

Graduate Student Researchers Program

- The NASA Graduate Student Researchers Program is an Agency-wide fellowship program for graduate study leading to a masters degree in science related to NASA research and development.
- This twelve month award requires students to participate in a 10 week NASA Center or HQ-based research experience at the NASA Center/ HQ extending the GSRP Fellowship award.
- Students may apply at any time while pursuing their degree
- If interested, applications are due in March

Benefits:

- Annual stipend of \$20,000
- \$6,000 student allowance
- \$1,000 health insurance
- \$3,000 to your University
