We'll discuss how to find and make time, even if you think you're overbooked already!

APRIL | Living Debt Free

Many people are burdened with the debt they are struggling to pay every month – car payments, student loans, medical bills, credit cards payments, and so on. This webinar is an interactive session that teaches how to break the chain of debt, so participants can start building wealth and enjoying life. We will walk you through the process step by step, so you can begin the journey to living debt free.

MAY | Healthy Connections

Studies have shown that individuals who feel a sense of connection to others and their communities are likely to live longer and enjoy happier, healthier lives. Though we're more "connected" than ever these days through technology, the amount of real, quality interactions is dwindling. This session will review some simple steps for enhancing a sense of connection. We'll learn how some small, sustainable changes can make a huge impact on both physical and emotional well-being.

JUNE | Innovative Decision Making: Problem Solving

Some of the best business ideas and new products have resulted from innovative thinking. Our capacity to be innovative also makes us more flexible, often able to work better with others and to contribute valuable new ideas to our work teams. Join us for this experiential workshop and learn to: utilize multiple ways of thinking, frame problems as questions, use generative brainstorming, and suspend judgement in solving old problems in new ways.
