 837-9311. If you know you have access to the room, but the door did not unlock/lock as expected, wait 15 seconds and then try again. If you attempt to use your card in quick succession, *you will always be denied* access, the system needs time to re-set before accepting a new entry.

What To Do If An Alarm Sounds:

If an alarm sounds, present your card to the reader to silence the local alarm. The police are notified immediately upon an alarm activation. Please stay in the area, an officer will respond.

If you have any questions please contact the WESTCONNECT Office at 837-9311.

Duplication Guidelines--for black and white printing

Assuming you have black and white printed material in finished, reproducible form (i.e., clear black type and clean artwork), and simply need additional copies, complete a Printing Requisition (pink for Midtown campus; yellow for Westside). These forms are available from your dept. chair or you may pick them up in University Publications and Design (UPC) in Old Main 202.

Faculty must fill out their own printing requisitions and submit them, along with materials to be duplicated to UPD, Old Main 202. *Please, do not send your work to the Print Shop.* Turnaround time for duplication is usually three working days. Allow five or more days for oversized jobs. Westside campus should allow more time for mail delivery. As a rule, all jobs are printed double-sided unless otherwise indicated on the requisition sheet.

Large quantity jobs: We are frequently asked to reprint large quantities of classroom material. In some cases, these reprints are used in lieu of, or in addition to, textbooks. Publications of this type may be handled in-house; however, the cost of printing oversized jobs will be charged back on a case by case basis to the respective departments.

If it is determined that your job falls into this category, you will receive a call or e-mail from the director indicating specific chargeback costs and details on how to make budget transfers. You will need to ensure that funds are available to make payment prior to the job being printed and delivered.

As an alternative means of handling large jobs, faculty may leave a copy of the required material on reserve in the library and request that students be individually responsible for photocopying work.

Duplication Guidelines--for color copies

We are able to produce color copies, however these will be charged back to your department at a rate TBD based on the project scope. Please discuss with the director (x78293 or davisj@wcsu.edu) for specific chargeback costs and details about how to make budget transfers.

Printing options include standard and double-side copying; also booklets, heavy-and standard-weight stocks, with odd sizes up to 12 x 18 inches are available.

Emergency Weather Closing Procedures

Closings & Delays

Using information regarding conditions of local roads, campus walkways and grounds, the Vice President for Finance & Administration and the Provost/Vice President for Academic Affairs consult on the possibility of a modified University schedule that may affect classes and other university activities and functions. The modified schedule may include delayed opening, early closing, or full closing of the University.

The Vice President of Finance & Administration informs the police of the decision, and they in turn, notify the various radio and television stations and the University shuttle bus company. The decision is posted on WCSU's web site. Individuals may also call 203-837-9377 for a recorded announcement of the decision to close or delay.

The opening of offices and buildings will coincide with the beginning of classes. For example, if classes are delayed until 10 a.m., the offices and buildings will also open at 10 a.m., at which time all employees are expected to report for work. If day classes are cancelled, the administrative offices will be closed for that day also. Designated police and maintenance personnel are required to report for work as usual.

Parking Restrictions

On the Middtown Campus there is no overnight parking (11:00 p.m. to 6:00 a.m.) in any of the surface lots (Faculty/Staff Lot off Fifth Avenue, White Hall Lot, University Hall Lot, and Newbury Lot). There is no overnight parking on the roof level of either Middtown garage. On the Westside Campus there is no parking on University Boulevard or on the roof of the Westside garage.

Closing/Delay information will be called into the following websites and radio/television stations:

Inventory/Property Policies and Procedures

The care and safeguarding of all Western Connecticut State University property is the responsibility of every member of the University. The following policies are mandated by the State and administered by WCSU's Property Management Office.

Inventory that is tagged with a bar-coded inventory label is maintained on The University's inventory system. Departments are responsible for the property that is assigned to that department. Departments are required to report any changes of location in property in their department, including artwork. It is recommended that a department liaison be established to provide a point of contact for the Property Management Office.

A full physical inventory of the University will be performed at least once per year. The results of the inventory will be reconciled at the department level and reported to the offices of the President and Vice President, State Comptroller and the Auditors of Public Accounts.

Disposal Of Surplus Property, Obsolete/Nonfunctional Equipment

The disposal of surplus property must be authorized by the property control office and be properly recorded in the inventory system.

The Property Management Office will arrange all disposal options for equipment that is no longer of use to departments.

Please submit and request in writing or via e-mail to the Property Management Office indicating barcode number and description of the item to be removed from your department and **Reason for removal**. The department head will be issued a *Request for Disposition Form* to be signed and returned to the Property Management Office before property can be removed from the department.

Used office furniture and some other surplus items may be requested through the Property Management Office.

Theft, Vandalism Or Damage Of Property/Funds

The Department Head, loan holder or department property liaison shall report all lost or damaged property **immediately** to the University Police and Property Management.

Relocation Of Property/Equipment

The relocation or transfer of property must be reported to the Property Management Office via interdepartmental mail or e-mail. This must include barcode number and description of the item. If no barcode is found a serial number must be recorded.

To a different building/room--list the new building/room location. To a different department--list new department, building and room.

RELOCATION, TRADE-INS AND RETURNS OF PROPERTY/Equipment Under Warranty Etc.

The relocation or transfer of property **must** be reported to the Property Management Office via interdepartmental mail or e-mail. This must include barcode number and description of the item. If no barcode is found a serial number must be recorded.

To a different building/room--list the new building/room location. To a different department--list new department, building and room.

When property is traded in, returned or replaced by a vendor, **both** the purchasing department and Property Management Office must be notified. Included in the notification must be barcode, description and purchase order number.

Report changes immediately so property records can be updated to meet

State Requirements

Equipment On Loan Policy

Equipment owned by the State may be removed from its assigned location only with prior written permission from the appropriate agency head. State equipment is not intended to be used for personal reasons. Loan permission is to be granted only in order to conduct State business.

The equipment may be loaned if the agency head is convinced that the removal of such equipment will not:

1. Interfere with the normal operation of the agency
2. Cause unreasonable wear and tear on the equipment
3. Cause expense to be incurred by the agency
4. Provide for profit-making activities

It is necessary to have control over equipment that leaves State premises. An individual who has been authorized to use State equipment on loan must sign the "*Record of Equipment on Loan Form*"--WCSU-EOL-1. The individual will be responsible for theft or other cause and/or any damage to the equipment. They will provide due care and security for the equipment until it is returned to the agency. In the event of a theft, it must be reported immediately to The Police Department and Property Management Office. It will be necessary to provide a Police report to Property Management Office.

The *WCSU EOL-1* form must be completed in triplicate. One copy is retained by the department loaning the equipment, one copy is to be sent

to the Property Management Office and the final copy should be given to the individual authorized to use the equipment.

Equipment on Loan forms must be renewed no more than one year from date of issue or the equipment must be returned to the loaning department. It is WCSU policy that all laptops issued to faculty and staff have an Equipment on Loan form issued for it.

