STATEMENT OF RELEASE

Students who fail to provide documentation that they have met the above stated requirements **will not** be allowed in the clinical areas. A criminal background check is required prior to placement in a clinical assignment, direct cost to be incurred by the students. In certain circumstances, evidence of a criminal record may prevent a student from fulfilling clinical requirements and/or requirements for professional licensure.

Some agencies require more than one background check.

I acknowledge that I will be required to be drug tested. Multiple drug tests may be required by agencies. Evidence of positive toxicology screening may prevent me from fulfilling clinical requirements.

I acknowledge that I am required to have received the COVID-19 vaccine and booster. I will be fit tested for certain clinical agencies.

I certify that I have complied with all health requirements and policies. I understand that by signing this document that I accept all responsibility for having met all contractual health requirements by the Department of Nursing, University, and agencies in which I may be assigned to do clinical.

I certify that I have documentation of all the above and that I will produce such documentation at the request of the Nursing Department within 24 hours of such request.

I understand that failure to meet and maintain clinical requirements will mean that I am not allowed into the clinical areas and I will not meet the program requirements.

I am aware that if during the course of the academic year(s) while participating in clinical experiences, **IF my health status should change in a way that would impact my ability to perform in clinical, I am required to notify the Nursing Department Chair and the Nursing Undergraduate Program Coordinator**.
