3.

In one paragraph, tell us why you would be a good candidate for the Psychology Internship.
(You may attach a separate document if you wish).

Signature

I agree that if I am accepted into the Internship course I will fulfill all my academic and on-site responsibilities with care and commitment.

I understand that students are required to have significant flexibility in their schedule to accommodate hours required by practicum. I know I will need to devote 10 hours per week to my internship site.

I agree that applying for and accepting an internship is an important commitment for both me and for the internship agency. I agree to be placed into an internship site which I will have the opportunity to accept or decline. If I accept, I agree that I will not withdraw from the internship without discussing this with the course instructor and receiving permission.