Property management along with the issuing department should maintain a log book to hold the forms. If the equipment has not been returned/renewed by the expected date indicated, procedures shall include making direct contact by letter or phone on a weekly basis with the individual until the equipment is returned. Equipment should not be loaned for extended periods of time and all equipment should be returned to the agency during the annual physical inventory.

For questions, please contact Kevin Koschel, Property Manager at 7-3933.

Faculty Copier Policy

Purpose:

The WESTCONNECT Card will allow faculty members to produce copies on designated machines throughout both campuses. All faculty receive a copy plan on their WESTCONNECT Card. A list of machines is available on the university's website, www.wcsu.edu/westconnect/cardservices.asp#Faculty_Copy_Plans.

How To:

All faculty members are required to obtain a WESTCONNECT Card in order to use the copy card system, this can be done at the WESTCONNECT Card Office located in Old Main, lower-level, facing the Student Center.

In order to request copy card credit, not to exceed 1,000 copies at a time, a faculty member must send a written request to the WESTCONNECT Card Office staff. This request may be handled via e-mail to RequestWestconnect@wcsu.edu. Please include the following mandatory information; your name, department, active semester and number of copies requested.

Problems with a copy machine, and requests for repair, may be reported through the Purchasing Office at 837-8657.

Terms And Conditions:

The use of the copy credit is solely for academic purposes related to employment at WCSU. The WESTCONNECT Card is intended for use by the individual to whom it was issued, and must not be transferred to another. Any lost or stolen cards must be reported immediately either in person at the Card Office (during business hours) or via telephone (837-9311).

Each semester active full-faculty members are given a 6,000 copy credit on their card, active part-time faculty are given a 1,000 copy credit on their card. There is no cash value given in association with copy card credits, therefore the value cannot be transferred for the purposes of purchasing other services.

Copier Instructions

1. Swipe your WESTCONNECT Card. Make sure the magnetic stripe is facing the correct way as indicated on the reader.
2. The card reader will display a count of 1,000 and begin to count down from 1,000. This amount simply indicates a block of 1,000 copies is activated. If you have more than 1,000 copies on your copy plan you may copy more than 1,000 copies; however, you will be required to swipe your card again.
3. You will now see the green light on the "start" button of the copier. At this point you may begin to use the copier controls as necessary, i.e. choose size of paper, number of copies, etc.
4. When you are finished copying you may hit the button labeled "Quit/Enter" in the lower, right-hand corner of the keypad. If you forget to hit this button, the card reader will "time-out", or cancel automatically, after 60 seconds.

If you have any problems, please contact the WESTCONNECT Office at 837-9311 or via-email at RequestWestconnect@wcsu.edu

Rev. 8/11

Expense and Refreshment Policy

State funds may be used to provide payment or reimbursement for reasonable and necessary expenses incurred in transacting University business. State funds refer to all operating and self supporting funds administered by Western Connecticut State University.

This policy provides guidelines concerning when meals and refreshments may be paid for with State funds. Applicability of this policy is limited to non-travel business meals and refreshments. Non-travel business would include meetings, training sessions, conferences, or other University-sponsored events to conduct official University business. Travel-related meals and refreshments are covered under the University's Travel Policy.

Meals are defined to include food and non-alcoholic beverages provided at breakfast, lunch, or dinner to attendees of University-sponsored functions. Refreshments are defined to include beverages such as coffee, tea, bottled water, juice, and soda, and food items such as pastries, fruit, chips, cookies, and cake.

In all cases, the purchase must serve the purposes and needs of the University. Prudent judgment for incurring meal and refreshment expenses is essential. Resources are limited, and business meals and refreshments are subject to close public examination and audit. Business meals and refreshments must be fully necessary, reasonable, and supportable in all instances.

Allowable Meals And Refreshment Expenses

1. *Meal expenses* for University employees generally are a personal responsibility. However, payment or reimbursement for meals of employees may be allowed when:

- a. The meal charge is part of a conference or workshop expense;
- b. A search committee, or search committee representative, hosts a candidate for a position;
- c. An employee hosts a visiting lecturer, potential donor, or other guest on official University business; or
- d. It is necessary to hold a meeting to carry out official University business which extends through breakfast, lunch, or dinner and the primary purpose of the meeting is not the meal. In this circumstance, the meal expense requires **prior** written approval by the appropriate Vice President or the President.

2. *Refreshments* may be provided during official University business meetings involving a combination of University employees and external individuals, such as a meeting with industry representatives, an external task force or advisory group, or volunteers.

3. *Refreshments* may be provided for staff retreats held for the purpose of the University's work-related planning. A *meal* also may be provided for day-long staff retreats with prior written approval of the appropriate Vice President or the President.

4. Refreshments may be provided at events hosted by the President, Vice Presidents, Associate Vice Presidents, Chief Officers, or Dean's recognizing work related achievements or milestones by employees, including retirement after significant service years or significant service to WCSU.

5. University-wide events may be hosted by the President or others with prior written approval of the President for purposes such as opening semester University meetings, annual Campus Pride event, holiday party, etc.

6. The purchase of coffee and accompanying condiments (ie: sugar, creamer, etc.) is permissible for Dean's offices and above.

7. Sodexo Food Service Operations: Sodexo retains exclusive catering rights and has the right of first refusal to provide catering of refreshments or prepared foods for Campus events. If catering services are required, please contact Sodexo's catering personnel at 7-8755. For catering services to be provided, a fully approved food service form needs to be submitted to the Administrative Services' department two weeks in advance.

Non-Allowable Meals And Refreshment Expenses

1. Refreshments or meals generally may not be provided in conjunction with ordinary, recurring staff meetings or other regularly scheduled business meeting of employees. However, occasionally, certain circumstances may exist that warrant refreshments at a staff meeting. The provision of refreshments at a staff meeting under special circumstances is permissible provided prior written approval is given by the appropriate Vice President or the President.

2. Ad-hoc committee meetings and informal meetings consisting solely of university employees should not include breakfast, lunch, dinner, or coffee/beverage service expenses (except events paid by special allocated collective bargaining Faculty Development Funds or grant-supported expenses with pre-approval through the grant budget.)

When meals or refreshments are provided for a University meeting or event, the following information must be provided with the payment or reimbursement request in a timely manner:

- Explanation of the University's bona fide business purpose;
- List of attendees and their status (faculty, staff, candidate, visitors, etc.; large groups may be described categorically);
- Date and location of event;

- Itemized invoice or receipt, including unit costs, from the vendor who provided the meals and/or refreshments;
- Evidence of prior written approval, when required;
- Funding source (Banner organization number); and
- Signature of authorized signatory for the Banner organization.

In addition, when the individual who is the authorized signatory for the funding Banner organization participates in the meeting or event, his/her supervisor must also sign the reimbursement request before payment or reimbursement may be made.

