Notes: The lesson listed on a specific day should be learned that day and the homework for this assignment is due the “next class day” (Thursday’s assignment is due next Monday). Exams will be completed on the day listed.

The number in the ( ) represents the number of questions in that specific homework assignment or exam.

No **Graphing** calculators, TI-84 or similar, may be used for any homework assignment or exam.

A “regular” non-graphing scientific calculator may be purchased for use in this course, such as the TI-30Xa.

Students can also use the calculator installed in the Math Emporium computers for assignments. Be sure to change to the **scientific** option in the View menu each time you begin using this calculator. It is best to always use the same calculator for everything.