Other Non-Allowable Expenses

Certain types of expenses generally are not considered reasonable and necessary for the University, and therefore, generally may not be paid or reimbursed with State funds. Non-allowable expenses include payments or reimbursements for:

1. Alcoholic beverages;
2. Gifts purchased for University employees, relatives, or outside individuals in recognition of personal life events such as birthdays, births, or deaths (e.g. flowers, gift boxes, purchased cakes);
3. Donations or gifts of any kind to individuals, including outside organizations and individuals and University faculty, staff, and students unless deemed to be a promotional initiative for the University and approved by the division Vice President;

9. Reimbursement for sales tax incurred when personal funds are used to purchase goods or services for the University.

Exceptions Under certain circumstances, it may be in the best interest of the University to invoke an exception to this policy, and exceptions may be granted by the President or Vice President for Finance and Administration. Review the guidelines below before calling or stopping by, as it will assist in preparing you for any questions we may ask you. You can check the website at www.wcsu.edu and click on "News and Event Calendars" in the lower right hand corner of Western's homepage. Then, click on "Reservations and Campus Programs" under WestConn Calendars for a listing of daily campus events. This page is updated daily and is a great way to know what's going on here at Western Connecticut State University.

I. Starting The Process

To expedite the process, the following information is needed when booking your event:

- H. Whether handicapped individuals need access to your event.

II. Planning Timetable

A simple meeting may take but a few minutes to arrange for, however, larger events can take considerable time. Food orders, personnel scheduling, and arranging for equipment are just some of the items that need to be done in advance in order to have your event occur. As we are committed to providing you the highest quality service, we ask that you adhere to the timetables that are established for your program. In general, these timetables are set up based on the following guidelines.

- A. To make a reservation, we must know the exact nature and scope of your program (i.e., lecture, concert, meeting, conference) and the number of people you expect. We will HOLD an available date on your behalf for 4-6 weeks prior to the event date depending on the venue.
- B. You will be sent a Room Reservation Form to be completed and returned to the University Events Office. Once the form has the appropriate approvals/signatures your event will be CONFIRMED. A copy of the approved Room Reservation Form will be sent to you with a confirmation. Your event is not confirmed until you receive it back from our office.
- C. Requests for simple meetings, by campus organizations, that do not require any extensive set up must be made at least 2 weeks in advance of the meeting.
- D. All food services for groups of 25 or more must be provided by the University dining service. You must place your food order at least 2 weeks in advance so we can coordinate deliveries.

We realize that last minute needs arise, and we will do everything we can to try to meet them for you. However, because of equipment and personnel availability, we cannot guarantee we will be able to do so. Please assist us by planning well in advance and adhering to these deadlines. With your help, we will be better able to meet your needs and have your event be the best it can be.

III. Priorities For Facility Reservations

As the University's first commitment is to the education of our students, we must make activities that are part of that mission our first priority. Off campus groups and governmental agencies are invited to use facilities once those needs are met. Consequently, we schedule using the following priorities:

Guidelines¹ for Public Forums and Demonstrations²

Preamble

Western Connecticut State University is committed to providing an educational community that disseminates knowledge by means of teaching, research, and service. To fulfill these functions, a free exchange of ideas is encouraged both within its walls and between the University and the outside world. Western is committed to doing everything possible to insure the greatest degree of intellectual freedom. These rights apply to all members of the Western community. Few institutions in our society have this same vital purpose; accordingly, few assign such high priority to the freedom of expression.

Western Connecticut State University is committed to maintaining an environment where the free expression of ideas and open, vigorous debate and speech can occur. Every member of the campus community has an obligation to promote and respect free expression in the university. No member shall prevent such expression.

As a member of this academic community your rights as a citizen are neither increased nor lessened by your status as a member of the University community. However, you do have added responsibilities. These added responsibilities include the exercise of civility and honesty and a respect for the dignity, diversity, equality and freedom of others.

The University also has the equal and simultaneous obligation to protect the rights and freedoms of protestors and also the rights of those who choose not to participate in a given protest or demonstration. The University has an obligation to protect its property and to assure continuation of the activities of students, faculty, staff and guests on campus.

The following guidelines are in accordance with the CSU Board of Trustees' Policy Resolution on Campus Freedom and Order, dated August 7, 1970.

Guidelines For Public Forums And Events

The guidelines, which apply to all public forums and events at Western Connecticut State University, are intended to protect the right of free expression and the safety and integrity of the forum in which this right is exercised.

Right To Dissent

The right to dissent is the complement of the right to speak, but a speaker is entitled to communicate a message to the audience during an allotted time, and the audience is entitled to hear the message and see the speaker during that time.

Force Or Violence

Using force or violence or threatening imminent physical force or violence is prohibited.

The Audience's Responsibility

The audience, like the host and the speaker, must respect the right to dissent.

Guidelines For Demonstrations

A broad range of speech will be tolerated at Western Connecticut State University, subject to consideration of the health, welfare, and safety of all students, faculty, staff and guests and the functioning of the University.

Demonstrations may be held anywhere on campus so long as they do not unreasonably disrupt the normal operation of the University or infringe on the rights of other members of the University community.

Demonstrators shall not physically interfere with the operation of the University or the rights of others. Such actions include, but are not limited to:

- Physically obstructing or disrupting teaching, research, or administration
- Interfering with the safe operation of the residence halls
- Causing or threatening to cause, injury or harm to persons or property
- Obstructing vehicular, pedestrian or other traffic lanes
- Obstructing entrances or exits to buildings
- Interfering with educational, residential, theatrical performance, or co-curricular activities inside or outside any building
- Precluding a scheduled speaker from being heard
- Damaging property, including lawns, shrubs or trees
- Failing to comply with reasonable orders or directives of University officials, police, or any other law enforcement officers acting within the scope of their duties.

The University may place reasonable restraints on demonstrations with regard to time, place, and manner to protect property and person and to maintain the orderly conduct of the University.

To secure assistance in planning and obtaining university facilities to ensure that other activities are not adversely affected, and to protect the rights of all members of the University community, sponsors of demonstrations or marches are encouraged to meet with the Vice President of Student Affairs and/or the Director of Student Center/Student Life, together with the Director of the University Police Department, or designee, to discuss the details of the demonstration and/or march. During this meeting The Vice President for Student Affairs or designee shall discuss with the organizers of the demonstration or protest the parameters of the demonstration. This will include issues of time, place, manner, including sound amplification, and arrangements for proper security to insure the rights of all members of the university community.

Senate Approved R-02-03-04

(1) These guidelines shall apply to all members and guests of the University community and to all events taking place on property owned or under the control of Western Connecticut State University.

(2) Demonstrations shall also include marches and protests.

Proposal/Grant Applications Procedures

The Office of Sponsored Research Administrative Services provides pre-award through post-award administrative management for all sponsored projects at Western Connecticut State University (WCSU). The office assists in identifying funding sources, preparing and submitting proposals, and managing post-award activities and requirements. The director also serves as a liaison with funding agencies.

All grant applications and proposals for funding with WCSU as the lead organizational applicant or as a partner in another organization's application must be processed through this office for initial pre-approval and final authorization for submission. For grant applications that require the applicant to be a 501(c)(3) organization, the development and submission of the proposal must be coordinated with the Western Connecticut State University Foundation. The director will assist you in this process.

The Proposal Process

To initiate the proposal review/approval process, use the *Intent to Apply* form to obtain preliminary approval from your department chair, dean, the VP of Finance & Administration, and the Provost & VP of Academic Affairs. If your proposal involves the hiring of personnel or staff, you also will need the approval of the Associate VP for Human Resources. The form is available online at: http://www.wcsu.edu/grants/Intent_to_Apply.pdf. Please complete and submit the *Intent to Apply* form at least 30 days prior to the proposal submission deadline.

If your project involves research with human subjects or with vertebrate animals, you will need to get the approval of WCSU's Institutional Review Board (IRB) or the Institutional Animal Care and Use Committee (IACUC). The IRB form and instructions are available online at: <http://www.wcsu.edu/irb/>. The IACUC form is available online at: <http://www.wcsu.edu/facultystaff/handbook/forms/IACUC%20Protocol08152006.pdf>.

At least two weeks prior to the submission deadline, provide a copy of your complete grant application/proposal, along with a completed *Internal Administrative Approval Form* signed by your department chair, to the director of the Office of Sponsored Research Administrative Services to allow sufficient time for the internal review and approval process. The director will facilitate the timely review and approval of your proposal by the appropriate dean and officers. The *Internal Administrative Approval Form* is available online at: http://www.wcsu.edu/grants/Grant_Approval_Form2.pdf. This final step is very important since WCSU may refuse an award for an application or proposal submitted without administrative approvals.

Indirect Cost Distribution

Please check with the Director of Sponsored Research Administrative Services for WCSU's current negotiated indirect cost rate. Indirect reimbursements from grant awards are distributed as follows:

- Principal Investigator (PI) or Project Director receives 25% of indirect costs,
- PI's/Project Director's Department receives 10% of indirect costs,
- PI's/Project Director's School or Division receives 5% of indirect costs,
- Office of Sponsored Research Administrative Services receives 20% of indirect costs, and
- University's General Reserve receives 40% of indirect costs.

Guidelines and Policies for Computer Use

<http://www.wcsu.edu/technology/computerusepolicy.asp>

Information Technology & Innovation offers computing services on various computer systems at no charge to all members of the University community (i.e., faculty, students, and staff). The following delineates the current policies on software ownership, software copying, and gaining access to the computer facilities as well as a set of guidelines and responsibilities for the users of these resources.

The general principles underlying these policies and guidelines are that the computing facilities are a resource made available to the WCSU community for educational and research purposes. Users must assume responsibility for trying to minimize costs and be responsible in their use of these facilities.

The guidelines are not intended to be an exhaustive list of rules. Rather, these guidelines establish the spirit in which the facilities should be used.

WCSU Computer Policy

I. General Policies

A. Software Ownership

(This section represents policy adopted in February, 1985 along with January, 1987 revisions by the board of Governors for Higher Education.)

1. Software Conversion. It shall be the policy of the state system of higher education that the end product of any work done by a student from any of the state's public colleges or universities to convert, modify or update state-owned software shall be owned by the state.
2. Software Creation (state-owned). If a student from any college or university, receives monetary remuneration from the state for creating software, including source code and/or documentation, it shall belong to the state.
3. Software Creation (student-owned and state-licensed). Software belongs to the student but shall be licensed gratis to the state for use/or modification under the following conditions:
 - a. The state, at the inception of the project, informs the student in writing of the state's intention to use the software; and/or
 - b. The student uses state computer resources to create software.

The State shall not have any other rights to such software.

4. Software Creation (student-owned). Any software developed by a student, unless it is covered under policy statements 1, 2, or 3 above, or is produced under the provisions of a grant or an agreement with an outside funding agent, is owned by the student.

5. Software Copying. Each constituent unit in the state system of higher education shall have policies in place regarding the use and copying of software and/or documentation to protect against lawsuits by vendors.

B. Software Copying.

1. All software and manuals are copyright protected by the software vendor. Any user attempting to copy the software shall be subject to prosecution by the software vendor.
2. Any person who has been authorized to use the computing resources shall be expected to regard all copyrighted or proprietary information which may thereby become available to him/her as confidential, unless he/she obtains from the appropriate person written permission to copy, modify, or otherwise use any part of it. 3. Users shall not copy system files nor shall they attempt to access or modify such files or software components or computer management programs and data, except for specifically approved purposes.

II. General Guidelines

- A. The computer facilities are available for academic university work only. No commercial work is allowed.
- B. A user's programs and data should be treated as his/her private property. Users must not attempt to access or make use of any other user's programs or data without the permission of the user concerned.
- C. The granting of access to Western's computer systems presupposes that the user is knowledgeable in the use of the existing computer facilities. Users should realize that the Computer Center Staff is limited in the amount of time they can spend assisting them with extensive problems.
- D. Printer output represents very real, measurable costs to the Computer Center. Users should be careful to avoid wasting these resources.
- E. Responsibility for a computer account belongs to the person to whom the account was issued (the account owner). No account owner shall furnish any other person(s) with the password to their account. Unless otherwise authorized by the Executive Officer for Information Technology, only the person to whom an account was issued should be using the account.
- F. Any computer user who knowingly or continually violates the policies governing the use of accounts, equipment and resources will have his/her account withdrawn and such misuse may result in disciplinary and/or legal action.

III. Account Policies & Guidelines.

A. Policies.

1. For classification purposes, there shall be two types of accounts available to members of the WCSU community.

- a. Student Accounts.

Students must request accounts from the Computer Center. Requests must be made in person.

- b. A Faculty Account.

Faculty members must request accounts from the Computer Center. Requests must be submitted, in writing, to the Director of Information Technology or Technology Service Manager. Applications must be filed a week in advance. A written response will be forwarded to the applicant.

B. Guidelines.

1. Users have the right to expect that their work will remain secure and private. The Computer Center cannot readily determine if the use of an account by another individual is appropriate, so users should only use their own accounts. Account owners can assist in assuring privacy of their work by using a password that is not obviously a nickname or initials.
2. The Computer Center reserves the right to access users' data and programs for appropriate management purposes (e.g., making back up copies and to ensure system integrity).

IV. Microcomputer Policies & Guidelines

(see also General Policies and Guidelines)

A. Policies

1. Any person that has been issued a valid WCSU identification card is authorized to use the WCSU computer facilities.

CSU Computer Policy

Connecticut State University System

Policy Statement on Student Use of University Computer Systems and Networks

1. University computer systems and networks are provided for student use as a part of the University academic program. Students are encouraged to become proficient in the use of computers as a means of enhancing their educational experience. However, widespread student use also necessitates certain rules of computer conduct. Computer misconduct can result in restrictions on or revocation of computer access privileges.
2. University computer systems and networks constitute an expensive and valuable resource. The capacity of this resource to fulfill all the legitimate academic and administrative needs of students, faculty, and staff is limited.
3. Student users have a responsibility to use University computer resources in an efficient, ethical, and lawful manner.
4. The University has a right and a duty to protect its valuable computer resources and to restrict student access to uses that are strictly related to the students' university related programs as well as reasonably limited in time. The University reserves the right to define what are unauthorized student uses.
5. The Chief Computer Administrator or designee(s) at each University in the CSU System and at the System Office may monitor student user accounts, files and/or log-in sessions for appropriate management purposes. Such purposes include but are not limited to performing archival and recovery procedures, evaluating system performance, and ensuring system integrity and security.
6. Upon identifying a violation of the policy which constitutes an immediate, clear danger to the University computer systems or networks the Chief Computer Administrator or designee(s) at each University and in the System Office may immediately limit or suspend a student's access to University computer resources with immediate notification of charges and actions to the appropriate Chief Student Affairs Administrator or designee(s). This emergency suspension of computer use will then follow the student judicial procedures for "Interim Suspension" as provided in the CSU Student Rights and Responsibilities and Judicial Procedures document.
7. Violations of University computer policy which do not constitute an immediate, clear danger to the University computer systems or networks will be referred to the regular student disciplinary process.
8. Student computer offenses, which are included as number 25 in the Appendix of Punishable Offenses in the CSU Student Rights and Responsibilities and Judicial Procedures document are as follows:
 - a. Unauthorized use of University computers and/or peripheral systems and networks;
 - b. Unauthorized access to University computer programs or files;
 - c. Unauthorized alteration or duplication of University computer programs or files;
 - d. Any deliberate action to disrupt the operation of University computer systems which serve other members of the University community, including all networks to which University computers are connected;
 - e. Use of University computer systems and networks for committing crimes, violating civil laws, or violating University rules
9. UNAUTHORIZED USES for students include but are not limited to the following:
 - a. Computer games which are not assigned course work;
 - b. Development or transmitting of chain letters;
 - c. Entering or transmitting of commercial advertisements or solicitations;
 - d. Entering or transmitting of political campaign material relating to elections to be held outside the University;
 - e. Entering or transmitting of obscene material;
 - f. Sexual harassment or other forms of harassment aimed at others or otherwise threatening others;
 - g. Sharing one's own computer account with others or using another person's accounts;
 - h. Violation of copyright laws or using or copying software in ways that violate the terms of the license;
 - i. Entering or transmitting computer viruses or any form of intentionally destructive programs;
 - j. Intentional disruption of network services;
 - k. Connecting any device to the network without permission;
 - l. Copying, modifying, replacing, or deleting any other user's account or any software used for system management;
 - m. Harming University computer equipment;
 - n. Uses which violate rules developed at each University which are necessitated by facilities limitations or other circumstances unique to each University.

CSU ELECTRONIC MONITORING POLICY

http://www.wcsu.edu/hr/policies-procedures/Electronic_Monitoring_Notice_0300.pdf

The Connecticut State University System deems it necessary and advisable and in the best interest of the university communities of Eastern, Central, Southern and Western Connecticut State Universities and the System Office, to again raise awareness and re-emphasize legal considerations concerning information technology devices in use throughout the system.

There are several information technology devices in use in the CSU System. These devices are the property of the State of Connecticut and use thereof by the user is restricted to the performance of official State business or activities approved through the collective bargaining process. Information related to usage and utilization of these devices and the overall CSU technological environment is constantly being collected.

The Connecticut State University System information technology infrastructure includes a telephone system, a communications network, Internet access, computer servers and computer workstations. Information related to the usage of this infrastructure is collected and logged. All users of these devices are hereby advised and notified that these devices produce data and reports related to information stored, sent and retrieved for the purposes of recording usage and utilization. While system personnel do not review the contents of this material except when necessary in the course of the discharge of official duties and as permitted by law, each user should know and is hereby notified that all such information is subject to subpoena, discovery, the Connecticut Freedom of Information Act and such other disclosure processes as may be

authorized by law.

This notice is issued pursuant to the provisions of Public Act 98-142.

Request for A Faculty Computer Account

All University accounts (Windows, Banner, etc.) and access to university managed computer systems and administrative applications may be obtained by contacting Information Technology & Innovation at 203-837-8467 or by sending an e-mail RequestIT@wcsu.edu.

Software and Hardware Request Form

Requests for software and hardware are typically funded through the academic department, grant funds, and/or by request through the appropriate school technology committee to the Information Technology Committee (ITC).

Hardware and software purchases from departmental or grant funds must be reviewed by the Chief Information Officer and/or his/her designee. Information Technology & Innovation should be consulted for hardware and software purchases as well as special pricing that may be available to the university.

For information on how hardware and software requests to the ITC are processed, please consult the technology committee for the appropriate school. For the types of funding available, please consult the Information Technology Committee Bylaws found in this document.

Library Information and Procedures

Ruth A. Haas Library (Midtown) And Robert S. Young Library (Westside)**I. Faculty Use of the Library**

- A. A current Western Connecticut State University I.D. must be presented to check out circulating library materials.
- B. All circulating books may be borrowed for an entire semester. These items may be renewed by telephone, online, or at the circulation desk. Long-term use of circulating materials should be discussed with the Access Services Librarian at the Haas Library (203-837-9102), with the Circulation Desk Supervisor on duty at the Haas Library, or with the Business Librarian at the Young Library (203-837-9138).
- C. Videos, CDs and DVDs circulate for two weeks, with no renewals. Longer-term use of circulating media should be discussed with the Access Services Librarian at the Haas Library (203-837-9102), with the Circulation Desk Supervisor on duty, or with the Business Librarian at the Young Library (203-837-9138). There are no overdue fines charged for any WCSU Library circulating material. However, all items borrowed from the other CSU Libraries are subject to the home library's loan periods and overdue fines. In the event an item is lost, the home library will assess and collect replacement costs, and processing fees.
- D. Arrangements for faculty use of non-circulating material (such as periodicals, reference books, government documents, archives, special collections, etc.) should be discussed with the librarian responsible for those materials.
- E. Intra-Library Loan Requests facilitate borrowing library materials from the other CSU libraries. These are requested by using the "Request Book" feature in CONSULS. Faculty use their Windows account authentication to complete the request. Books are held at the circulation desk for pick up for seven days.
- F. Faculty may make arrangements in advance for access to the libraries during non-scheduled periods by calling the Access Services Librarian (203-837-9102) at the Haas Library or the Business Librarian (203-837-9138) at the Young Library.
- G. A "Faculty Resource Center" in the Robert S. Young Library (WS 435a) has a collection of curriculum building materials and classroom-use videos. Material in this Center is available for loan to WCSU faculty.

II. Reserved Materials For Course Use

A. Materials to be put on reserve must be listed on "Reserve Request" forms that are available on the Library's homepage and also at the Circulation desks at both libraries. The electronic reserves (ERes) service allows faculty to place resources on the Library's ERes website, including a class syllabus and assignments, PowerPoint presentations, Excel spreadsheets, journal articles, audio and video files, graphic files, and links to other web pages. Additional information on ERes is available from the Access Services Librarian.

Please indicate the category of in-house reserve materials:

1. Closed Reserve (to be used in the library)
2. Overnight Reserve (to be used in the library or to be signed out one hour before the library closes and returned within one hour after the library opens the following day)
3. 3-Day Reserve (to be checked out for a 3-day period)
4. 7-Day Reserve (to be checked out for a 7-day period)

- B. Faculty should place all materials on reserve, both in-house and ERes, at least two weeks before the items are needed to allow staff the time needed to process the materials. Whenever possible, reserve requests should be submitted well in advance of the beginning of the semester.
- C. Materials will remain on reserve for one semester only, unless other arrangements are made.
- D. Arrangements to place periodicals, reference titles and government documents on reserve should be discussed with the librarian responsible for those materials. Faculty may copy journal articles and place them on reserve, or link to full-text articles available electronically through ERes. Due to copyright restrictions, however, only one photocopy of a journal article or book chapter will be placed on reserve without permission of the copyright owner. (See "Western Connecticut State University Policy on the use of Copyrighted Material".)
- E. Personal copies of an item may be placed on reserve at the owner's risk, and must be retrieved at the end of each semester.
- F. The libraries are not responsible for faculty-owned items placed in the Reserve Collection. All materials placed on reserve should be brought to the Circulation/Reserve area two weeks prior to the beginning of the semester. Electronic reserves (ERes) are also available for print, audio, and video materials. The Access Services Librarian (203-837-9102) at Haas Library and the Library Technician (203-837-9136) at Young Library can set up ERes accounts.
- G. Faculty are asked to inform their students of procedures to obtain reserve items. Students must be currently enrolled to use reserve items and must present their WCSU I.D. card at the Haas or RSYL Circulation desk to check out the items. Both Library owned materials and Faculty owned materials are listed on CONSULS (the Connecticut State University Library System) by instructor and course.

III. Liaison Program

The faculty of each department are assigned a librarian who acts as their liaison to facilitate the ordering of resources, provide library services; and generally to establish an ongoing partnership with teaching faculty and enhance faculty-library communication. A current list of liaisons is available on the library's website.

IV. Requesting Materials To Be Added To The Library's Collection

Requests for printed books, e-books, and other library materials should be submitted to the library liaison assigned to each academic department. In order to facilitate processing, faculty should check the library's holdings on CONSULS, the shared library catalog. To expedite ordering, as much information as possible should be given e.g., the author's full name, complete title, publisher, date of publication and price (if known.) Requests may be sent by campus mail or e-mail. If using the library's book request form, the faculty member's signature under the heading "Recommended by" will help resolve questions that arise about the requested material. In addition, if requests are assigned a priority, they will be ordered in that order since available funds do not always cover all requests.

V. Interlibrary Loan (ILL) And The ILLiad System

Items found in the CONSULS online catalog, but located at another CSU library or the state library, may be requested directly online from the owning library. If a needed item is not found with the CSU library system, our auxiliary service (*ILLiad) should be used.

ILLiad is the library's online interlibrary loan service. First time users may register for ILLiad from the library web page. Once established, an ILLiad account is used to place orders for all articles, and books that are not available in the CSU system. A link to ILLiad is available from within most of the library's online databases by clicking on "Request interlibrary loan" under availability options.

The average time it takes to receive a book requested through ILLiad is 7-10 days. Articles requested and received over the internet will usually arrive in just a few days and can be delivered electronically to the requester's ILLiad account. A notification of arrival is sent by email to the requester which contains a link to his/her ILLiad account and the article itself.

Most requests can be filled free of charge. For material that is more difficult to find, commercial document delivery sources may have to be consulted. Commercial document delivery requests require additional time to fill and may incur expenses.

Other information about ILL is available from the Library's homepage or at the Reference and Circulation desks at both the Haas and Young Libraries.

VI. DIGITAL REPOSITORY

The library hosts a digital repository, WestCollections, which showcases the intellectual output of the university community at <http://repository.wcsu.edu>. Faculty may submit scholarly work such as journal articles, working papers, book reviews, books and/or book chapters, conference or other professional/academic presentations, technical papers, educational materials, images, and video/audio files. Students may submit dissertations and theses, capstone projects, and other faculty approved research. Further information may be obtained about WestCollections from the Public Services Librarian (203-837-9141).

Vii. Reference & Electronic Database Search Services

The reference collections in both the Haas and Young Libraries consist of items selected to support the University's curriculum and to answer specific informational questions. Some reference materials are available in print format and are housed and used in the libraries reference collections; other reference materials may be accessed online from the Library's catalog. Reference librarians assist users in finding information and they provide instruction in the use of library resources. Access to over one hundred electronic databases and the Internet is also available from the Library's homepage. Wireless access is available throughout the libraries.

VIII. Library Instruction

The library faculty welcomes requests for class instruction designed to help students understand how to research specific topics through the use of Library resources and materials. Presentations utilize a variety of print and electronic sources of information. Each class is tailored to the specific needs of the faculty member's assignment. Sessions are conducted by the department's library liaison and may be held in the faculty member's classroom or in one of the libraries' classrooms. Hands-on practice in a computer-equipped laboratory setting is available upon request. Scheduling is on a first-come-first-served basis. The Library faculty asks that classroom faculty request library instruction at least two weeks in advance of the proposed date of instruction.

IX. Collections

Online databases, indexes and reference sources are available via any networked computer on campus or the internet. You gain access to restricted databases by entering your windows account information.

Collections serving Management, Marketing, Management Information Systems, Finance and Accounting are held in the Robert S. Young Business Library on the Westside campus. All other collections are housed in the Ruth Haas Library on the Midtown campus.

Circulating print volumes can be checked out for a period of 28 days. DVDs, VHS videos, and CDs circulate for 14 days; teaching kits can be checked out for 7 days. Reference materials such as encyclopedias are for use in the Library. Certain items, such as assessment tools and selected kits, have been placed on reserve in the Circulation Department. All circulating kits containing multiple loose parts are stored behind the Circulation Desk of Haas Library.

Western offers a variety of opportunities for the student-athlete to excel at the regional and national levels of competition. Different sporting events are scheduled throughout the academic calendar year to provide participation by interested parties. Opportunities are provided for BOTH male and female teams.

The men and women both belong to the National Collegiate Athletic Association (NCAA) Division III. The football program is a member of the Massachusetts State Collegiate Athletic Conference. The 13 other intercollegiate athletic programs are members of the Little East Conference. In addition, the men and women's programs hold membership in the Eastern College Athletic Conference (ECAC).

The university belongs to conferences and associations appropriate to the specific athletic activity program.

New Student Orientation

The university provides orientation for all incoming new students, from incoming freshmen to transfer and commuter students, including non-traditional students, international students, and veterans. Students entering Western in the fall attend a two-day orientation program in June where they have an opportunity to meet fellow students and faculty members, get their ID card, parking decal, computer accounts, as well as their class schedule. Several workshops for students and parents are provided at that time. Welcome Week in the beginning of the fall semester adds additional programs intended to help students get adjusted to life at Western and generally begins with the traditional Entering the Gates and Opening Ceremony. Students entering Western in the spring semester are invited to attend an orientation program generally held one afternoon before classes start.

Recreation, Intramurals, and Club Sports

Life's about balance - get out and get active! The Recreation Department here at Western is located in the Center for Student Involvement and is dedicated to providing the campus community with a multitude of various recreational activities to encourage physical fitness and promote a positive well-being. The Intramural and Club Sports programs provide opportunities for individuals who share a common interest in a recreational sport, to improve their skill level and overall knowledge of the sport or activity. Our university is unique in that the Western community can utilize athletic facilities on two different campuses. Review of Proposals and Approval of Programs in Connecticut Public Higher Education Connecticut Board of Regents for Higher Education

Context

The Connecticut General Assembly's PA #11-48, as amended by PA #11-61, reorganized the governance structure of public higher education in the state, and transferred the responsibility for academic program approval to the Board of Regents for Higher Education (BOR) 1. This document outlines the process and conditions to be adopted in conducting academic program approvals under the BOR beginning in 2012. The intent in adopting the new process is to maintain consistency with state regulations while at the same time embracing the operating principles spelled out in the section immediately below.

Operating principles

Nimbleness - streamlining and focusing approval process to ensure highest significance for every step

Responsiveness - paying closest attention to state needs and the needs of students

Effectiveness - advancing the distinctiveness and most productive use of resources of each institution, while at the same time exploring opportunities for collaboration and academic innovation

BOR review of the effectiveness and efficiency of the program approval process itself will be thorough and ongoing. A full evaluation will be conducted at the end of the first year, and modifications introduced accordingly. Institutions will begin using the proposed forms on January 1, 2012, with official action on the process by the BOR Academic and Student Affairs Committee in early January, and by the full BOR on January 19, 2012.

Programs Requiring BOR Action

Programs formerly requiring Board of Governors for Higher Education (BOGHE) approval need to be reviewed and approved by the BOR under one of the following categories:

- New programs are: a) A new degree program; b) a new major; or c) a new stand-alone certificate program that is Title IV eligible. No prior approval has existed for the program by either the BOR or the former BOGHE. Institutions shall seek approval of new programs either as Licensure or simultaneous Licensure and Accreditation: a) Licensure, normally granted for a period of three years, authorizing the enrollment of students and their advancement toward the completion of degree requirements; or b) Simultaneous Licensure and Accreditation, simultaneously authorizing the enrollment and award of credentials to students. The accreditation action is considered renewed with each regional accreditation of the institution. Simultaneous licensure and accreditation is generally sought for new degree and certificate programs that are closely related to a set of already existing programs and aligned with institutional strengths. A full description of the approval process of new programs is provided beginning on page 4 of this paper.
 - [2012 Committees Calendar](#)
 - [Concept Paper for New Academic Program](#)
 - [Application for New Program Approval](#)
 - [Application for New Program Approval Pro Forma I Budget - Resources and Expenditure Projections](#)
- Accreditation of a Licensed Program: Program accreditation authorizes the institution to award credentials in the program. Accreditation is considered renewed with each renewal of the regional accreditation of the institution offering the program. Program accreditation should be pursued in a timely fashion toward the expected date of first graduation. The process for Accreditation approval requires a report on any changes to the program since its licensure action, details on program enrollments, any financial considerations, and the addressing of any issues brought up at the time of the BOR/BOGHE licensed the program.
 - [Application for Accreditation of a Licensed Program](#)
 - [Accreditation of a Licensed Program - Resources and Cost Estimates](#)
- Program Modification: A program modification is the substantive change to a previously BOR/BOGHE-approved program. The following instances are processed as Program Modifications:
 - a. Creation of a new undergraduate certificate program of more than 30 semester credit hours of courses belonging to a previously approved baccalaureate major(s) at a four year institution, or an associate degree program(s) at a two year institution; a new baccalaureate minor of more than 18 semester credit hours; a new undergraduate option or certificate containing more than 15 semester credit hours of courses not falling within a previously approved program(s), or a new graduate option or certificate program including more than 12 semester credit hours of courses not falling within a previously approved program(s). Modifications below these thresholds may also require approval if required by existing state regulations for the licensed professions or work area of the program;
 - b. Significant modifications in courses or course substitutions of more than 15 credits in a previously approved undergraduate degree program or more than 12 credits within a previously approved graduate degree program;
 - c. The authorization for an approved program to be offered at an off-campus location or using an alternate modality (e.g., on ground to online); and
 - d. A change in the title of a degree or title of program.
 - [Application for Modification of Accredited Program](#)
 - [Accreditation of a Licensed Program - Resources and Cost Estimates](#)
- Application formats for the approval of program modifications will contain sections for background, rationale and nature of the modification, enrollment/degree awards estimates, and resource summary. Depending on the nature of the modification and the constituent unit to which the institution belongs, other additional details such as full course descriptions, course sequences, etc. may be required 2.
- Program Discontinuation: The discontinuation of an existing BOR/BOGHE-approved degree or certificate program must be authorized through BOR action. Program discontinuation consists of a phase out period during which any students in the program graduate and a termination step in which the program is taken off the official list of existing programs maintained by OFAAHE. Program discontinuation should: a) occur in the context of a related academic improvement, e.g., the merging of programs with declining enrollment/completions into a new program that effectively addresses relevant state needs and students' interests; b) emerge as a result of the periodic Academic Program Review for all programs at each institution, under the guidance of existing BOR policy; c) other institutional considerations such as redirecting capacity, adoption of new mission, etc. Program discontinuation should not impact state priorities for workforce preparation.
 - [Application for Discontinuation of Existing Program](#)

Informational Items for the Academic and Student Affairs Committee of the BOR

The following instances require that a communication be submitted for inclusion in the BOR-ASA agenda as an information item and do not require a BOR resolution: a) new minors, concentrations/options, specializations or certificate programs not classified in the categories outlined above; b) any program that under previous legislation and process would not have required BOGHE approval; and c) programs that do not qualify students to become eligible for federal financial aid. These instances will also be included as information items to the BOR-AC.

PROCESS FOR THE APPROVAL OF ACADEMIC PROGRAMS

Summary of Process

Early in the proposal development phase at the local level, the institution submits a one-to-two-page New Program Concept Paper to the BOR Office which is shared with the BOR Academic Council (BOR-AC) 3 at its nearest possible meeting for early input, suggestions, and consideration of potential collaborations as appropriate.

Institution creates a Full Proposal in a standard format and submits for review to the BOR Office. Site Visit/Team Visit is only required in special cases (e.g. new degree level, unique direction for the institution, new area of competence).

Based on a Planning and Quality Review, the proposal either a) moves to the BOR Academic and Student Affairs Committee (BOR-ASA) for review and recommendation for approval by the full Board; or b) moves to the Advisory Committee on Accreditation (ACA) to undergo a Quality Review as an intermediate step. In the latter case, the BOR President considers the ACA advisory recommendations before moving the proposal to BOR-ASA and subsequently the full Board.

Process Details

- **Sharing of New Program Concept Paper in Anticipation of Full Proposal** Intent to establish new program is shared at a BOR-AC meeting using a one-to-two-page concept paper sent to the BOR Office 4. BOR-AC provides input as appropriate and in consideration of program justification and benefits, potential for transfer agreements, avoidance of unnecessary duplication, and creation of potential collaborations. Institution takes the comments from BOR-AC under consideration and BOR Office facilitates any further communication as needed. The New Program Concept Paper should be submitted at a time established by the institution in consideration of estimated time of completion of the full proposal, posted dates of BOR-AC, BOR-ASA, ACA, and BOR meetings, desired initiation date for the program, and any necessary lead time required by federal or state laws and regulations.
 - Notes: 1) Along with the New Program Concept Paper, the principal academic officer at the institution may require any additional information, as deemed necessary, for internal use at that institution and in conformance with local governance procedures; 2) In the few cases in which it may not be clear whether the program should fall in the New Program or Program Modification category, early consultation with the BOR Office is highly encouraged. Timeframe - Ongoing, and at each BOR-AC meeting
- **Submission of Full Proposal and BOR Office Review** Provost/AVP/Academic Dean at institution submits a full proposal for Licensure/ Licensure and Accreditation to BOR Office using a standard electronic format; -other than the concept paper, this is the only document required for the entire process; no paper copies are ever required. Substantive modifications of existing programs are also submitted in a standard format. BOR Office responds to applicant institution within two weeks of initial submission and may require that further information or clarifications be added to the proposal document. Proposal is e-mailed to BOR-AC members, placed on the agenda for the next meeting of this group, and posted on the BOR Web site. Members of the BOR-AC are invited to submit any final comments in anticipation to the meeting in which the full proposal is being discussed. Occasionally, a conference call with pertinent principal academic officers and others may be conducted. Full proposal application for a new program contains three sections: Section 1. General Information; Section 2. Program Planning Assessment, and Section 3. Quality Review. The BOR Office conducts a Planning Assessment Review in consideration of: a) how the program addresses Connecticut workforce needs and/or the social and economic wellbeing of the state, including employment prospects for program graduates/completers; b) potential for transfer agreements or transfer programs; c) all pro forma budgetary and cost considerations and projections. The BOR Office also conducts an internal Quality Review using the criteria in existing state regulation, conducts site visit if needed, and makes recommendation to the BOR President. President moves relevant sections of a new program/substantive change proposal to external Quality Review by ACA (see below). Note: In cases in which a site visit takes place, such as new degree level (e.g., a masters degree level is offered for the first time), unique direction for the institution (e.g., a new school or department is created), new area of competence or type of program (e.g., the first Professional Science Master to be offered), such visit will be conducted in a fashion that contributes to the preparation for the particular professional/national accreditation, or consistent with BOR-approved Academic Program Review policy 5. Program applications required to undergo a team site visit will also undergo external Quality Review by ACA.

Programs requiring simultaneous approval by a designated state agency other than the BOR (such as educator preparation programs approved by the State Department of Education) will undergo an onsite visit in conformity with the process and requirements of such agency. Timeframe - From two weeks to no more than six weeks (in cases requiring a site visit)

- External Quality Review New program proposals and most substantive modifications (e.g., the change in more than 15 required credits in an undergraduate program or 12 credits requirement in a graduate program) will significantly benefit from an external Quality Review by ACA. For new programs, the BOR Office circulates the proposal for comment to all Chief Executives and Chief Academic Officers at public and private institutions of higher education in the state, as maintained by OFAAHE. A two-week period is provided for submitting comments. BOR Office collects and reviews comments and responses to include in materials for BOR President and submission to ACA Quality Review. Depending on the extent of the modification some substantive modifications will also require this canvassing process. Concurrent with proposal circulation, the BOR Office requests that the item be added to the ACA agenda at the nearest possible date. The BOR Office provides all documentation in final form for timely inclusion in ACA packet for meeting. At the ACA meetings, BOR staff briefly outlines program and introduces institution's representatives, opening the item for discussion. The advisory recommendation from ACA is presented to the BOR President for consideration and decision to move forward in the process. Timeframe - No more than five weeks, depending on timing of ACA meeting
- Approval Proposal is added to the nearest BOR-ASA meeting for discussion and recommendation for full Board approval. The BOR President places the item in the agenda of the nearest full Board meeting. Timeframe - Between one and two months, depending on timing of BOR-ASA and BOR meetings

Important Requirement for Any New Program

Any new program that entitles an enrollee to apply for federal student financial aid under Title IV must receive approval by the BOR. The institution is responsible for determining that a program is eligible. Once approved, the institution is also responsible for compliance with all Title IV requirements and procedures declaring the approved program as eligible 6.

Overall Timeframe

No longer than two months for nonsubstantive changes. No longer than four months for cases in which a site visit and external ACA quality review are conducted.

Document Flow

The totality of the process is conducted electronically, except for the printing of materials for the BOR.

Formats for Program Approval

Drafts of formats to be used in the approval process are being circulated to all public higher education institutions for comment. Final draft of the process and necessary forms will be available, and become provisionally effective pending BOR-ASA approval on January 10 and BOR approval on January 19, 2012.

Nature of this Document

This document constitutes Board of Regents policy for academic program approval for all public higher education institutions in the state of Connecticut.

1 Sec. 253. (NEW) (Effective July 1, 2011) Notwithstanding sections 10a-34 to 10a-35, inclusive, of the general statutes, as amended by this act, the Board of Regents for Higher Education shall have the authority, in accordance with the provisions of said sections 10a-34 to 10a-35, inclusive, as amended by this act, over academic degrees awarded by public institutions of higher education, including the (1) operation of public institutions of higher education and the programs offered by such public institutions of higher education, (2) licensure and accreditation of public institutions of higher education and programs offered by such public institutions of higher education, (3) evaluation and approval of applications to confer academic degrees made by public institutions of higher education, and (4) assessment of any violation by a public institution of higher education of the authority of said board as described in subdivisions (1) to (3), inclusive, of this section and the imposition of a penalty for such violation.

2 Constituent Units of Higher Education are: the Connecticut Community College System, the Connecticut State University System, Charter Oak State College, and the University of Connecticut. Administrative processes within these units may require additional information and review beyond what is outlined or required in this document and related process forms. For example, any certificate program created at a CC System institution, even if below threshold for BOR approval, requires an administrative review and entry of such program and its courses in the of system-level operated programmatic database.

3 The BOR-AC is composed of the Principal Academic Officers from all institutions under the BOR: the College Deans at CC System, the Provosts/AVPs at the CSUS and COSC, and a representative designated by the Provost of the University of Connecticut. Meetings are planned and facilitated by BOR Academic and Student Affairs Staff.

4 At the CC System, the New Program Concept Paper replaces the Preliminary Program Announcement

SECTION 2: RATIONALE AND JUSTIFICATION FOR PROGRAM DISCONTINUATION

Narrative

Please consider whether discontinuation a) occurs in the context of a related academic improvement, e.g., the merging of programs with declining enrollment/completions into a new program that effectively addresses relevant state needs and students' interests; b) emerge as a result of the periodic Academic Program Review for all programs at each institution, under the guidance of existing BOR policy; c) other institutional considerations such as redirecting capacity, adoption of new mission, etc. Provide any quantitative information in support of the discontinuation, including any relevant financial information. Program discontinuation should not impact state priorities for workforce preparation.

Phase Out/Teach Out Strategy

Please describe how the institution will ensure that students currently enrolled will be provided opportunities to complete the program. Provide quantitative information as needed (e.g. enrollments, any special resources needed, etc.)
